

Request For Proposals
Excavation And Pipe Repair Service
For Plateau Valley School Sewer Repair Project
Released May 13, 2019

Project Description

Plateau Valley School is accepting proposals for the excavation and repair of sewer main. The schools sewer main is and 8 inch line. The sewer main has a tee that is connected to the schools leach field. The project will be the excavation of the tee and removal of this tee and repair main to operating service. The contractor will be responsible for saw cutting and removal of concrete gutter and pavement from the area of excavation. Once repairs are made backfilling and compacting to ensure there will be no sinking at excavation sight. Contractor will also be responsible for having a reputable paving company repair excavation sight. Contractor will be responsible for all safety measures involved in the project which may possibly include shoring or cut backs where needed. The Contractor will also be responsible for taking care and protecting power transformer and slab at excavation sight. The timeline to be finished by the end of June 2019.

Insurance Requirements

The proposer shall, at its own expense, procure and maintain for the duration of the agreement, insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the agreement by the consultants, its agent, representatives, employees, or subcontractors. Proposer shall also require all of its subcontractors assigned to provide services to procure and maintain the same insurance requirement for the duration of the agreement. Specific insurance requirements are as follows: General Liability insurance of at least \$1,000,000 per occurrence and \$2,000,000 general aggregate liability. Automobile liability insurance of at least \$1,000,000 per accident. Workers compensation of at least \$1,000,000.
