School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

- 1) presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- 2) consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;
- 3) if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and
- 4) in the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions

JBCA HOMELESS STUDENTS

under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:

- 1) is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation:
or
- 2) has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship

JBCA HOMELESS STUDENTS

records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school district and in a manner consistent with the Family Educational Rights and Privacy Act. See policies JR through JRD.

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

- 1) the child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;
- 2) the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and

JBCB Foster Care Students (See EDAA, JBC, and JBCA)

JBCB

The district, in accordance with state and federal law and the Kansas state plan, will ensure that students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, "foster care" means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

KASB Recommendation – 12/16

JBCB FOSTER CARE STUDENT REGULATIONS

Foster Care Student Regulations To Aid In Implementation of Federal Law

NOTE: This document **MUST** be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will

JBCB FOSTER CARE STUDENT REGULATIONS

be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504

JBCB FOSTER CARE STUDENT REGULATIONS

accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

JBCB FOSTER CARE STUDENT REGULATIONS

General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

- 1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;*
- 2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;*
- 3. Cost sharing between the school district of attendance and the school district where the student is living;*
- 4. Use of the district's Title I funds;*

JBCB FOSTER CARE STUDENT REGULATIONS

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

5. *Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;*
6. *Use of any available grant funds; and*
7. *[Other].*

Transportation Strategies

The following transportation strategies may be considered in achieving transportation to a student's school of origin:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

1. *Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;*
2. *Arranging transportation by a relative or another adult approved by DCF with whom the student has a relationship and whose existing commute aligns with the student's transportation need to the school of origin or a bus stop on a route to the school of origin;*
3. *Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation*

JBCB FOSTER CARE STUDENT REGULATIONS

with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);

4. *Using existing intradistrict transportation options that allow students to be transported within the district, such as routes for students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);*
5. *Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;*
6. *Evaluating whether an IEP for a student receiving special education services will include transportation to the student's special education program at the school of origin as a related service;*
7. *Contracting with a private transportation company, such as a taxi service, for the student's transportation needs;*
8. *Using public transportation with a bus pass or transportation voucher;*
9. *Adding a district transportation route; or*
10. *[Other].*

Individual Transportation Plan

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps

JBCB FOSTER CARE STUDENT REGULATIONS

to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded.

When possible, and to allow for adequate consideration of the student's needs, individual transportation planning will begin in advance of placement changes and will occur in coordination with the consultation on the student's educational best interest.

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student's DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student's caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The District foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster

JBCB FOSTER CARE STUDENT REGULATIONS

care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

Plan Elements

The individual transportation plan may include:

- 1. A daily transportation strategy;*
- 2. One or more backup transportation strategies;*
- 3. Transportation strategies to allow participation in after-school and extracurricular activities;*
- 4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;*
- 5. Identification of who is responsible for each aspect of the transportation strategy;*
- 6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;*

JBCB FOSTER CARE STUDENT REGULATIONS

7. *For transportation strategies with multiple segments, sign off procedures to ensure that the student safely and successfully completes each segment;*
8. *A communication protocol between the District and DCF when transportation for a student is no longer needed; and*
9. *A regular review process for adjusting transportation strategies when circumstances change.*

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked to sign the plan.
