You should have received your Portal Activation Key from your child's school. If you have not received this key, please contact the registrar at the school.

2. Enter the Portal Activation Key that you were given and click Submit. This key is unique for each individual and can only be used once to create a portal account. The key must be typed exactly as it appears or you will not be able to generate an account. Note: If you get a message that your Activation Key (also called GUID) doesn't work or has already been used, that means you have already set up an account. You will need to contact the registrar at your child's school to have your password reset.

Activating your Campus Portal account
Activating your Campus Portal parent portal account is easy. All you need is your Campus Portal Activation Key sent to you by your child's school.
