Message from the E.G. Hewitt School Nurse

Hello, I am excited to be working with your sons and daughters, having 3 children myself I do understand the challenges of raising children in this busy society. My experience in the Nursing field comes from over 17 years in nursing, from emergency room nursing to pediatric chronic and acute care setting, to the public schools of New Jersey.

My objective is that all of your children will have the opportunity to best take advantage of the awesome educational resources here at E. G. Hewitt Elementary. Although first aid and emergency care are important roles for me, they are by no means where my role ends! My focus throughout the year will be on promoting health and preventing disease.

Therefore, throughout the year, I will provide instruction to students, staff, and parents that address the needs of your children and the school community as a whole. In addition, I will regularly post relevant health information and updates in the Friday Folders.

Most importantly, I would like to have an open line of communication with you. I welcome and appreciate any information you can give me regarding your needs and concerns, whether they are related to the community as a whole or your specific family/individual needs. All of our communications will, of course, be confidential. I am available to you and your child for support, encouragement, and information throughout the year.

Please feel welcome to stop by the nurse's office, email me at gornyt@njrps.org or call me at (973) 962-7015 x22

I am truly honored to be your school nurse and look forward to getting to personally know each and every one of you and your children!

Yours in Health!

Tracy A. Gorny, RN, NJ-CSN
E. G. Hewitt School Nurse
