1. PURPOSE

To establish the procedures by which vendors may speak with individual teachers or faculties.

2. PROCEDURE

All vendors wishing to speak with principals, individual teachers or faculties during school hours or at any time within the school building should first secure permission from the superintendent and then in turn the individual school principal.

At no time shall an individual teacher be compelled to attend such a meeting unless it has direct influence upon the learning-teaching process. Teachers should not be required to be a captive audience for a sales presentation for which the teacher retains personal judgment of acceptance or non-acceptance.
