

Dear Mr. Boston,

Do you think that we should have desks instead of tables? Well most kids say yes! We need desks instead of tables. Here are some reasons why some reasons why. Desks are easier to use than tables. Once I wasted 5 minutes of work time trying to find a pencil in my drawer.

Desks also hold things like notebooks, folders, and spare things. Desks

Desks are cleaner than drawers. In drawers pencil shavings can spill everywhere. Once I had to empty out my drawer just to get the pencil shavings out.

Do you want kids to spend less time learning and more time trying to find things?

I hope not! So Mr. Boston,
give us more desks and
less tables. Make us kids
happy!
