

**School Community Council**  
**October 25, 2017**

1. **Attendance** - Bruce Bean, Josh Huntsman, Dalvin Bradley, John Brooks, Amy Morgan, Andrea Layton, Nicole Hobbs.
2. **Welcome**
3. **Review of 2016-2017 Final Report** - Bruce reviewed the expenditures from the 2016-17 school year. Bruce also reviewed how resources have improved performance. Graduation rate was at 98%. English proficiency went from 44% to 48%. Math was above target proficiency at 44%. Science proficiency went up to 55%. Carbon High received a “B” grade from the state. We are trying to get ACT scores up to improve that school grade.
4. **Discussion** - We discussed the difficulty for 9th grade students transitioning from the middle school workload to the high school workload. Amy expressed that the grading scales might be deceiving for students as they differ depending on the class. We talked about the increase in student enrollment. We need to address where we will put extra classrooms. Amy brought up the possibility of using “hanging microphones” for concerts to hear a little better.
5. **Review of 2017-2018 approved amendment** - Bruce submitted an amendment for our plan adding our 0 hour Japanese class. This will be presented in board meeting.
