

## **ACT 1039 - Dyslexia Screening and Intervention**

### **BACKGROUND**

In 2013, the Arkansas Legislature passed [ACT 1294](#) to ensure that students with characteristics of dyslexia would have their needs met by the State's public school system.

In 2015, [ACT 1268](#) expanded this initiative by adding requirements concerning dyslexia screenings, and specifying actions required by the state, educational cooperatives, and school districts.

In October of 2016, the Arkansas Department of Education (ADE) published rules governing the implementation of ACT 1268. These [updated rules](#) provided further clarification, guidance, and instruction on how to meet the needs of students exhibiting characteristics of dyslexia.

In April of 2017, the Arkansas Legislature passed [ACT 1039](#) to further amend and clarify code provisions regarding dyslexia screenings and intervention, and to add specific enforcement provisions tied to school accreditation. It also added new public posting requirements. **The information on this page meets or exceeds all public posting requirements.**
