March 28, 2023

Dear Parent(s)/Guardian(s):

This communication is a follow up to the information that was shared on March 8th, 2023. Additional investigation by Olympia and external cyber security forensic teams has led to the following current understanding of the situation:

- The intrusion into our system occurred on February 26th.
- Data from file servers that were longer being used were subjected to the intrusion.
- Data on those file servers contained folders assigned to each staff member at Olympia North and Olympia South elementary schools between roughly 2007 and 2019.
- At this time, the extent of student Personally Identifiable Information (PII) believed to be contained in said folders amounts to student names, standardized assessment data (for example, MAP RIT scores), internal Response to Intervention (RtI) data, and student homework assignments.

We will continue to share new information as it develops. If you have questions or concerns in the meantime, you may contact me* at:
