

BARNEVELD SCHOOL DISTRICT BELIEF STATEMENT

The Barneveld School Board, professional and support staff are dedicated to the principles of democracy. We believe that it is our responsibility to educate the future citizens to be literate, thinking and informed so that they can participate fully and responsibly in this democracy.

We believe that the future demands of our society include the ability to learn, to reason, and to become knowledgeable within an increasingly diverse community. The Barneveld School Board has the responsibility to prepare students to meet these demands.

We believe that Barneveld School should be a community of learners with experiences which allow the active seeking of knowledge by each student. It is our goal for each student to come to view him/herself as a life-long learner.

We believe that all persons need to take responsibility for the well-being and preservation of our environment through study, reflection and action.

The Barneveld School District is committed to striving towards excellence in education.

We believe all students in the Barneveld School District will become life-long learners in an environment that values achievement, curiosity, respect, and critical thinking.
