To: Holcomb USD 363 Elementary Parents
From: Mrs. Deana Novack, WES Principal
Date: January 22, 2020
Subject: Notification of Schoolwide Title Program

Dear Parents,

This letter is to inform you of the Title I process that Wiley and Holcomb Elementary Schools are following beginning the 2014-2015 school year.

During the 2013 school year, WES and HES filed an application with the Kansas State Department of Education, Title Program and Services. The application involved applying to be a Schoolwide Title School. The application was approved May 7, 2014.

August of 2014, WES and HES began the structure process of Schoolwide Title. The 2015-2016 school year will begin the implement state of Schoolwide Title. Schoolwide Title I continues as of January 22, 2020.

The purpose of a schoolwide model is to allow a school to undergo a comprehensive reform of the entire educational program in the school to assist all children, particularly the lowest achieving children, to meet the high state academic achievement standards. Many Kansas schools have combined the MTSS framework and the schoolwide model to focus on the redesign of instructional delivery for all students in a Title I school. (Quoted from KSDE.org)

What this means for Holcomb, is all teachers will work as Title I teachers and all students will be given service to meet the needs of enrichment, reinforcement of skills and remediation of skills, depending of the student's needs throughout the school year.

Thank you,
Deana Novack and Randi Thyne
