Examples of Parental Controls

- Restrict websites and time of usage

- Turn off internet or services

- Restrict who can be called

Did you know.....?

Game stations such as Playstations, Xbox, and Nintendo can all connect to the Internet.

Cell phones can connect to the internet and make phone calls even if you do not have a service plan.

Alexa -Check under More under the App, then choose Activities, voice history, you can see all of the requests that have been made on your devices. Limit Voice purchasing under settings.

What Apps are kids today using?

- TikTok - short- form video from sports to pets, does not have a encryption
- YouTube - TV Streaming, live streams, music, sports and how tos
- Roblox - From Google Play create virtual universe (Parental Controls Available)
- Netflix - Anywhere anytime movies and TV
- Snapchat - Messaging and photo APP that are only available for viewing for a short time.
- Instagram - Post photos, videos, stories and reels to Instagram.

Instagram

Social networking service

 YouTube

Things to Know

Sexting	Sharing too much information
Cyberbullying	Passwords and Privacy
Cyber Predators	Bots
Posting Private information	DM (Direct Messaging)
Phishing	Free is not always free
Scams	Use credit cards online
Malware	

What can we do?

- Talk with your students about their online activity
 - Create strong passwords
 - Think before you post
- Keep screens where you can see them
- Use parental controls
- Know your child's online friends
- Be “share aware” to protect your privacy
- Limit your child's online screen time
