

Fair Play Health and Wellness Assessment

These questions were reviewed by the Health and Wellness Committee to see if any revisions, deletions or substitutions were needed to current policies:

1. Are the goals of physical education and nutrition education being met through school and after school curriculum? ***The Wellness Committee agrees that goals are met.***
2. Is physical and nutritional education available during summer months? ***Yes, during summer school.***
3. Do we feel that the students' nutritional needs are met through the Food Service Program? ***yes***
4. Do our students have adequate space, time and an enjoyable climate to eat? Are hand washing or sanitizing facilities available for students and staff? ***yes to both questions***
5. Are handouts or flyers available to parents and staff concerning exercise and nutrition? ***Yes, in health office, community information tables, and at monthly family nights.***
6. Are developmentally appropriate health related assessments introduced to students to prepare them for future assessments? ***Yes, at annual Health Expo and through Physical Education assessments.***
7. Does the health office send reminders or notices to parents when regular immunizations required by school policy are due? ***Yes***
8. Is the health office aware of resources to recommend to community and school populations? ***Yes***
9. Have health related trainings been made available to interested health office staff? ***Yes, many opportunities are made available throughout the year.***
10. Are any changes recommended at this time? ***The Health and Wellness Committee believes that no changes are needed at this time.***
