

EDUCATIONAL GOALS

1. To develop the intellectual, physical, and emotional abilities of all students by offering a full range of educational opportunities.
2. To provide the appropriate curricula with emphasis on reading, writing, and thinking skills for the students to receive a suitable background for future endeavors.
3. To create a classroom and school management system that promotes self-discipline and a fundamental work ethic.
4. To assist students in discovering and developing interests and aptitudes through the use of a guidance program.
5. To create the proper desire in the students to maintain the basic principles of our democratic form of government, particularly in the development of citizenship.
6. To create a safe and pleasant environment so that optimum learning conditions may be obtained.
7. To create an atmosphere of mutual helpfulness among the community, the administrators, the teachers, the support staff, and the students through parent-teacher conferences, sponsorship of worthwhile extra-curricular activities and student service projects.
