

PARENT, FAMILY AND COMMUNITY PARTNERSHIPS

Vision

Students master academic skills and develop civic responsibility, because of family, school and community support enhanced by school partnerships with parents, families and community. These partnerships enable parents to:

- A. Understand their children's school experience;
- B. Participate as volunteers in school;
- C. Support student learning at home;
- D. Develop effective parenting skills;
- E. Participate in important decisions affecting their children; and
- F. Rely on community resources to support their parenting efforts.

Structure

A. Building Level: Parent and Community Partnership Plans

Each school and the families and community it serves is different. Therefore, each school must have its own approach to parent and community partnerships.

- 1. School staff work with parent and community volunteers in the school in ways that are beneficial to students and that strengthen school and community relations.
- 2. Families receive information about how to support their children's learning at home and will have access to someone to advise them when they encounter difficulty.
- 3. All staff members are able to refer parents to resources for assistance in developing their parenting skills, or to obtain advice on family financial, health or welfare issues. Connections are maintained with community resources and agencies to assure current information and continuous cooperation.

When a parent is unavailable to fulfill the parent's role, reasonable efforts will be made to identify an adult, acceptable to the family, to act as a communicator and supporter for the student's education.

B. District Level: Expectations, Support and Resources

The success of each school's plan depends upon its appropriateness to the school's service area. Just as those plans must meet the expectations of this policy, they must have the support of the district. The district shall develop a three year plan to achieve the following goals:

- 1. In-service training enables teachers and administrators to perfect their skills in working with parents and families as partners in students' learning.
- 2. Financial and staff resources are allocated to assist and support the implementation of individual school plans.
- 3. When hiring and promoting personnel, consideration is given to experience and performance in developing effective parent, family and community partnerships.

4. Family resource centers are developed by the district in partnership with individual schools or other community organizations to support the development of parenting skills, including helping parents to develop the capacity to support students' learning at home.
5. Partnerships with other units of government and public and private social, health, welfare and fraternal agencies are developed to create a community support system to strengthen families' ability to guide the academic and character development of their children.

Accountability

- A. An information system shall be developed to enable the district to assess progress toward its Parent, Family and Community Partnership goals. Using the information reported to it, the board shall review progress each year toward the policy's goals reported by each school and the district.

Advocacy

- A. Each year the Board shall focus the community's attention on Parent, Family and Community partnerships by reviewing progress toward the district's goals and hosting a community forum to promote discussion among school, parent and community leaders about how they can continue to work together to support the academic and civic development of students.
- B. The Board shall use polling, community meetings and participation in the meetings of other organizations to (1) understand public expectations for the schools and (2) explain the school's work in strengthening parents' and families' ability to support students' academic and civic development.

KETTLE FALLS SCHOOL DISTRICT NO. 212
