Purpose

Definition - the reason for which something is done or created or for which something exists.

Without purpose, we have no reason.

What is our purpose?

How do we as educators help our students succeed?

What is our purpose as educators?

Teach Academics

Teach Life Skills

Identify Learning Problems

Develop a Culture of Learning

Whose Responsibility is it?

Board of Education

Administration

Teachers

Staff

Anyone Else???

The Community

Having a purpose paves the way for our Vision and Mission

Putting it all together

All stakeholders united will build a culture that everyone can be proud of.

Curriculum Mapping

Curriculum mapping - is the process indexing or diagraming a curriculum to identify and address academic gaps, redundancies, and misalignments for purposes of improving the overall coherence of a course of study and, by extension, its effectiveness

Why is it Important?

- Allows teachers and administrators to focus on balance between the content across curricula.
- It allows them to look into each classroom and see what children learn
- Helps them gather data on redundancies or gaps in the course content.

Our Mission

Empowering our school and community by building a strong educational foundation through teaching academic knowledge and life skills, by eliminating gaps, insuring all students learn, and developing a culture of lifelong learning.

Our Vision

Identify problems early, to intervene and perform restorative care; by alignment for the needs of all students.
