the 1990s, the number of people with a mental health problem has increased in the UK, and the number of people with a mental health problem who are in contact with mental health services has also increased (Mental Health Act 1983, 1990, 1994, 1997, 2003, 2007).

There is a growing awareness of the need to improve the lives of people with a mental health problem, and to reduce the stigma and discrimination that they experience. This has led to a number of initiatives, including the Mental Health Act 1983, the Mental Health Act 1990, the Mental Health Act 1994, the Mental Health Act 1997, the Mental Health Act 2003, and the Mental Health Act 2007.

The Mental Health Act 1983 was the first of a series of Acts that have been passed to improve the lives of people with a mental health problem. The Act 1990 was the first to introduce the concept of 'best interests' into the law. The Act 1994 was the first to introduce the concept of 'least restrictive' into the law. The Act 1997 was the first to introduce the concept of 'proportionality' into the law. The Act 2003 was the first to introduce the concept of 'necessity' into the law. The Act 2007 was the first to introduce the concept of 'proportionality' into the law.

the 1990s, the number of people with a mental health problem has increased in the UK. The prevalence of mental health problems has increased from 10% in 1990 to 15% in 2000 (Mental Health Foundation, 2002). The prevalence of mental health problems has also increased in the USA (Mental Health Foundation, 2002).

There are a number of reasons for this increase. One reason is that the definition of mental health problems has become broader. In the past, mental health problems were defined as serious mental illness, such as schizophrenia, bipolar disorder, and major depression. Now, mental health problems include a wide range of conditions, such as anxiety disorders, personality disorders, and eating disorders.

Another reason for the increase is that the stigma associated with mental health problems has decreased. In the past, people with mental health problems were often stigmatised and discriminated against. Now, there is a greater understanding of mental health problems and a greater willingness to help people with mental health problems.

A third reason for the increase is that the number of people who seek help for their mental health problems has increased. In the past, many people with mental health problems did not seek help. Now, more people are seeking help for their mental health problems.

There are a number of implications of this increase. One implication is that there is a need for more mental health services. In the past, there were not enough mental health services to meet the needs of people with mental health problems. Now, there are more people with mental health problems, so there is a need for more mental health services.

Another implication is that there is a need for more mental health professionals. In the past, there were not enough mental health professionals to meet the needs of people with mental health problems. Now, there are more people with mental health problems, so there is a need for more mental health professionals.

A third implication is that there is a need for more mental health research. In the past, there was not enough mental health research. Now, there are more people with mental health problems, so there is a need for more mental health research.

There are a number of ways in which we can help people with mental health problems. One way is to provide them with more mental health services. Another way is to provide them with more mental health professionals. A third way is to provide them with more mental health research.

There are a number of things that we can do to help people with mental health problems. One thing is to provide them with more mental health services. Another thing is to provide them with more mental health professionals. A third thing is to provide them with more mental health research.

the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.3 billion. This increase is due to the fact that the number of children under 15 years of age has increased in every country in the world, and the increase is particularly large in the developing countries.

The increase in the number of children under 15 years of age has led to a corresponding increase in the number of children who are in need of education. In 1990, there were 1.1 billion children under 15 years of age in the world, and in 2000, there were 1.3 billion. This increase in the number of children in need of education has led to a corresponding increase in the number of children who are out of school.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (19.5% of the population).

There is a growing awareness of the need to address the needs of older people, and the Government has set out a strategy for the 21st century in the White Paper on *Ageing Better: Our Future* (Department of Health 2000). This sets out a vision of a society in which older people are able to live well, and to contribute to society.

The White Paper sets out a number of key objectives, including:

- to improve the health and well-being of older people;
- to ensure that older people are able to live independently and to contribute to society;
- to ensure that older people are able to access the services and support they need.

The White Paper also sets out a number of key actions, including:

- to improve the health and well-being of older people by promoting healthy living and preventing illness and disability;
- to ensure that older people are able to live independently and to contribute to society by providing them with the services and support they need;
- to ensure that older people are able to access the services and support they need by improving the way in which services are delivered.

The White Paper also sets out a number of key principles, including:

- to respect the dignity and autonomy of older people;
- to ensure that older people are able to live well and to contribute to society;
- to ensure that older people are able to access the services and support they need.

The White Paper also sets out a number of key indicators, including:

- the number of older people who are able to live independently and to contribute to society;
- the number of older people who are able to access the services and support they need;
- the number of older people who are able to live well and to contribute to society.

The White Paper also sets out a number of key challenges, including:

- to improve the health and well-being of older people;
- to ensure that older people are able to live independently and to contribute to society;
- to ensure that older people are able to access the services and support they need.

The White Paper also sets out a number of key messages, including:

- older people are a valuable part of our society;
- we must ensure that older people are able to live well and to contribute to society;
- we must ensure that older people are able to access the services and support they need.

The White Paper also sets out a number of key conclusions, including:

- we must ensure that older people are able to live well and to contribute to society;
- we must ensure that older people are able to access the services and support they need.

the 1990s, the number of people with a mental health problem has increased in the UK, and the number of people with a mental health problem who are in contact with mental health services has also increased (Mental Health Act 1983, 1990, 1994, 1997, 2003, 2007).

There is a growing awareness of the need to improve the lives of people with a mental health problem, and to reduce the stigma and discrimination that they experience. This has led to a number of initiatives, including the development of mental health services, the establishment of mental health charities, and the implementation of mental health legislation (Mental Health Act 1983, 1990, 1994, 1997, 2003, 2007).

The aim of this paper is to explore the experiences of people with a mental health problem who are in contact with mental health services. The paper will discuss the challenges that these people face, and the ways in which mental health services can be improved to better meet their needs. The paper will also discuss the importance of mental health services, and the ways in which they can be used to improve the lives of people with a mental health problem.

The paper is organized as follows. The first section discusses the challenges that people with a mental health problem face. The second section discusses the ways in which mental health services can be improved. The third section discusses the importance of mental health services, and the ways in which they can be used to improve the lives of people with a mental health problem. The fourth section discusses the conclusions of the paper.

The first section discusses the challenges that people with a mental health problem face. These challenges include the stigma and discrimination that they experience, the lack of information and support, and the difficulty of accessing mental health services. The second section discusses the ways in which mental health services can be improved. These ways include the development of mental health services, the establishment of mental health charities, and the implementation of mental health legislation.

The third section discusses the importance of mental health services, and the ways in which they can be used to improve the lives of people with a mental health problem. Mental health services are important because they can help people with a mental health problem to manage their condition, and to improve their quality of life. Mental health services can also help people with a mental health problem to reduce the stigma and discrimination that they experience.

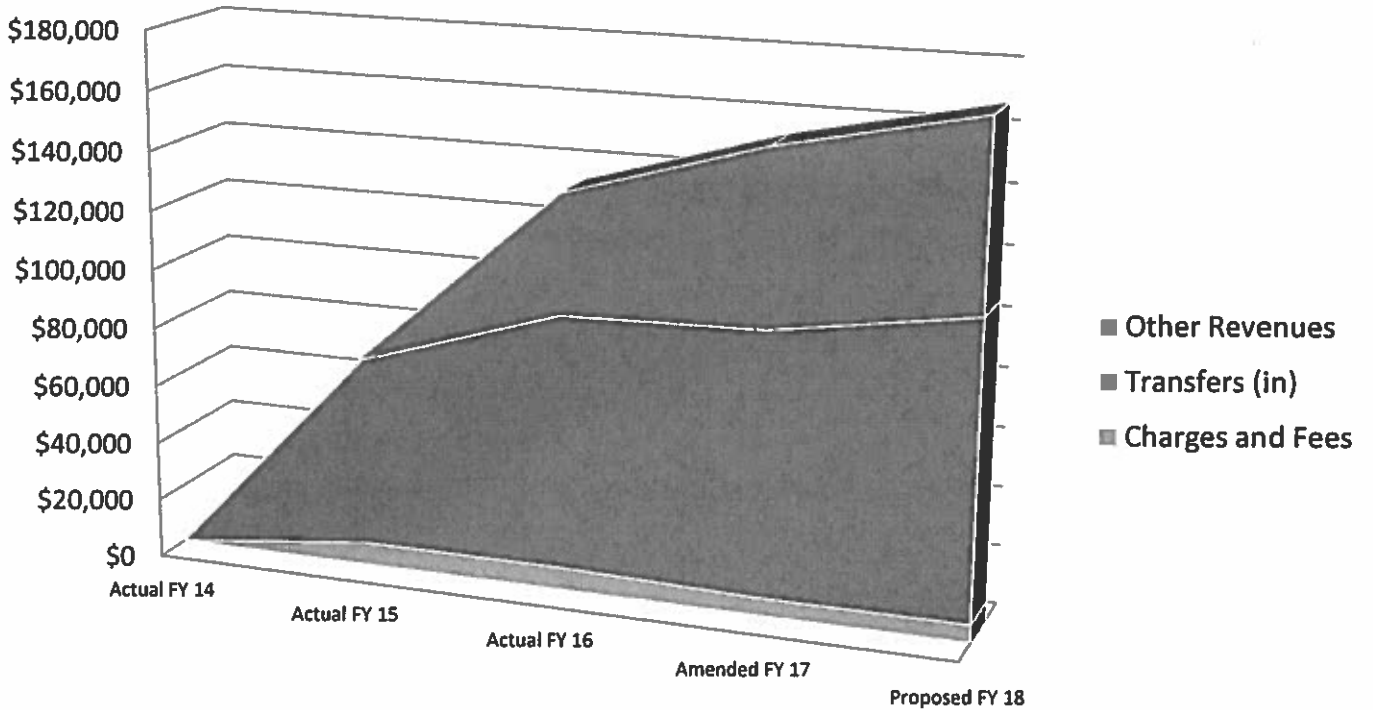

The fourth section discusses the conclusions of the paper. The paper concludes that mental health services are important, and that they can be used to improve the lives of people with a mental health problem. The paper also concludes that mental health services need to be improved, and that there are a number of ways in which this can be done.

The paper is based on a review of the literature, and on the experiences of people with a mental health problem who are in contact with mental health services. The paper is intended to provide a comprehensive overview of the issues, and to provide a basis for further research and discussion.

the 1990s, the number of people with a mental health problem has increased in the UK, and the number of people with a mental health problem who are in contact with mental health services has also increased (Mental Health Act 1983, 1990, 1994, 1997, 2003).

There is a growing awareness of the need to improve the lives of people with a mental health problem, and to reduce the stigma and discrimination that they experience. This has led to a number of initiatives, including the development of mental health services, and the implementation of mental health legislation (Mental Health Act 1983, 1990, 1994, 1997, 2003).

The aim of this paper is to explore the experiences of people with a mental health problem who are in contact with mental health services, and to identify the factors that influence their experiences. The paper is based on a qualitative study of 10 people with a mental health problem who were in contact with mental health services.

The study was conducted in a mental health service in the UK. The participants were recruited through a number of sources, including mental health services, and community groups. The participants were interviewed about their experiences of being in contact with mental health services, and the factors that influenced their experiences.

The findings of the study are presented in this paper. The participants described a range of experiences, including the experience of being diagnosed with a mental health problem, the experience of being in contact with mental health services, and the experience of living with a mental health problem. The factors that influenced their experiences were identified, and discussed.

The study highlights the need for mental health services to be more person-centred, and to take account of the individual needs and experiences of people with a mental health problem. It also highlights the need for mental health services to be more accessible, and to provide a range of services to meet the needs of people with a mental health problem.

The study also highlights the need for mental health services to be more supportive, and to provide a range of services to help people with a mental health problem to live their lives. It also highlights the need for mental health services to be more collaborative, and to involve people with a mental health problem in the development and delivery of services.

The study has implications for mental health services, and for the lives of people with a mental health problem. It highlights the need for mental health services to be more person-centred, and to take account of the individual needs and experiences of people with a mental health problem. It also highlights the need for mental health services to be more accessible, and to provide a range of services to meet the needs of people with a mental health problem.

The study also highlights the need for mental health services to be more supportive, and to provide a range of services to help people with a mental health problem to live their lives. It also highlights the need for mental health services to be more collaborative, and to involve people with a mental health problem in the development and delivery of services.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (15.5% of the population).

There is a growing awareness of the need to address the needs of older people, and the Government has set out a strategy for the 21st century in the White Paper on *Ageing Better: The Government's Strategy for Older People* (Department of Health 2000). This strategy is based on the following principles:

- Older people should be able to live independently and actively in their own homes.
- Older people should be able to live in their own communities.
- Older people should be able to live in their own homes and communities for as long as possible.
- Older people should be able to live in their own homes and communities with dignity and respect.

The White Paper also sets out a number of key objectives for the Government, including:

- To ensure that older people are able to live independently and actively in their own homes.
- To ensure that older people are able to live in their own communities.
- To ensure that older people are able to live in their own homes and communities for as long as possible.
- To ensure that older people are able to live in their own homes and communities with dignity and respect.

The White Paper also sets out a number of key actions for the Government, including:

- To ensure that older people are able to live independently and actively in their own homes.
- To ensure that older people are able to live in their own communities.
- To ensure that older people are able to live in their own homes and communities for as long as possible.
- To ensure that older people are able to live in their own homes and communities with dignity and respect.

The White Paper also sets out a number of key actions for the Government, including:

DEFINITIONS

Ad Valorem Taxes: Taxes collected on the value of real property, both improved and unimproved private property is subject to ad valorem taxes. Cities in Oklahoma can only levy ad valorem taxes in order to pay the debt service on General Obligation Bonds and to satisfy any monetary damages assessed by a court.

Accounting System: The set of records and procedures, which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis Accounting: Under this accounting method, transactions are recognized when they occur, regardless of the timing of related cash receipts and disbursements. Enterprise funds of the City use this basis for accounting. See also Modified Accrual Basis.

Agency Funds: A fund used to account for assets held by a government on behalf of individuals, private organizations, other governments, or funds.

Annual Budget: A budget applicable to a single fiscal year.

Appropriation: An authorization made by the City Council that allows expenditures of governmental resources. Appropriations are typically granted for a one-year period only.

Assessed Valuation: The estimated value of real and personal property used by the Oklahoma County Assessor as the basis for levying property taxes for sinking fund purposes.

Beginning Fund Balance: The amount remaining after accounting for the previous year's revenues less the previous year's expenditures.

Budget: A plan of financial operations for a fiscal year, including an estimate of proposed expenditures for given purposes and the proposed means for financing;

Budget Amendment: The authorization of supplemental appropriations or a decrease or change in appropriations or funds as approved by the governing body;

Budget Calendar: The schedule of key dates that the City follows in the preparation and adoption of the budget.

Budget Message: A written explanation by the City Manager of the budget. The budget message explains principal budget and policy issues, and presents an overview of the City Manager's budget recommendation.

Budget Summary: A tabular listing of revenues by source and expenditures by fund and by department within each fund for the budget year.

Budget Year: The fiscal year for which a budget is prepared or being prepared.

CIP (Capital Improvement Program): This is a budget and planning process used by the City to determine what capital projects will be carried out during the next year.

Capital Assets: Assets of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Outlay: Expenditures that result in the acquisition or addition to fixed assets. Examples include land, buildings, machinery, equipment, and construction projects.

Chief Executive Officer: The City Manager serving as chief administrative officer as defined by applicable law, charter or ordinance;

Current Year: The year in which the budget is prepared and adopted, or the fiscal year immediately before the budget year;

Debt Service: Payment of interest and principal to holders of the City's debt instruments.

Debt Service Fund: A fund established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Deficit: The excess of the liabilities, reserves, contributions and encumbrances of a fund over its assets as reflected by its book of accounts;

Department: A functional unit within a fund which carries on a specific activity, such as a fire department or a police department within a general fund;

Ending Fund Balance: The beginning fund balance plus current year revenues, less current year expenditures.

Encumbrances: The commitments to acquire goods or services and are used primarily for budgetary controls;

Estimate Revenue: The amount of revenues estimated to be received during the budget year in each fund for which a budget is prepared. Revenue includes any appropriated fund balance in the budget of revenues for a fund for the budget year.

Expenditures: Where accounts are kept on the accrual or modified accrual basis of accounting, expenditures are recognized when goods are received or services rendered. Where accounts are kept on a cash basis, expenditures are recognized only when the cash payments are made.

Fiscal Year: A 12-month period to which the annual operating budget applies and at the end of which a government determines its financial position and results of its operations.

Fixed Assets: Assets that are intended to be held or used for a long term, such as land, buildings, improvements other than buildings, machinery and equipment. Fixed assets are also called capital assets.

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other financial resources, together with all liabilities, obligations, reserves, and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

Fund Balance: The excess of the assets of a fund's assets over its liabilities, reserves, contributions and encumbrances, as reflected by its books of account.

General Obligation Bonds: Bonds for which the full faith and credit of the insuring government are pledged for payment.

Governing Body: The City Council of a City or the Board of Trustees of a Utility Authority of a municipality as it may be defined by applicable law or charter provisions.

Immediate Prior Fiscal Year: The fiscal year before the current fiscal year.

Improvements: Buildings, structures, or attachments to land such as sidewalks, trees, drives, tunnels, drains, and sewers.

Interfund Transfers: Expenditures made to other City funds for services rendered.

Intergovernmental Services: Purchases from other governments of those specialized services typically performed by local governments.

Interlocal Agreement: A contract between two government entities whereby one government assumes the lead responsibility of a project that overlaps both jurisdictions.

Internal Service Fund: Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City.

Level of Service (LOS): A level of service for functional areas (Parks, Fire, Police, Utilities, and Transportation). Examples of level of service might be: one police officer per 1000 population, a fire or emergency response time of no greater than five minutes, or one acre of community park per 1000 population. The level of service are defined by the City Council and become the basis for the Capital Facilities Plan. The City's inability to meet its designated level of service will bar further development until the deficiency is removed, or the level of service is redefined.

Lease-Purchase Agreements: Contractual agreements which are termed "leases," but which in substance amount to purchase contracts.

Levy: To impose ad valorem taxes, special assessments, or service charges for the support of governmental activities.

Materials and Supplies: An expenditure classification for articles and commodities purchased for consumption or resale. Examples include office and operating supplies, fuel, power, water, gas, inventory, resale items, small tools, and equipment.

Modified Accrual Basis: Under this accounting method, revenues are recognized when they become both measurable and available to finance expenditures of the current period. Expenditures for the most part are recognized when the related fund liability is incurred except for prepayments, accumulated employee leave, and long-term debt. All governmental funds and expendable trust funds are accounted for using the modified accrual basis of accounting. See also Accrual Basis Accounting.

Municipality: An incorporated city or town.

Object: An expenditure classification, which refers to the type of item purchased, or the service obtained. Examples include personnel services, contractual services, materials, and supplies.

Operating Budget: The operating budget is the primary means by which most of the acquisition, spending, and service delivery activities of a government are controlled. Law requires the use of annual operating budgets.

Operating Reserve: That portion of the fund balance which has not been appropriated in a budget year.

Operating Transfer: Routine or recurring transfers of assets between funds, which support the normal operations of the recipient fund.

Other Services and Charges: An expenditure classification which includes professional services, communication, travel, advertising, rentals, leases, insurance, public utility services, and repairs and maintenance.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period, typically, a fiscal year.

Supplemental Appropriation: An appropriation approved by the City Council after the initial budget is adopted for the amount of additional revenues which are available for current expenses for the fund.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit.

Tax Increment Financing (TIF) District: An economic development tool that allows ad valorem and sales taxes collected before the formation of the District to continue to flow to the participating taxing entities. The tax revenues that increase following the creation of the District are collected by the District to build public improvements to further enhance the attractiveness of the District to retail or industrial development.
