Our Mission

To engage students in learning that is intellectually vital, personally meaningful, and socially valuable.

The Community

As a part of the Essex Westford School District, Essex High School (EHS) serves Essex Junction, Essex Town, and Westford. These suburban towns have a combined population of 34,878 and are located ten miles from Vermont's largest city, Burlington. The US Census estimate for Chittenden County in 2020 was 168,865. Most residents within the district are employed in business, education, and other professions. The 2 largest Essex Junction employers are Global Foundries Microelectronics plant and Green Mountain Coffee Roasters.

The School

Essex High School is a public secondary school enrolling approximately 1260 students in grades 9 through 12. Essex High School was ranked #50 among all STEM high schools in the nation by Newsweek in 2020. Essex High School is accredited by the New England Association of Schools and Colleges and approved by the Vermont Agency of Education. Essex High School holds memberships in the National Association for College Admissions Counseling (NACAC), the New England Association for College Admission Counseling (NEACAC), and the New England Secondary School Consortium (NESSC) League of Innovative Schools.

Grading and Ranking

Essex High School does not weigh grades or rank students. The GPA calculation uses the following grade conversion tables to assign grade point values of 0 to 4.33 to final course grades before averaging. Starting in 2018-2019, grades are reported as letter grades and the requirement for passing is 60 and up. Grades were previously reported numerically on a 0-100 scale. Transcripts will display the final letter grade. Honor Roll students have a grade of either a P for Pass or a B or better in every class. The conversion charts below describe our current grading systems.

Dual Enrollment/Concurrent Enrollment:
EHS offers a variety of concurrent dual enrollment opportunities. These courses will be listed on the transcript under the "Summer/College Course History" section.

Grading in 2019-2020 due to COVID-19: Year-long and first semester classes were recorded as usual. Second semester classes received grades of Pass or Incomplete. These classes were not factored into the GPA. Year-long class grades are calculated using 30%/30%/30%/10% for the achievement demonstrated during 1st, 2nd, and 3rd quarters and the mid-term exam. Students in full-year courses who earned passing grades for 4th quarter and remained engaged with attendance through the end of the course have a grade of "P+" which results in a grade increase by one mark (e.g. A- to A).

Class Schedule

Essex High School uses an A/B block schedule with four 80-minute blocks per day on a two-day alternating cycle. A 30-minute mid-day "flex block" happens every day and includes advisory and academic support time. .

INTEGRATED ACADEMIES: Find information at ewsd.org/ehs under the EHS Academies tab.

The Academy of Visual and Performing Arts (AVPA) offers artistic pathways that provide a challenging and comprehensive academic arts curriculum for students interested in developing their passion and interest in the arts. Authentic learning opportunities, intensive study, guest artist visits, master classes, internships, and off-site visits provide a strong foundation for students who wish to pursue the arts at any level.

The Global Leadership Program (GLP) is an innovative program focused on three core competencies: global studies, cross-cultural competency and leadership development. The program is augmented with an international exchange program that is both virtual and face-to-face. Students also hear from ambassadors, politicians, and authors in the GLP Speaker Series, and learn about critical languages and cultures in the Language and Culture Series.

The STEM Academy students explore their passion for science, medicine, or engineering, using technology and the community to help them grow in their area of interest. Students typically apply for the academy at the end of 9th grade and participate in a STEM advisory. To receive a STEM endorsement students will attend 10 lecture series events, take the STEM internship class and complete a capstone project in their 12th grade year.
