To create a parent account, you need your student's Access ID and Password. You can get those from Elizabeth at the District Office during the summer.

Create a Parent Account

Use this procedure to create a new parent account. In order to create an account, you must have the Access ID and Password for at least one student enrolled in school. When creating the account, you will need the Access ID and password for each student you want to associate to your parent account. If you do not have this information or have questions, contact your school.

How to Create a Parent Account

1. Open your Web browser to your school's PowerSchool Student and Parent portal URL. The Student and Parent Sign In page appears.
2. Click the **Create Account** tab. The Create Account page appears.
3. Click **Create Account**. The Create Parent Account page appears.
4. Use the following table to enter information in the Create Parent Account section:

5. Use the following table to enter information in Link Students to Account section:

Recover Your Password

If you have forgotten your PowerSchool Student and Parent portal password, you will be unable to sign in to the PowerSchool Student and Parent portal. Use this procedure to recover your password. Once you provide your user name and email address, the system authenticates your information and sends a security token to your email address. Using the security token, you can then sign in to the PowerSchool Student and Parent portal, where you will then be required to change your password.

Note: The security token is only valid for 30 minutes. If it expires before you can reset your password, perform the [How to Recover Your Password](#) again.
