

Snow days are exciting for lots of kids. Let me start at the beginning, kids wouldn't have to get up early every day for school, or have to wait in the cold for the buses, and most of all kids could have hot chocolate and sled with friends.

One reason snowdays are exciting for kids is that they wouldn't have to get up early. For example in the morning kids don't want to get up early and get ready for school. They don't want to get up at 6:30 to wait for the buses to come. Kids like to sleep in and who wants to go to school in the morning?

Another reason snowdays are exciting for kids is that kids don't like to wait in the cold every day for the bus. Let me give you an example, if you woke up really early the last thing you would want to do is

Wait in the cold for the bus to come. If it was freezing cold and icy out you would want to stay inside where it's toasty.

Although snowdays are exciting for kids because you don't have to get up early or wait for the bus in the cold but snowdays are fun for kids because you could have hot chocolate and go sledding with friends. For instance if it had just snowed a lot and there was a snowday you would want to sled and have a hot drink. If you had nothing to do on a snowday you might want to sled with some friends and have hot chocolate to warm yourself up. Last but not least if you were at home you could sled, build a snowman you could do whatever you wanted in fact you could wake up in time for lunch! Now you can

See how snow days are fun  
for kids.
