1. **PURPOSE**

To identify the persons and titles whose names will be placed on the dedication plaques on new or renovated schools in Somerset County.

2. **BACKGROUND**

The Interagency Committee for Public School Construction has directed that school plaques identifying the members of the Board of Public Works and the Interagency Committee be discontinued. However, dedication plaques citing Board of Education Members, County Commissioners, the Superintendent of Schools, Architects and General Contractors are deemed appropriate and are fundable.

3. **IMPLEMENTATION**

A plaque of dedication shall be erected for all new schools of Somerset County. Plaques should list members of the Board of Education and County Commissioners who were serving at the time of contract award and at the time of dedication. Furthermore, the Superintendent of Schools, the Administrator in Charge of Facilities and Transportation, the architects, and the general contractors shall be cited. Also, the dates of contract award and of occupancy shall be identified.
