

**BOCES Mission Statements**

As a BOCES and the policy making body, it is expected that mission statements be adopted to provide direction for the total organization. These statements will be particular to this immediate school district and will provide a basis for establishing long range goals and annual goals. The District Superintendent, the Chief Executive Officer of the Board, will interpret the mission statements and long range goals to the administrative staff through the development of concise goal statements. It is then the responsibility of each department within the organization to reduce administrative goals to measurable objectives.

BOCES-wide mission statements and long range goals are to be reviewed by the Board on an annual basis and updated as needed.
