United States Department of Housing & Urban Development

1. The United States Department of Housing and Urban Development was created in 1965 to oversee the United States policies for city and urban development.
2. The Department of Housing & Urban Development's Office of Community Planning and Development has oversight of federal housing and community development programs established by the Housing and Community Development Act of 1974 as amended, the Stewart McKinney-Vinto Act, and the Cranston-Gonzalez National Affordable Housing Act.
3. Among the programs authorized under these Acts is the Community Development Block Grant Program.
4. The primary goal of this program is to provide assistance to low-to-moderate-income persons and families.
5. The Department of Housing and Urban Development places low-to-moderate-income individuals and families into one of three categories, based on a metropolitan area or county's median income. If a family earns an annual wage:
 - at or below 80 percent of its area's median income, the Department of Housing and Urban Development labels the family "low-income";
 - at or below 50 percent of its area's median puts a family in the Department of Housing and Urban Development's "very low-income" category;
 - at or below 30 percent of the median prompts a classification of "extremely low-income";

Community Development Block Grant Program

1. The primary regulation governing the Community Development Block Grant Program is:
 - Title 24 - Housing and Urban Development
 - Code of Federal Regulations
 - Part 570 - Community Development Block Grants
2. The objective of the Community Development Block Grant Program is the preservation and development of viable communities by providing decent housing, a suitable living environment, economic development opportunities, public services and public facilities principally for low-to-moderate-income persons and families.
3. Funds authorized by Congress under the Community Development Block Grant Program are made available to entitlement cities according to a formula allocation.

4. The City of Springdale is classified as an Entitlement City and therefore receives the formula grant annually as participants in the program. However, the City must have a current Consolidated Plan in place and prepare and submit an Action Plan before the start of each new program year in order to receive the funds.
5. Entitlement Grants are awarded for specific Program Years.
6. The City's Community Development Block Grant Program Year is the 12 month period beginning July 1st in the fiscal year for which the appropriation is made and ending on June 30th the following year.
 - Entitlement City: a City awarded a grant annually from the Department of Housing & Urban Development because the city meets the threshold of a formula allocation
 - Entitlement Grant: the annual grant allocation awarded to a City by the Department of Housing & Urban Development for a specific Program Year
 - Program Year: the authorized operating period of a particular program. The term is usually used to distinguish the program's operating period from the federal government's fiscal year

National Objectives

1. Communities develop their own programs and funding priorities based on local needs.
2. The Department of Housing & Urban Development established guidelines to define the types of projects and activities that may be undertaken and to ensure each project and activity to be carried-out meets one of the three national objectives of the Community Development Block Grant Program.
 - Benefit low and moderate income persons either individually, such as housing rehabilitation, or area-wide, such as improvements to streets, sidewalks, and parks. Activities that benefit special populations that are presumed to be low and moderate income such as elderly persons, abused spouses or children, homeless persons, and developmentally or physically disabled/handicapped persons;
 - Aid in the prevention or elimination of slums and blight;
 - Meet urgent community development needs that pose a serious and immediate threat to the health or welfare of the community (i.e., natural disasters):

Program Objectives and Outcomes

1. Three objectives of the Community Development Block Grant Program are:
 - Creating Suitable Living Environments - In general, this objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment.
 - Decent Housing - The activities that typically would be found under this objective are designed to cover the wide range of housing possible under the Community Development Block Grant Program. This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under Suitable Living Environment.
 - Creating Economic Opportunities - This objective applies to the types of activities related to economic development, commercial revitalization, or job creation.

2. Three outcomes of the Community Development Block Grant Program are:
 - Availability and/or Accessibility - This outcome category applies to activities that make services, infrastructure, public services, public facilities, housing, or shelter available or accessible to low-and-moderate-income people, including persons with disabilities. In this category accessibility does not refer only to physical barriers, but also to making the affordable basics of daily living available and accessible to low and moderate income people where they live.
 - Affordability - This outcome category applies to activities that provide affordability in a variety of ways in the lives of low-and-moderate-income people. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as transportation or day care.
 - Sustainability, Promoting Livable or Viable Communities - This outcome applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low-and-moderate-income or by removing or eliminating slums or blighted areas, through multiple activities or services that sustain communities or neighborhoods.

Program Requirements

1. Community Development Block Grant Program funds are federal funds; therefore, there are a number of significant rules and regulations which must be followed in order to comply with federal requirements.

2. Some of the rules and regulations are:
 - A minimum of 70% of the annual grant allocation must support activities that benefit low-to-moderate-income persons and families. Some activities meeting this requirement are those which:
 - a. Serve all residents in a particular area, where at least 51% of residents are low-to-moderate-income.
 - b. Benefit a limited clientele, as long as at least 51% are low-to-moderate-income.
 - c. Improve permanent single-family residential structures which are owned and occupied by low-to-moderate-income persons
 - Community Development Block Grant Program funds generally may not be used for religious activities or provided to primarily religious entities for activities.
 - Community Development Block Grant Program funds may be used for eligible public services to be provided through a primarily religious entity, provided that the religious entity enters into an agreement with the City stating it will not discriminate on the basis of religion and it will not provide any sort of religious services or other types of influential activities.

Income Information and Limits

1. As established by the Department of Housing & Urban Development, the cities of Fayetteville/Springdale/Rogers make-up a metropolitan statistical area.
2. Income Limits are provided by the Department of Housing & Urban Development. Guidelines are updated and released annually. To qualify as low-income, a family's total household income must have an Adjusted-Gross-Income of 80% or less of the median adjusted for family size.
3. To qualify for the Community Development Block Grant Program as low-income, a person's total income or family's total household income adjusted for family size must have an Adjusted-Gross-Income of 80% or less of the median.

2. The Community Development Block Grant Program Director will partner with other agencies to accomplish their short and long term goals and at the same time meet the goals set by the Department of Housing & Urban Development. These goals are:

Integrated Disbursement & Information System

1. To enable the Department of Housing & Urban Development to better manage the disbursement of funds and to track on a real-time basis the progress being made by grantees in serving low-to-moderate-income persons and families, the Integrated Disbursement & Information System (computer program) was developed.
2. The City uses the Department of Housing & Urban Development's Integrated Disbursement and Information System to disburse funds from the federal treasury and to report to the Department of Housing & Urban Development on the City's program accomplishments, including the characteristics of persons served through program activities.
3. Federal funds are not disbursed from the allocation on a "lump sum" basis. Funds are disbursed from each activity that the city carries out to meet program goals.
4. The Integrated Disbursement & Information System uses a Project/Activity relationship. A project is linked to a specific program. The entire grant allocation is allocated among the different projects.
5. The four projects the City has setup under the Community Development Block Grant Program are eligible to be funded from the annual Community Development Block Grant Program allocation. However, the City does not require funds be committed to each of the four projects.
6. The City only requires that Program Administration, Housing Services and Public Services be funded each program year. Projects are listed in the Action Plan and describe the proposed use of program funds. In the Integrated Disbursement & Information System, projects are used to link activities back to the Action Plan.
7. Projects in the Integrated Disbursement & Information System are:
 - Program Administration
 - Housing Services
 - Public Services
 - Public Facilities
8. Each activity is associated with a "Project". All activities carried-out by the City will be linked to one of the four projects.

9. An activity is a specific activity where the grant funds are committed to carry out that activity. Activities are listed in the Consolidated Plan and Action Plan and describe the use of program funds. For example: Housing Services is the Project. Under this project, activities will be Housing Administration Program, Lead-based Paint Program, Paint Program and the Housing Rehabilitation Program. Each Housing Rehabilitation activity is setup separately because each activity has a different address. On average, there are 30 separate activities listed under the Project known as Housing Services during any Program Year.

A sub-recipient may also be a recipient of other federal awards directly from a federal awarding agency. Circular A-133: Audits of States, Local Governments and Non-profit Organizations.

Revisions:

1. An Assessment of Fair Housing previously accepted by the Department of Housing & Urban Development must be revised and submitted to for review under the following circumstances:
 - a. A material change occurs. A material change is a change in circumstances in the City that affects the information on which the Assessment of Fair Housing is based to the extent that the analysis, the fair housing contributing factors, or the priorities and goals of the Assessment of Fair Housing no longer reflects actual circumstances. Examples include Presidentially-declared disasters, under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), in Springdale that are of such a nature as to significantly impact the steps the City may need to take to affirmatively further fair housing; significant demographic changes; new significant contributing factors in the city; and civil rights findings, determinations, settlements (including Voluntary Compliance Agreements), or court orders; or
 - b. Upon the Department of Housing & Urban Development's written notification specifying a material change that requires the revision.
2. A revision pursuant to paragraph (1a) of this section consists of preparing and submitting amended analyses, assessments, priorities, and goals that take into account the material change, including any new fair housing issues and contributing factors that may arise as a result of the material change. A revision may not necessarily require the submission of an entirely new Assessment of Fair Housing. The revision need only focus on the material change and appropriate adjustments to the analyses, assessments, priorities, or goals.

3. Where a revision is required under paragraph (1a) of this section, such revision shall be submitted within 12 months of the onset of the material change or at such later date as the Department of Housing & Urban Development may provide. Where the material change is the result of a Presidentially-declared disaster, such time shall be automatically extended to the date that is 2 years after the date upon which the disaster declaration is made, and the Department of Housing & Urban Development may extend such deadline, upon request, for good cause shown.
4. The Department of Housing & Urban Development will specify a date by which the City must submit a revision of the Assessment of Fair Housing, taking into account the material change, the City's capacity, and the need for a valid Assessment of Fair Housing to guide planning activities. The Department of Housing & Urban Development may extend the due date upon written request by the City that describes the reasons the City is unable to make the deadline.
