The 4 Behaviors of a BISD Digital Citizen

✔ Be - Safe
  ● Do not share private information such as your full name, address, birthday, social security number, passwords, family information and other personal information.
  ● Visit age appropriate websites.
  ● Avoid conversations with strangers.

✔ Be - Appropriate
  ● What happens on the internet could be there forever. Pictures, messages, texts, web-sites, videos, and chats can all be retrieved. These digital records could be shared resulting in a “digital footprint” that does not go away.
  ● Always consider your reputation before you send, view, or search.
  ● Create a digital footprint that you are proud to share.

✔ Be - Responsible
  ● Monitor how much time you spend in front of the screen.
  ● Show others respect when using their ideas or work by giving them credit, just as you should expect others to treat your ideas.
  ● Utilize the digital world to create greater educational opportunities.

✔ Be - a Good Citizen
  ● Kindness to others, even when they cannot see you, is always expected.
  ● Good citizens are supportive and encouraging of others both while at school and away.
  ● Report citizens that are not demonstrating good citizenship.
  ● Help your parents grow in their understanding of the digital world and give them reasons to trust and support you.

Student Acceptable Use Policy as referred to in Board Policy CQ (LEGAL)

Burkburnett Independent School District provides a variety of electronic communications systems for educational purposes.

The electronic communications system is defined as the District’s network (including the wireless network), servers, computer workstations, mobile technologies, peripherals, applications, databases, online resources, Internet access, email, and any other technology designated for use by students, including all new technologies as they become available.
System users and parents of students with access to the District's computer network should be aware that users will be provided access via the Internet to other electronic communications systems in the global electronic network that may contain inaccurate and/or objectionable material. While the District will take reasonable steps to restrict access to such material, it is not possible to absolutely prevent such access. In addition, the smooth operation of the network relies upon the proper conduct of end users who must adhere to guidelines. These guidelines are provided so that users are aware of the responsibilities they are about to acquire.

This also includes any access to the Burkburnett ISD electronics system while on or near school property, in school vehicles and at school-sponsored activities, and includes the appropriate use of district technology resources via off-campus remote access. Please note that the Internet is a network of many types of communication and information networks, including Web 2.0 resources (Blogs, Wikis, Podcasts, etc.), and is part of the district’s electronic communications systems. Web 2.0 applications offer a variety of 21st Century communication, collaboration, and educational creativity opportunities. In a 21st Century school system, technologies, the Internet, and Web 2.0 tools are essential.

Burkburnett ISD uses certain cloud-based (online) applications, meaning applications (such as Google Apps for Education or online grade books) that allow authorized individuals to access student information, including assignments and grades, through the Internet for school-related purposes.

In accordance with the Children’s Internet Protection Act, Burkburnett Independent School District educates staff and students regarding appropriate online behavior to ensure Internet safety, including use of email and Web 2.0 resources, and has deployed filtering technology and protection measures to restrict access to inappropriate content such as those that are illegal, harmful, or contain potentially offensive information. While every effort is made to provide the most secure and optimal learning environment, it is not possible to absolutely prevent access (accidental or otherwise) to inappropriate content.

*It is each student’s responsibility to follow the guidelines for appropriate and acceptable use.*

**Web 2.0 Tools**

**Student 13 or younger:** For students under the age of 13, the Children's Online Privacy Protection Act (COPPA) states that a school district should maintain a list of the websites and online services appropriate for educational use it has consented to on behalf of the parent www.burkburnettisd.org. BISD maintains an approved list of suggested classroom digital tools at: www.burkburnettisd.org. BISD will always require students to use digital tools or apps in a way that is consistent with the Children’s Online Privacy Protection Act. Parents may deny access to the BISD approved list of digital tools by notifying their child’s campus administrator in writing.

2. Users shall not take or post photos, videos or audio recordings of others without their prior permission.
3. No user activity or data on District issued systems should be considered private by any user.
4. Data stored on District issued systems by students may be deleted at the conclusion of each school year. Students should make a backup on removable media of any data they want to preserve.
5. Data stored on District issued systems by employees will generally be accessible to the following school year. However, employees should backup all data they want to preserve both periodically as well as at the conclusion of each school year.

Any user who gains access to inappropriate material is expected to discontinue the access as quickly as possible and report the incident to their teacher, supervisor, or the technology director.
6. Users shall not deliberately annoy or harass others using a District device, network, or account.
7. Users shall not intentionally erase, rename, modify, or damage data belonging to others.
8. Reproducing another student’s work (in part or in whole) for purposes of academic cheating is classified as plagiarism/forgery and may result in the suspension or revocation of system privileges as well as other consequences consistent with the Student Code of Conduct.
9. Users shall use the Burkburnett ISD computer network resources primarily for instructional or administrative purposes. Users shall be permitted limited personal use as appropriate if such use does not impose a tangible cost to the District, does not unduly burden the District's computer or network resources, does not adversely affect the student’s academic performance or employee’s job performance, and does not

**EMERGENCY PLAN**

During an emergency situation, students may only use their cell phones to contact 911. All other calls will be in violation of the AUP. Status, actions required, and official information will be communicated to parents and others by the District.

**PERSONAL TECHNOLOGY DEVICES**

**Possession and Use of Personal Telecommunication Devices, Including Mobile Telephones**
For safety purposes, the district permits students to possess personal mobile telephones; however, these devices must remain turned off during the instructional day, including during all testing unless they are being used for approved instructional purposes. A student must have approval to possess other telecommunications devices such as netbooks, laptops, tablets, or other portable computers.

The use of mobile telephones or any device capable of capturing images is strictly prohibited in locker rooms or restroom areas while at school or at a school-related or school-sponsored event.

If a student uses a telecommunications device without authorization during the school day, the device will be confiscated.

- **Third Offense** – the school will confiscate the device and keep it for the remainder of the school year with a $15.00 administrative fine due upon return

Only the parent may pick up the confiscated telecommunications device from the principal’s office.

Confiscated telecommunications devices that are not retrieved by the student’s parents will be disposed of after the notice required by law. [See policy FNCE.]

In limited circumstances and in accordance with law, a student’s personal telecommunications device may be searched by authorized personnel. [See policy FNF for more information.]

Any disciplinary action will be in accordance with the **Student Code of Conduct**. The district is not responsible for damaged, lost, or stolen telecommunications devices.

**Possession and Use of Other Personal Electronic Devices**
Except as described below, students are not permitted to possess or use personal electronic devices such as MP3 players, video or audio recorders, DVD players, cameras, games or other electronic devices at school, unless prior permission has been obtained. Without such permission, teachers will collect the items and turn them in to the principal’s office. The principal will determine whether to return items to
students at the end of the day or to contact parents to pick up the items.

In limited circumstances and in accordance with law, a student’s personal electronic device may be searched by authorized personnel.

Any disciplinary action will be in accordance with the Student Code of Conduct. The district is not responsible for any damaged, lost, or stolen electronic device.

Students must obtain prior approval before using personal telecommunications or other personal electronic devices for instructional use. Students must also sign a user agreement that contains applicable rules for use (separate from this handbook). When students are not using the devices for approved instructional purposes, all devices must be turned off during the instructional day, unless the student’s campus administration has directed otherwise. If you do not fully comply in a timely manner with all terms of this Agreement and the BISD Student Technology Acceptable Use Policy including the timely return of the property, Burkburnett ISD shall be entitled to retake possession of the device, even if the device is located at your place of residence or other location.

Term of Agreement

Your right to use and possess the device terminates the last day you are enrolled in Burkburnett ISD unless otherwise terminated earlier by Burkburnett ISD. You must immediately return the device upon graduation or withdrawal from Burkburnett ISD or upon request by the District (unless you have chosen to purchase your Chromebook upon graduation). Your continued use of the device for non-school purposes without our consent may also be considered unlawful appropriation of the District’s property.
Use of devices on Network

Burkburnett ISD is committed to the availability of technology resources for student work. If you are experiencing problems with your device, you should be able to continue with class work. To assist in these situations, Burkburnett ISD will provide a device for temporary use provided that the device’s technical problems were not caused by or related to noncompliance with this policy.

Storage

The device affords limited electronic storage space. If you are lacking a sufficient amount of storage space on the device, you will be required to delete apps, music, photos, and so forth, in order to make necessary educational-related programs accessible.

You may also utilize “cloud” storage programs, which allow access to documents from other computers via the Internet. It is your responsibility to ensure that work is not lost due to mechanical failure, accidental deletion or re-imaging.

Internet Safety

There are many sites on the Internet that can be potentially dangerous to minors. Burkburnett ISD makes every effort to block these sites both inside and outside of the district by routing Internet traffic through the District’s content filter. You are in violation of district policy if you use software utilities or other means to access content blocked by school filters. Parents may want to further restrict their home access. For more information about Internet safety, you may go to http://www.tea.state.tx.us/index2.aspx?id=2147487064.

During the upcoming school year your child may have the opportunity to participate in a
LIVE educational videoconference(s). Through interactive videoconferences, students
are able to take part in lessons and activities that they normally would not have the
opportunity to experience due to distance and/or expense. Videoconferences are used
to connect students with educators in a class setting. Videoconferences could also take
place at school and electronically connect your child’s classroom to a content provider
(such as a museum, NASA, a university, etc.), to another educator, and possibly to
another classroom with students somewhere in Texas or around the world. Since this
event would be a live "broadcast", utilizing Zoom conferencing software or similar
services, we request your approval and signature.

PARENT OR GUARDIAN

I understand that during an interactive videoconference my child's voice, physical
presence, and participation in activities will be transmitted to distance learning sites and
may be recorded for future use in an educational setting. I hereby authorize my child to
participate in interactive videoconferences this school year and understand that my
child's voice, presence, and participation in these events will not be a violation of his/her
