

Texas Commission on Environmental Quality

CERTIFICATE OF DELIVERY OF TIER III PUBLIC NOTICE TO CUSTOMERS:

Public Water System (PWS) name: GRADY ISD

PWS ID: 1590007

Type of Violation or Situation	Time Period(s) of Violation	# Samples Required	# Samples Submitted
3A Revised Total Coliform Rule-Monitoring	12/1/2018 – 12/31/2018	1	1 - entire sample rejected

30 TAC 290.122(c) states that the owner or operator of a PWS who fails to perform required monitoring, fails to comply with a test procedure, or is subject to variance or exemption granted under §290.102(b) shall notify persons served by the system no later than one year after the PWS learns of the violation. The initial public notice shall be issued in the following manner:

Please indicate how the PWS provided this public notice to customers, mark all that apply:

COMMUNITY WATER SYSTEM:

- Mail or other direct delivery to each customer receiving a bill and to other service connections to which water is delivered **OR**
- Reporting in the Consumer Confidence Report (CCR) **(At least one of these two options is required)**
AND any other method reasonably calculated to reach other persons served by the PWS such as (choose one or more below):
- Delivery of multiple copies for distribution to others (i.e. apartment building owners, large private employers)
- Continuous posting in conspicuous public places within the area served
- On the internet
- Electronic delivery or alert systems (e.g., reverse 911)
- Delivery to community organizations

NONCOMMUNITY WATER SYSTEM:

- Continuously post Notice in conspicuous places within affected PWS or service area **OR**
- Mail or direct delivery to each customer or service connection **(At least one of these two options is required)**
AND any other method reasonably calculated to reach other persons served by the PWS

- such as (choose one or more below):
- Publication in a local newspaper or newsletter distributed to customers
 - E-mail to notify employees or students
 - Electronic delivery or alert systems (e.g., reverse 911)
 - Delivery of multiple copies to central locations (e.g., community centers, large employers)
 - On the internet

In accordance with 30 TAC §290.122(g), all public water systems that are required to issue public notice to persons in accordance with 30 TAC §290.122, and that sell or otherwise provide drinking water to other public water systems (i.e., consecutive systems), shall provide public notice to the owner or operator of the consecutive systems.

This PWS provides water to consecutive systems and those systems have been provided public notice.

Notice to Consecutive Systems was delivered on: 6/6/2019 (date) by the following means: Email to employees and staff, website, and posted within affected PWS areas

Comments:. Our December 2108 micro sample was delivered to lab but their carrier did not deliver it on time for analysis. Therefore, the sample was rejected since sampling timeline had lapsed. We have been in contact with laboratory services regarding procedures to make sure that samples are handled in timely manner. We have collected monthly from January 2019 to May 2019 with absent findings of coliform bacteria.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations."

NOTE: 30 TAC 290.122(f) requires the PWS to provide a copy of the Public Notice issued and a signed Certificate of Delivery to the Executive Director within 10 days.

Date of Delivery to Customers: 6/6/2019 Phone: 432 459-2445

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for Grady ISD

On our system recently failed to collect the correct number of drinking water samples. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did (are doing) to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During December 2018 we ['did not monitor or test' or 'did not complete all monitoring or testing'] for coliform bacteria and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

Our December 2108 micro sample was delivered to lab but their carrier did not deliver it on time for analysis. We have been in contact with laboratory services regarding procedures to make sure that samples are handled in timely manner. We have collected monthly from January 2019 to May 2019 with absent findings of coliform bacteria.

For more information, please contact Leandro Gonzales at (432) 459-2444 or 3500 FM 828, Lenorah, TX., 79749

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by [system]. State Water System ID#: 1590007.
Date distributed: 6/6/2019.
