District Technology Guidelines

ACCEPTABLE TECHNOLOGY USE AGREEMENT

Intent of district provided technology

The School District of Alton R-IV ("District") provides all students a district-issued computing device. The intent of providing this technology is to provide students modern learning tools to enhance the learning opportunities and environment. Students may have access to additional technology opportunities as part of the educational programming offered.

Student use of Internet applications and educational technology

Students are required to use various applications throughout the school day. These could include various websites, browser extensions, and educational technology tools. Some of these require student accounts and logins, while others do not. The District is committed to complying with Federal laws governing student safety and privacy while online. These Federal laws include the Children's Online Privacy Protection Act (COPPA), and the Family Educational Rights and Privacy Act (FERPA).

In order for the District to provide your student with the most effective web-based tools for learning, we shall abide by Federal COPPA Regulations that require parental permission. Our District utilizes several computer and web-based apps and services operated not by the District, but by third parties. These parties include Google Workspace for Education and other similar educational programs and apps. This platform is where we actively maintain the currently approved list that has met with both our Alton R-IV standards and federal guidelines such as COPPA and FERPA.

In order for students to use some of these programs and services, basic personal identifying information, including student's name, user name, and email address must be provided to the website operator. In many of these cases, access to these websites and resources is provided through a teacher account and is monitored by the teacher using the resource.

District provided Internet access

The District will provide students access to the Internet in multiple ways. The District educational network will provide filtered Internet access while on school premises. All District Chromebooks are filtered regardless of network. The District uses Children's Internet Protection Act (CIPA) compliant filtering technology to provide a safe and secure learning environment. While providing opportunities for students to explore personal learning opportunities offered by complete access to the Internet, it is impossible to filter all inappropriate content. Students and parents are warned that users may, either intentionally or unintentionally, access textual, graphic, and/or auditory information which is pornographic, sexually explicit, illegal, defamatory, and otherwise offensive to the user or others. Access to the above material is strictly prohibited.

The computers and computer accounts given to students are for educational purposes only. Users should not have an expectation of privacy in anything they create, send, or receive on the computer. The computer and telecommunication system belong to the District and must be used for educational purposes only. Commercial and/or personal use of the District's system is strictly prohibited.

Computer users are governed by the following provisions, which apply to all use of computer and telecommunication resources and services. Computer and telecommunication services include, but are not limited, to, the following: host computers, file servers, workstations, stand-alone computers, laptops, software, and internal or external communications networks (Internet, commercial online services, bulletin board systems, and email systems) that are accessed directly or indirectly from the District's computer facilities. These regulations may be amended or revised periodically as the need arises and are implemented pursuant to District policy.

Student and parental device responsibilities

A district issued computing device will be provided to all students. Students and parents are responsible for the care of this device upon issuance until collection. Damage to this device will result in charges to the student in accordance with Board approved student fees. District-issued computing devices are district property. As such, use of district-issued computing devices, even off school premises, still fall under the acceptable technology usage agreement. District-issued computing devices are filtered and Internet activity tracked using CIPA compliant filtering software.

District Technology Guidelines

Inappropriate use of a district issued computing device off school premises may result in disciplinary action as specified in the Alton R-IV School District Student Handbook. The District may suspend or revoke a system user's access to the District's system upon any violation of District policy and/or administrative regulation. A system user may appeal the suspension or revocation within seven calendar days. The District coordinator or designee will conduct a hearing, but the Principal or District coordinator who imposed the suspension or revocation will not be the person designated to hear the appeal.

Your signature on this AUP Agreement constitutes your consent for the District to provide limited personal identifying information for your child consisting of first name, last name, email address, student ID number, and user name to the following educational web-operators: Google Apps for Education and the operators of additional web-based educational programs which the District may deem necessary during the upcoming academic school year. A listing of the websites and apps approved for use by the District, along with links to the privacy policy for each can be found on the district webpage.

Student behavior guidelines

1. Users shall not access, view, transfer, or store any material in any form which is pornographic, sexually explicit, illegal, defamatory, or potentially offensive to others;
2. Users who unintentionally access such material shall immediately terminate such access;
3. Users are responsible for all transactions made using their passwords;
4. Users are not allowed to bring CD-Roms or flash drives from home or others sources and load them onto any computer;
5. Users shall not harass, insult, or attack others;
6. Users shall not damage computers, computer systems, computer networks, or computer data;
7. Users shall not use another user's login;
8. Users shall not trespass in the folders, work, files, or data of others;
9. Users shall not intentionally waste user time and resources;
10. Users shall not use Internet access for any commercial activity;
11. Users shall not use Internet access for political lobbying;
12. Users shall abide by all federal, state, and local laws;

BUILDING HOURS

Building hours are 7:40 AM to 3:30 PM. Students are not permitted to be in the buildings outside of this time frame unless supervised by an Alton R-IV staff member. Parents are encouraged to not drop their child off at school until 7:40 AM.

CANCELLATIONS

The district makes every effort to decide whether to cancel school as early as possible so parents can be alerted and make arrangements accordingly. The decision is announced immediately via social media and local news media. Automated phone messages and text messages will be sent to parents who have provided up to date contact information to the school district.

DISMISSAL PROCEDURES

School will dismiss at 3:00 PM unless specified otherwise. To ensure that all students leave campus and arrive home safely, students are encouraged to make transportation arrangements home in advance. Unless students are participating in scheduled activities after school, supervised by an Alton R-IV employee, they should have transportation home by 3:30 PM. The School Resource Officer or Alton Police Department may be contacted if a student consistently does not have transportation home by 3:30 PM.

LEAVING SCHOOL EARLY

If a student must leave early during the school day, a parent or guardian must contact a staff member in the office. Parents **MUST** come into the front office to sign students out of school unless prior arrangements have been made.

VISITORS AT SCHOOL

We value communication between parents, district patrons, and the school. However, in order to protect instructional time and maintain a safe learning environment, all parents and visitors must report to the front office when they arrive on campus. All visits should be pre-arranged with the teacher or office, and occur during the teacher's plan period to avoid interrupting the instructional process. Visitors must present with a government issued photo ID to be screened through the visitor management system and receive a pass. School-aged children not enrolled in the district are not permitted to visit.

GRADE REPORTS

Mid-term and quarterly grade reports will be made available to parents each quarter. Parents will also have the ability to monitor their child's academic progress through the Infinite Campus Program. For more information on Infinite Campus, or if you have questions about your child's academic progress, please visit our school website, www.alton.k12.mo.us or contact the office at 417.778.7215.

GRADING SCALE

The Alton Junior and Senior High School letter grade system will be used and based on the following percentages:

| | | | | | |
|----|---------|----|--------|----|--------------|
| A | 95–100% | B– | 80–82% | D+ | 66–69% |
| A– | 90–94% | C+ | 76–79% | D | 63–65% |
| B+ | 86–89% | C | 73–75% | D– | 60–62% |
| B | 83–85% | C– | 70–72% | F | 59% or below |

GRADE POINT AVERAGE (GPA)

Alton and Junior High School uses a four point system to calculate grade point average. Grade points will be computed each semester using the semester grades earned in all classes. The point values are as follows:

| | | | | |
|---------|---------|---------|---------|---------|
| A = 4.0 | B = 3.0 | C = 2.0 | D = 1.0 | F = 0.0 |
|---------|---------|---------|---------|---------|

ACADEMIC ACHIEVEMENT RECOGNITION

Alton Junior and Senior High School will recognize student academic achievement at the end of each quarter. To earn academic achievement status, students must obtain the following letter grade in all subjects:

| | |
|------------------------------|--------------------|
| <i>Principal's List</i> | <i>A or above</i> |
| <i>Scholastic Honor Roll</i> | <i>A– or above</i> |
| <i>Honor Roll</i> | <i>B– or above</i> |

CREDIT RECOVERY

Credit recovery provides an opportunity for high school students who have failed a course taken during the regular school year to complete the requirements of the class and receive credit by attending summer school or in a future school year. **In order to qualify for credit recovery a student must have scored a minimum of 45% or higher in the class they failed. Grades for credit recovery courses will be as earned up to a maximum of 80%.**

MAKE-UP WORK

Students will be given the opportunity to make-up missed assignments for full credit for all absences, including truancy and suspension. Students are responsible for gathering and completing assignments. All make-up work should be completed within the same number of days that the student was absent with the exception of tests and long-term assignments. These tests and assignments will be made up at the teacher's discretion. All make-up work will be due within seven days of the end of each semester. Situations involving extended illness, hospitalization, or special circumstances will be reviewed on an individual basis. Make-up work should be approximately equal to, but not necessarily identical to, missed work. Make-up work should not interfere with class. All make-up work is to be handled outside regular class time. It should be noted that not all learning can be "made up". Class participation, discussion, and other activities cannot be repeated. Skill courses where work can be accomplished by attendance only cannot be made up. Experience of this type must be recognized as missed.

SEMESTER FINAL EXAMS

Comprehensive final exams assist in measuring if students have mastered the required skills and objectives for a particular course. At the conclusion of each semester, students are required to take a final exam in each of their enrolled courses. Finals will serve as 10% of a student's semester grade and failure to complete the exams will result in a 10% grade reduction for that specific course. All students are required to complete semester final exams unless they have met the criteria for "Final Exam Exemption" status.

SEMESTER FINAL EXAM EXEMPTION STATUS

Students who meet the prescribed attendance, discipline, and grade expectations, may be exempt from taking final exams. To achieve "Final Exam Exemption" status, students must meet the following standards:

- 3 Absences or less with a minimum grade of 90% in each course per semester
- 2 Absences or less with a minimum grade of 80% in each course per semester
- 1 Absence or less with a minimum grade of 70% in each course per semester
- No Out-of-School Suspensions or excessive discipline referrals for the semester
- Complete and return a Final Exam Exemption form to the office

WEIGHTED COURSES

When calculating Grade Point Average (GPA), the weighted classes shall receive 0.730 additional GPA points each on a 4.0 point scale. Grades earned in these classes must be at least 70% (C-) to receive the bonus points. The actual grade earned in the class (not the weighted grade) shall be recorded consistently in the grade book, on the grade card, and on the student's permanent record. When a student transcript is sent to another educational institution, scholarship agency, etc., a copy of the school's policy shall be attached explaining the weighted grading system when it applies to the student's grades. Students who transfer from Alton High School should be aware that the school cannot guarantee the weighted grade will be honored in another system. The weighted grade is not utilized for Honor Roll qualifications, but is used in calculating grade point average and class rank only. **The following is a list of courses that will receive a weighted grade:**

- Communication Arts: College Preparatory English

STATE ASSESSMENTS

The Missouri Assessment Program (MAP) is a yearly standards-based test that measures specific skills defined for each grade-level by the state of Missouri. Junior High students in grades 6–8 are required to take the MAP in the spring, where all students will be assessed in English Language Arts and Mathematics. Eighth-graders are also required to take the Science assessment.

End-of-Course (EOC) exams are required by the Missouri Department of Elementary and Secondary Education (DESE) required for High School students. The required EOC assessments include: English II, Algebra I, American Government, and Biology and must be completed prior to high school graduation. For students who complete the Algebra I EOC assessment prior to high school, the Algebra II EOC is the required high school mathematics assessment for accountability purposes.

Although the specific requirements and funding of the A+ Program are at the discretion of the Missouri Legislature, students may be eligible for two years of state reimbursed tuition from a Missouri public community college, or vocational or technical school. To be eligible, students must enter into a written agreement with the school and meet the following criteria:

Attendance Policy

ABSENCES

Research shows that there is no better predictor of student academic success than regular, punctual attendance. The attendance procedures of Alton R-IV School District are established to encourage and enforce good attendance habits. Parents, guardians, students, and the district all share in the responsibility of encouraging regular attendance. When students miss school, regardless of the reason, they miss an educational opportunity which is lost forever. For this reason and in conjunction with the Missouri Compulsory Attendance Law (167.031 RSMO), student attendance will be closely monitored and intervention strategies implemented if necessary.

ABSENCES DETERMINED EXCUSED

Parents are encouraged to notify the office when their child is absent. All absences, except for school-sponsored events, will count against the student's days absent. Parents are encouraged to schedule doctor and dental appointments after school hours if possible. Alton Junior and Senior High School have determined the following absences as excused:

- Medical appointments, with written appointment confirmation by medical provider.
- Funeral, with written excuse from a parent/guardian. The principal may require a program or other evidence of attendance as additional verification.
- Religious observances, with written excuse from a parent/guardian.
- Other appointments that cannot be scheduled outside attendance hours, such as court appearances, with written excuse from a parent/guardian.
- Visits with a parent or legal guardian who is an active duty member of the military who has been called to duty for, is on leave from, or is immediately returned from deployment to a combat zone or combat support posting, with permission of the superintendent or designee.

ATTENDANCE INTERVENTIONS

Excessive absenteeism is defined as missing eight (8) or more days of school per semester (excluding school-sanctioned activities). Students who have not reported to class by 8:20 AM will be considered absent. To promote good attendance and prevent excessive absenteeism, the following intervention strategies have been established:

- The parent/guardian will receive a phone call before lunch if their child is absent.
- Attendance letters will be mailed to parents on the student's fourth (4) and sixth (6) absence.
- An administrator will have a conference with the student on the student's fifth (5) absence.
- Administration will make personal contact with the parent on the student's sixth (6) absence.
- Students who accumulate eight (8) absences must serve after school attendance recovery.
- Students who exceed ten (10) absences within a semester may be reported to the Department of Social Services on the basis of educational neglect.

ATTENDANCE REMEDIATION

Students absent eight (8) or more days within a semester will be assigned attendance remediation. The purpose of attendance remediation is to allow students who exceed the attendance policy to recuperate those missing hours, as well as motivate students to attend school regularly. Students will be required to serve four (4) hours of attendance remediation for every day that exceeds seven (7) absences within a semester. For example, if JDoe misses eight (8) days of school first semester, he would be required to serve four (4) hours of attendance remediation. If John Doe misses nine (9) days, then he would be required to make up eight (8) hours of remediation, and so on.

Attendance remediation takes place Monday through Thursday from 3:15–4:15 PM, unless specified otherwise. Students will be supervised by a teacher and will work on homework or missing assignments.

Parents and guardians will be responsible for providing transportation home following remediation. Students are required to complete their remediation hours before they can participate in extracurricular activities. Students who do not make up the prescribed hours may be reported to the Juvenile Department.

TARDY

Punctual attendance is both a sign of respect towards the teacher and other students in the classroom, as well as a demonstration of the importance of being a responsible student. Students who are consistently tardy, late, or check out early from school miss meaningful information, may disrupt the teacher's instructional time, and may cause other students to lose focus. Each tardy and early check-out will be recorded in the students' attendance history. A student is considered tardy if he or she is not in their assigned seat, or station when the sound of the tardy bell ends. Students will be referred to the office if they are tardy three, or more times in semester. A fourth tardy during the semester will result in one day of After School Detention (ASD); a fifth tardy will result in two days of ASD; and six or more will result in ISS.

Staff members are expected to maintain courteous and professional relationships with students. We encourage communication with students and parents/guardians for educational purposes using a variety of effective methods, including electronic communication. As with other forms of communication, staff members must maintain professional boundaries with students while using electronic communication regardless of whether the communication methods are provided by the district, or the staff member uses his or her own personal electronic communication devices, accounts, webpages or other forms of electronic communication. The district's policies, regulations, procedures and expectations regarding in-person communications at school and during the school day also apply to electronic communications for educational purposes, regardless of when those communications occur. Staff communications must be professional, and student communications must be appropriate. Staff members may use electronic communication with students only as frequently as necessary to accomplish the educational purpose.

EMERGENCY CONTACT NUMBERS

These activities shall provide for individual, small group and/or student body participation. All extracurricular activities must have a duly appointed sponsor, supervisor or coach.

Participation in both extracurricular activities is a privilege, not a right. As a result, participation can be restricted, revoked or permitted pursuant to specific district guidelines including, but not limited to, the following eligibility rules and requirements:

- A student must earn 3.0 credits (pass 6 out of 7 classes per semester) during the preceding semester in order to be eligible to participate in extracurricular activities.

Lockers will be assigned to each student at no cost. Locks will not be provided by the school however students may use a lock of their own. Students who bring locks must give either the combination, or a copy of the key to the office. Students are not allowed to change lockers without permission from an administrator. Students are responsible for all damages to lockers (including graffiti) and will be responsible for cleaning, or paying for those damages depending on the infraction. Magazines, books, pictures, and other items considered to be in poor taste (according to dress code) are not to be in or on lockers. Locker doors should be closed and latched securely. The school is not responsible for property removed or stolen from lockers. Students are encouraged not to place valuable items or money in their locker. Administrative searches of lockers may be made based on reasonable suspicion of illegal activity or other violations of the school discipline policy. We reserve this right to maintain the integrity of the school environment and to protect other students.

PARENT/TEACHER CONFERENCES

Parent/Teacher Conferences provide an opportunity for parents and teachers to connect and discuss the students' academic progress, social development, and overall performance at school. Parent/Teacher Conferences will be scheduled each semester and parents are encouraged to attend if at all possible. Additional conferences may be scheduled throughout the year to communicate information about a child's progress and behavior. These conferences can be initiated by either the parent or the teacher. Parents who wish to schedule a conference should contact the school to arrange an appointment. Conferences should be scheduled during the teacher's plan time, or before or after school.

PROFESSIONAL QUALIFICATIONS OF STAFF

According to the Every Student Succeeds Act of 2015 (Public Law 114-95), parents can receive, upon request, information regarding whether the student's teacher is certified to teach in the grade levels and subject areas in which they are providing instruction; whether the student's teacher is teaching under emergency or other provisional certification status; and whether the student is provided services by a paraprofessional and, if so, their qualifications. Parents may request this information from Superintendent, Mrs. Holly Reese.

SCHOOL RESOURCE OFFICER

Alton R-IV Public Schools employs a School Resource Officer (SRO). The officer is interactive daily in schools across the district. The goals of the SRO program include bridging the gap between the officers and students, increasing positive attitudes toward law enforcement, and prevention of crime. The officer strives to build a rapport between police, students, and staff to work toward providing a safer learning environment.

SCHOOL-SPONSORED ACTIVITIES

School-sponsored activities often enhance the instructional program and add to the students' educational experience. Students who miss school for school-sanctioned events, will not be counted absent. Students who miss school for school – sponsored activities must notify their teacher(s) and will be required to make-up missed assignments. Students must meet behavior and attendance standards to be eligible to participate. If a school-sanctioned event takes place during school hours, the student will be expected to remain at school and complete alternative assignments if needed.

TECHNOLOGY

The Alton R-IV School District's technology exists for the purpose of enhancing the educational opportunities and achievement of district students. Research shows that using technology within instruction increases student engagement and enhances academic achievement. In addition, technology assists with communication with students' families and other patrons of the district, all of which positively impact student achievement. The purpose of the district's technology guidelines facilitate access to district technology and create a safe environment for all users. The Acceptable Use Policy is posted in computer labs, the library, and other locations. No student will be given access to the district's technology resources until the district receives a User Agreement signed by the student and the student's parent(s), guardian(s), or person(s) standing in place of a parent. Use of the district's technology resources is a privilege, not a right. A user's privileges may be suspended pending an investigation concerning use of the district's technology resources. Any violation of the district policy, regulations, or procedures regarding technology usage may result in temporary, long-term, or permanent suspension of user privileges. The district will monitor the on-line activities and operate technology protection measures on all computers with Internet access as required by law.

WITHDRAWING FROM SCHOOL

Parents of children leaving the district should notify the school before the last day of attendance and enroll their child into a new school as quickly as possible. The Missouri Children's Division may be contacted if the child has not been enrolled into a new school within ten days from withdrawing from our district. Before the transfer is complete, library materials, texts, and other school property must be returned. Failure to follow these procedures may make it difficult for a student to be enrolled and classified properly in another school. They will also be required to pay for books or other lost or damaged equipment.

USE OF MOTOR VEHICLES

All motor vehicles used by students, and/or parked on school property by students, must be registered with the principal's office. Students must park in the designated area upon arriving on campus. Student-drivers and their passengers should proceed into the school building once they have parked their vehicle. Students are not permitted to go to their vehicles, or the parking lot during the school day without first obtaining permission from the principal's office. Students who participate in school-sponsored activities during the school day (vocational school, cross-country, etc.) must ride district transportation and are prohibited from driving their personal vehicles, or riding with other students to these events. When the school day ends, students should not move their vehicles until the school buses have exited the parking lot. Attempts to 'cut off' other drivers while leaving campus will not be tolerated. Drivers must obey the posted speed limit and city citations may be issued to all automobiles violating state driving or parking regulations. Repeated violations may result in the loss of driving privileges. Vehicles parked on school property are subject to periodic search and may be entered if 'reasonable suspicion' is determined.

Regardless of eligibility, no student can purchase a la carte items if they have a deficit balance, even if they have cash. GUIDANCE COUNSELING PROGRAM

The Alton Junior and Senior High School guidance program provides important benefits to individual students by addressing their intellectual, emotional, social, and psychological needs. This program is developmental and includes sequential activities designed to address the needs of all students by helping them acquire competencies in career planning and exploration, knowledge of self and others, and

educational and vocational development. The district's guidance program addresses the needs of all students as they encounter and deal directly with these and other important learning and life issues. Our counselor works with students, parents, teachers, administrators, and the community through a balanced program of direct and indirect services. Continued attention is given to helping students develop competence in decision making, career planning, working with others, and accepting responsibility for their own behavior. HEALTH SERVICES

The school nurse, or office staff will notify the parent/guardian if a student is ill at school. In order to prevent other students from becoming sick, students who are ill will be sent home. Parents are encouraged to provide the school nurse with the very latest contact information, so that if an emergency arises, they can be quickly contacted. Parents must notify the school nurse or office of any health concerns that may require emergency services or interfere with the student's education. Students returning to school after an injury, surgery, concussion, or other serious health-related matter, should present a physician's release along with doctor's orders.

Student medications should be given at home if at all possible. This decreases the chance of errors such as missed or forgotten doses.

Medications will only be given during school hours by complying with the following guidelines:

- Medication consent form must be completed and signed.
- **Prescription medications must be in the original container with the label intact and legible.** Ask your pharmacist for a bottle for school use. Medications given on a regular basis (Inhaler, Ritalin, etc.) must have the newest refill and send no more than a month's supply at a time. **Medications will only be given during school hours if the prescription specifies: at noon; every four hours or every six hours; or dosages prescribing three times a day use will not be given during school hours.**
- Over-the-counter medication must come in the original container and must have a signed Medication Consent Form on file to be given at school.
- All medication must be turned in at the Nurse's Office. **No medications may be sent home with students on the school bus.**
- Medication bottles will be sent home when the medication course is completed or expires. Questions concerning this policy may be directed to: Leslie Weyland, Alton R-IV School District, (417) 778-7215.

SPECIAL EDUCATION SERVICES

Students may be referred for a special education evaluation process by a teacher and/or parents. Students may be eligible for services in the areas of speech and language, occupational, or physical therapy. Additional services in the area of academics may include specific learning disabilities or intellectual disabilities. Specialized instruction is given to help these students develop their maximum skill levels. Special Education Programs are supported with state and federal funds. Upon the completion of a student's evaluation process, a meeting will be conducted with the parent/guardian and necessary school staff. This meeting will review the evaluation results and make a determination as to whether or not the child met criteria for special education services.

SUICIDE AWARENESS & PREVENTION

Suicide is a leading cause of death among youths in Missouri and is a public health concern impacting all Missouri citizens. The district is committed to maintaining a safe environment to protect the health, safety and welfare of students. District employees will respond immediately in situations where they have a reasonable belief that a student may be at risk of suicide or may be having a suicide crisis. Starting no later than fifth grade, students will receive age-appropriate information and instruction on suicide awareness and prevention. Information and instruction may be offered in health education, by the counseling staff or in other curricula as may be appropriate.

TRANSPORTATION SERVICES

The privilege of riding a school bus is extended to students who meet school district mileage guidelines and conduct themselves safely and orderly while on the bus. The assignment of each student's bus stop is based on the primary address for the student listed in the District's Student Database. Students are not allowed to ride buses other than the bus to which they are assigned except if there is an additional babysitter or relative with whom the child stays regularly. If a situation requires that a student ride a different bus than they normally ride, the parent/guardian should send a request in writing to the school in advance. **Only bus-eligible students are allowed to ride the bus.**

The licensed driver has the authority and control of student groups transported in school buses. The driver is an appointed member of the school staff and has the same authority and responsibility for the safety and conduct of the students on the bus as is vested in the classroom teacher. Both students and parents must understand this basic statement.

The driver is responsible to the school Administration for ensuring the following regulations are enforced. The State of Missouri carefully worked out regulations covering public school transportation and constituted the basis for safe and efficient transportation for public school students. Safety comes first in pupil transportation. Students who disrupt or otherwise distract the driver will be issued a Report of Bus Conduct filled out by the driver and delivered to the school for action. School officials will decide the level of action taken, and may include denial of bus transportation for a specific period, depending on the severity and frequency of the incident (Policy JFCC).

TRANSPORTATION RULES & REGULATIONS

- Riders are expected to follow the bus safety rules and consistently obey the bus driver's directives.
- All school discipline policies apply on the school bus.
- The use of alcohol, drugs, or tobacco (including vapes) is forbidden on the bus or at the bus stop.
- Riders must wait for the bus in the designated loading zone and stay out of the road or street.
- Riders must be at the bus stop on time.
- Riders must sit down in a seat once they board the bus and remain seated.

- Riders must not extend arms or head, or objects from the bus windows. Spitting or throwing objects out of the window is prohibited.
- Food and drinks are not allowed on the bus and students are expected to help keep the bus neat and clean.
- If a rider damages any part of the bus, the student or their parents are expected to pay for repairs.
- When unloading the bus, students must cross the roadway in front of the bus at the driver's signal.
- Students must have advanced written permission from a parent and/or authorization from the office to unload at destinations other than their regular bus stop.

Discipline & Student Conduct

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. At Alton Junior and Senior High School, our top priority is to provide all students the best education possible. Students who deprive themselves, or other students of this right, will be subject to corrective action when necessary. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action(s). This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

ADMINISTRATIVE CORRECTIVE ACTIONS

Corporal Punishment (Policy JGA-2) may be used as a corrective measure to maintain student discipline. If found necessary, it should be administered by an administrator, and always in the presence of a teacher. It should never be inflicted in the presence of other students, nor without a witness. Corporal punishment shall be administered only by swatting the buttocks with a paddle and the student's parent, or guardian will be contacted.

Detention (Policy JGB) may be assigned to students as a corrective action. Detention will take place before or after school, or at lunch, and will be supervised by a teacher. It should be assigned by an administrator and the student's parent or guardian will be contacted. Students are expected to work on homework or other assignments the entire session. Students who do not stay engaged, or who do not complete the entire session may be subject to other disciplinary action. Students are not permitted to participate in school sponsored activities until they have completed their detention.

In-School-Suspension (Policy JGB) may be assigned as a corrective action to maintain student discipline. In-School-Suspension (ISS) will take place in an isolated setting and will be supervised by a teacher. It will be assigned by an administrator and the student's parent or guardian will be contacted. Students assigned to ISS will be allowed to complete assignments for full credit; however, they are expected to bring all needed resources and supplies to ISS. Students who do not stay engaged or cooperate will be subject to further disciplinary action. Students are not permitted to participate in school sponsored activities until their full suspension has been served.

Out-of-School Suspension (JGD) may be assigned to maintain student discipline. The principal may assign Out-of-School Suspension (OSS) up to ten (10) days for an offense. An administrator will contact the parent or guardian when OSS is determined. Students may submit missed assignments for full credit providing that all of the work is completed within two school days of returning from OSS. Students are not allowed to participate in, or attend school sponsored activities, or be on any district property until the suspension has been fully completed.

Restitution (JFCB) will be required for a student who damages school-purchased property. Students may also be subject to paying restitution if they damage another person's private property on school grounds. Payment shall be assessed by the principal, or a designated person, in accordance with the price of property damaged. Any student who carelessly or intentionally defaces or damages school property shall be required to pay for all damages, and may be subject to additional disciplinary action.

DOCUMENTATION IN STUDENT'S DISCIPLINE RECORD

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

CONDITIONS OF SUSPENSION, EXPULSION, & OTHER DISCIPLINARY CONSEQUENCES

All students who are serving OSS or who are expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence. In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

- The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian or custodian, and the superintendent or designee has authorized the student to be on district property.
- The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the district.
- The student resides within 1,000 feet of a public school in the district and is on the property of the student's residence.
- Students who violate the prohibitions in this section may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences".

REPORTING TO LAW ENFORCEMENT

It is the policy of the Alton R-IV School District to report all crimes occurring on district property to law enforcement including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF. The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy. In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

SEARCHES BY SCHOOL PERSONNEL

School lockers, desks, and other district property are provided for the convenience of students and, as such, are subject to periodic, unannounced administrative searches. Student property may be searched based on reasonable suspicion of a violation of district rules, policy or law. Reasonable suspicion must be based on facts known to the administration, credible information or reasonable inference drawn from such facts or information. Searches of student property shall be limited in scope based on the original justification of the search. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses and not in front of other students, unless exigent circumstances exist.

MISSOURI SAFE SCHOOLS ACT

The Missouri Safe Schools Act of 1996 was enacted to protect students from violent acts at school and create a healthy learning environment. To maintain a safe learning environment for all students, the Alton R-IV School District has adopted policies on student discipline and will communicate the policy guidelines and expectations to students and their families. Alton R-IV Schools require that a parent or court-appointed legal guardian must accompany their child when registering. The parent or guardian must provide a form of proof that the student is eligible to register in the district or has requested a hardship or good cause waiver within the last 45 days. The registration process may require a parent, guardian or caretaker of the child to provide, upon enrollment, a sworn statement indicating

whether the student has been expelled from school attendance in this state or any other state for weapons, alcohol, drugs or the willful infliction of injury to another person. A false statement or affirmation in this area is a class B misdemeanor. A hardship or good cause is the basis for a waiver to be granted by the district board and an adverse decision is appealable. Any person submitting false information in satisfying residency registration requirements is guilty of a Class A misdemeanor. The school board may institute a civil action to recover costs of education for any student whose registration was based on false information.

Bullying Policy

GENERAL

In order to promote a safe learning environment for all students, the Alton R-IV School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

DEFINITIONS

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device or computer. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

DESIGNATED OFFICIALS

The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the districtwide anti-bullying coordinator. The anti-bullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's antidiscrimination and anti-bullying education and training programs. In addition, the anti-bullying coordinator will assist in making any relevant reports as required by state and federal law.

REPORTING BULLYING

School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident. Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's anti-bullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy. The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

CONSEQUENCES

Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, and removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrators, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, and prohibition from being on district property or at district activities, mandated training or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

POLICY PUBLICATION

The district shall annually notify students, parents/guardians, district employees, substitutes and volunteers about this policy and the district's prohibition against bullying. A copy of this policy shall be included in student handbooks and posted on the district's website.

TRAINING AND EDUCATION

The district's anti-bullying coordinator will provide information and appropriate training designed to assist employees, substitutes and volunteers who have significant contact with students in identifying, preventing and responding to incidents of bullying.

The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion. Methods may include but are not limited to the following: assemblies; homeroom presentations; class meetings; team or club meetings; special presentations by counselors, social workers or mental health professionals; and open-house events. When practical, parents/guardians will be invited to attend.

In addition to educating students about the content of this policy, the district will inform students of:

- The procedure for reporting bullying.
- The harmful effects of bullying.
- Any initiatives the school or district has created to address bullying, including student peer-to-peer initiatives.
- The consequences for those who participate in bullying or engage in reprisal or retaliation against those who report bullying.

School counselors, social workers, mental health professionals, school psychologists or other appropriate district staff will educate students who are victims of bullying about how to overcome the negative effects of bullying including, but not limited to:

- Cultivating the student's self-worth and self-esteem.
- Teaching the student to defend him- or herself assertively and effectively without violence.
- Helping the student develop social skills.
- Encouraging the student to develop an internal locus of control.

ADDITIONAL SCHOOL PROGRAMS AND RESOURCES

The Board directs the superintendent or designee to implement programs and other initiatives to address bullying, respond to such conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying. Such initiatives may include educating parents/guardians and families on bullying prevention and resources.

Prohibited Conduct

The following are descriptions of prohibited conduct and potential consequences for violations. Building-level administrators are authorized to more narrowly tailor potential consequences as appropriate for the age level of students in the building within the ranges established in this regulation. DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Alton R-IV School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, Alton R-IV School District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow Alton to include this type of information from your child's education records in certain school publications. Examples include: a playbill showing your student's role in a drama production; the annual yearbook; honor roll or other recognition lists; graduation programs; and sports activity sheets, such as for wrestling, showing weight and height of team members. Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories—names, addresses and telephone listings—unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent. If you do not want Alton R-IV School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing as directed. Even if parents or eligible students notify the district in writing that they do not want directory information disclosed, the district may still disclose the information if required or allowed to do so by law. Alton R-IV School District has designated the following information as directory information: Student's name; date and place of birth; parents' names; grade level; enrollment status (e.g., full-time or part-time); student identification number; user identification or other unique personal identifier used by the student for the purposes of accessing or communicating in electronic systems as long as that information alone cannot be used to access protected educational records; participation in district-sponsored or

district-recognized activities and sports; weight and height of members of athletic teams; athletic performance data; dates of attendance; degrees, honors and awards received; artwork or coursework displayed by the district; schools or school districts previously attended; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

In addition to general directory information, the following limited-directory information the district maintains about a personally identifiable student may be disclosed to school officials with a legitimate educational interest; parent groups or booster clubs that are recognized by the Board and are created solely to work with the district, its staff, students and parents and to raise funds for district activities; parents of other students enrolled in the same school as the student whose information is released; students enrolled in the same school as the student whose information is released; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services: The student's address, telephone number and e-mail address and the parents' addresses, telephone numbers and e-mail addresses.

Pursuant to federal law, military recruiters and institutions of higher education may request and receive the names, addresses and telephone numbers of all high school students, unless their parents or guardians notify the school not to release the information. Please notify the district if you do not want this information released.

The public school has developed a Local Compliance Plan for implementation of Special Education, and this Plan is available for public review during regular school hours on days school is in session in the Office of the Superintendent of Schools. The Local Compliance Plan is a written narrative which describes the district's plan for compliance with the requirements for identifying and serving all students with disabilities. Included in this plan are the policies and procedures which the district must follow regarding storage, disclosure to third parties, retention, and destruction of personally identifiable information. The plan also describes the assurances that services are provided in compliance with the requirement of 34 CFR 76.301 of the General Education Provision Act.
