

After School K-5 Program Survey

Believe it or not, the 2023-2024 school year is right around the corner. And that means back to juggling school, work, and life—while also making sure your child is learning and creating positive relationships.

Some parents/guardians have expressed an interest in after school child care (3:30 p.m. - 5:30 p.m.) for their K-5 students.

The Helix School District has been in contact with Champions, an after school program provider that could provide quality care and support for Helix K-5 students. The program would run daily after each regular school day. The program would use Helix School District facilities and a bus would be provided at 5:30 p.m. to transport students along our regular routes.

Here is a brief breakdown on the costs:

- Student Registration - \$50/per child or \$75/per family
- Weekly Rate - \$85/per child

Champions would require a minimum enrollment of 20 students, so the District is asking you to complete a brief survey to gauge interest in the program. Individual responses will not be shared.

Please check out Champion's website, if you would like to find out more information about their program - <https://www.discoverchampions.com/landing-pages/back-to-school>

If you are interested in your K-4 student(s) attending an after school program next year at the Helix Schools, please complete the following survey before Friday, June 2nd.
