### Integrated Pest Management Survey

The State of Illinois requires that we provide each parent with the following information regarding the Illinois Structural Pest Control Act.

The Illinois Structural Pest Control Act, (225ILCS 235/10.2) states "When economically feasible, each school and day care center is required to develop and implement an integrated pest management program that incorporates the guidelines developed by the Illinois Department of Public Health".

One provision of the Illinois Structural Pest Control Act is that parents have the right to request to be notified before the building is sprayed for insects.

If you prefer, the school will notify you before spraying inside the building 48 hours prior to spraying, if at all possible. In the next step, mark "yes" if you want to be notified. A "no" response will mean that you will not receive notification.
