### ***First After School Fun Run***

Our First after school fun run was September 19th, 2017. It was a huge hit so many people were there. We had the parents out there running with their children and having fun. We would like to give a good thanks to our principals for the best first fun run for the year and also a thanks to the parent that helped with the fun run, and the teachers.

### ***About Soccer ...***

*By Mayra Canela*

Do you know about soccer? I can tell you everything. Soccer facts: soccer is a sport played between 2 teams of eleven players with a round ball and is known as football in most countries outside of United States. It is a popular sport.

### ***History of Soccer***

Soccer is one of the most popular sports in Europe and in the Americas. It has an interesting history in the world of sports. Soccer was played in China during the 2nd and 3rd centuries B.C. Modern soccer started in England. Soccer is now played in all parts of the world.

Every four years teams from all over the world compete in the World Cup Championship. Brazil won in 2014. The next World Cup takes place in 2018.

# GREAT AMERICAN SHAKEOUT

Kids all over California took place in the Great American shakeout on 10-19-17. It helps us to prepare for a real earthquake because it can happen any day, and we need to be prepared.

## RED RIBBON WEEK

The week of October 23-27 was our Red Ribbon Week. This is the one week of the year we get to wear crazy hair, dress backwards, wear a crazy hat, dress as a twin, and wear red to show that our school is drug free. Everybody had a great time celebrating.

**CRAZY  
HAIR DAY!**

**BACKWARD  
CLOTHES DAY!**

**CRAZY HAT  
DAY!**

**TWINS  
DAY!**

**WEAR RED FOR  
JOG-A-THON!**

# Jog - A - Thon

On Friday, October 27th, we had an excellent Jog-a-Thon. Everyone, grades K-6th, participated. We had water for kids to fill their water bottles, music playing, and scanners going. It was a blast, and everyone had a good time!

## 2nd and 3rd Grade Book Club

On October 25th, the 2nd and 3rd grade book clubs got together and read Beverly Cleary's "Ralph and the Motorcycle." The students read the book with their parents and asked questions about the book. When the book was finished, the second graders made a puppet mouse while the third graders made a paper mouse. Everyone had a great time.

## *The Wreck of Hurricane Maria*

Hurricane Maria was really strong. It was located in Puerto Rico, which is a providence of America. Hurricane Maria was a category 4 storm. It had nearly 160-mph winds. It left 100% of the island without power. The hurricane was so strong that the water level was almost up to four feet. During Hurricane Maria, at least 15 or more people are named dead. There were a lot of diseases going around because of the dirty water. Hurricane Maria could have moved closer to the US East Coast and Bermuda. When people were swimming in the water, people got cut by glass that had broken during the hurricane. Hurricane Maria is the fourth major hurricane. It left 3.4 million people without power. The hurricane ripped through Puerto Rico. Hurricane Maria has devastated the people of Puerto Rico and they are struggling to contact family and just survive to this day.

### *Jag-Wire Jargon*

1. Hazard: an unavoidable danger or risk
2. Can you name the antonym for:  
Hot \_\_\_\_\_  
Cowardice \_\_\_\_\_
3. Pen is to paper as keyboard is to \_\_\_\_\_.

Can you solve this Plexer Pawzzle?

### **Materials:**

- paper cup
- construction paper
- brown pompom
- googly eyes

### **Directions:**

First paint the cup brown.

Next cut out the brown, red, and yellow paper into feathers.

Draw a heart on one side of the red paper. Fold it, turn it upside down.

Then cut a diamond shape on one side of the yellow paper.

Last glue everything together as it is in the picture.

Add googly eyes and feet.

### **Materials:**

- pine cone
- googly eyes
- paper
- pipe cleaners
- glue
- scissors

### **Directions:**

Cut out a triangle of paper for the nose. Take the pine cone and glue the paper to the pine cone. Then glue the googly eyes to the orange paper and the pipe cleaners to be the owl's feet.

## ***Abraham Lincoln Marries Mary Todd***

***by Jose Orduno Aispuro and Kevin Wilken***

Abraham Lincoln met Mary Todd in 1840. Her family didn't like having her around him because he was poor and didn't have any political power. Mary Todd came from a rich family and went to all-girl private schools as a child. In early 1841, Abraham Lincoln broke up with her without an explanation. After that they got back together in fall of the year 1842 and continued the relationship. They soon in no time got married on November 4, 1842. The relationship between Abraham Lincoln and Mary Todd is important because when Abraham Lincoln was elected president on November 6, 1860, she was first lady with him.

## ***Movie Night***

The movie was a big hit. We watched Captain Underpants. Lot of families came to enjoy the show. We enjoyed nachos, pizza, sodas, and popcorn. We had a lot of help from the PTC members. Let's give a big thanks to them, our principals and the moms for helping out.

- 2nd & 3rd Grade Book Club Nov. 29th (3:00pm)

# ENDANGERED SEA TURTLE!?!?

By: David Bueno

Do you know who lived with the dinosaurs? SEA TURTLES! Sea turtles are on the endangered list. Sea Turtles can be found in coral reefs, and many different kinds of oceans around the world. Sea Turtles like to eat meat and plants. If you see a Sea Turtle, do not disturb them

because some are dangerous. Some Sea Turtles are very friendly.

Did you know mama Sea Turtles can lay up to 100 eggs? Mama Sea Turtles can lay up to 3 to 7 nests of eggs in a season. The temperature of the sand changes if they are boy turtles or girl turtles. After they hatch, it takes up to 3 to 7 days to dig out of their sandy nest. They usually leave the nest at night to keep them safe from predators. After they leave the nest, they start swimming in the ocean and do not come back to where they were born for 10 years. Only 1 in 1,000 baby Sea Turtles live to make it to the ocean. They really are remarkable creatures!

# *Hesperia Events*

By Angelo Wright and Reese Kallenberger

Hesperia will be honoring our Veterans on Saturday, November 11th at 11:a.m. The event will honor all veterans who have served.

## *November Fest Kids Kamp*

Hesperia Parks and Recreation is sponsoring Kids Kamp in November from the 20th to the 22nd. If you want to go to camp, talk to your parent/guardian about the November kids camp. The kids camps age range is 5yrs - 13yrs. The price starts at \$20.00.

Please follow the link below to learn more about Kids Kamp!

# Mr. **KNOW** It **ALL**

Mr. Know-It-All knows it all! Just drop your questions in the Mr. Know-It-All box and he'll answer your question in the next issue!

(This is open for any type of question you are curious about.) Be sure to put your name, grade, and teacher on any question you submit to the dropbox.

## Question 1: Mrs. Fedders' Class

Q: *Why will oil and water not mix?*

A: The water molecules are closer together than the oil, and the oil is "lighter" than the water.

## Question 2: Ms. Heil's Class

Q: *How did Halloween begin?*

A: It is believed that Halloween started with the Celts believing that on October 31st, the dead came back to life. The Celts lived 2,000 years ago in Ireland and England.
