A student or parent/guardian is not required to attempt resolution through the school site before contacting BCOE Title IX Coordinator.

Filing a Report or Informal Complaint of Discrimination, Harassment, Intimidation, or Bullying Based on Sex

Graduation and Coursework Requirements for Foster Youth, Homeless, Former Juvenile Court, and Students Living in Active Duty Military Households

The following rights apply to foster youth, homeless students, former juvenile court students, and students living in the households of parents/guardians who are active duty members of the military:

1. Within 30 days of transferring, after the completion of the second year of high school, students must be notified that s/he may be exempt from local graduation requirements and that this exemption continues after the court’s jurisdiction over a foster child ends, when a homeless student is no longer homeless, when a student is no longer under the jurisdiction of a juvenile court, or when the student no longer lives in the household of an active duty service member (Ed. Code § 51225.1(d));

2. Accept coursework satisfactorily completed while attending another public school, a juvenile court school, or a nonpublic, nonsectarian school or agency, even if the student did not complete the entire course; and must issue full or partial credit for the coursework completed. For students living in active duty military households, “public schools” include schools operated by the United States Department of Defense (Ed. Code § 51225.2(b));

3. Students may not be required to retake a course satisfactorily completed elsewhere. If the student did not complete the entire course, the school district or county office of education may not require that the student retake the portion already completed, unless the school district or county office of education, in consultation with the holder of the student’s educational rights, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the student must be enrolled in the same or equivalent course in order to continue and complete the entire course (Ed. Code § 51225.2(b) and (d));

4. Students may not be prevented from retaking or taking a course to meet the eligibility requirements for admission to the California State University or the University of California (Ed. Code § 51225.2(e));

5. Exempt students transferring between schools at any time after the completion of his/her second year of high school from all coursework and other requirements adopted by the district’s governing board that are in addition to the statewide coursework requirements for graduation found in Education Code section 51225.3, unless the district makes a finding that the student is reasonably able to complete the district’s graduation requirements in time to graduate from high school by the end of the student’s fourth year of high school (Ed. Code § 51225.1(a));

6. For students deemed reasonably able to complete the district’s graduation requirements within the student’s fifth year of high school, the district must do all of the following: (a) inform the student of his/her option to remain in school for a fifth year to complete the school district’s graduation requirements; (b) inform the student, and the person holding the right to make educational decisions for the student, about how remaining in school for a fifth year to complete the school district’s graduation requirements will affect the student’s ability to gain admission to a postsecondary educational institution; (c) provide information to the student about transfer opportunities available through the California Community Colleges; and (d) upon agreement with an adult student or with a minor student’s educational rights holder, permit the student to stay in school for a fifth year to complete the school district’s graduation requirements (Ed. Code § 51225.1(b)(1)-(4));

7. Within 30 calendar days of the school transfer, the school district must notify a student who may qualify for the exemption from local graduation requirements, his or her parent/guardian, the person holding the right to make educational decisions for the student, the foster youth’s social worker, a former juvenile court student’s probation officer, and, in the case of homeless students, the school district’s liaison for homeless students, of the availability of the exemption from local graduation requirements and whether the student qualifies for the exemption. (Ed. Code § 51225.1(d)(1) - (4))
If the school district fails to provide timely notice of these rights, the student will be eligible for the local graduation requirements exemption even after the student is no longer: (1) homeless, (2) in foster care, (3) under the juvenile court’s jurisdiction, or (4) living in the household of an active duty military service member, if the student otherwise qualifies for the exemption (Ed. Code § 51225.1(d)).

(8) Students exempted from local graduation requirements who complete statewide coursework requirements before the end of their fourth year of high school may not be required or asked to graduate before the end of their fourth year of high school, if otherwise entitled to remain in attendance (Ed. Code § 51225.1(e)).

(9) If a student is exempted from local graduation requirements, the school district must notify the student and the student’s educational rights holder of how any of the requirements that are waived will affect the student’s ability to gain admission to a postsecondary educational institution and must provide information about transfer opportunities available through the California Community Colleges (Ed. Code § 51225.1(f));

(10) Students eligible for the exemption from local graduation requirements and who would otherwise be entitled to remain at the school, shall not be required to accept the exemption or be denied enrollment in, or the ability to complete, courses necessary to attend an institution of higher education, regardless of whether those courses are required for statewide graduation requirements (Ed. Code § 51225.1(g));

(11) If a student is not exempted from local graduation requirements or has previously declined the exemption, the school district must exempt the student at any time if he/she requests and qualifies for the exemption (Ed. Code § 51225.1(h));

(12) Once exempted from local graduation requirements, the school district shall not revoke the exemption (Ed. Code § 51225.1(i));

(13) If a student in foster care is exempted from local graduation requirements, the exemption must continue to apply after the termination of the court’s jurisdiction over the student while he/she is enrolled in school or if the student transfers to another school or school district (Ed. Code § 51225.1(j)(1));

(14) If a homeless student is exempted from local graduation requirements, the exemption must continue to apply after the student is no longer homeless while s/he is enrolled in school or if the student transfers to another school or school district (Ed. Code § 51225.1(j)(2));

(15) If a former juvenile court school student is exempted from local graduation requirements, the exemption must continue to apply after the termination of the court’s jurisdiction over the student while s/he is enrolled in school or if the student transfers to another school or school district (Ed. Code § 51225.1 (j)(3));

(16) For students living in active duty military households, the exemption will continue to apply after: (1) a student transfers to another school or school district, or (2) a student no longer meets the “child of military family” definition (Ed. Code § 51225.1 (j)(4));

(17) A school district may not require or request that students transfer schools in order to be exempted from local graduation requirements (Ed. Code § 51225.1 (k)); and

(18) Transfer requests may not be made on a student’s behalf solely to qualify the student for an exemption under this section. (Ed. Code § 51225.1 (l).)

**Rights under FERPA for Butte County Office of Education Schools**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1) The right to inspect and review the student's education records within 45 days after the day the Butte County Office of Education (BCOE) receives a request for access.

   Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal, or appropriate school official, a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

   Parents or eligible students who wish to ask the BCOE to amend their child's or their education record should write the school principal, or appropriate school official, clearly identify the part of the record they want changed, and specify why it should be changed. Regulations Regarding Grades/Evaluation of Student Achievement AR 5121

If a student misses class without an excuse and does not subsequently turn in homework, take a test or fulfill another class requirement, which he/she missed, the teacher may lower the student’s grade for nonperformance.

Students with excessive unexcused absences (6 absences per semester) may be given a failing grade and not receive credit for the class(es). Schools which withhold class credit for this reason shall so inform the class and parents/guardians at the beginning of the semester or year.

Whenever it becomes evident to a teacher that a student is in danger of failing a course, the teacher shall arrange a conference with the student’s parent/guardian or send the parent/guardian a written report. An incomplete is given only when a student’s work is not finished because of illness or other excused absence. If not made up within one week, the incomplete will become an F. No grade of a student participating in a physical education class may be adversely affected due to the fact that the student, because of circumstances beyond his/her control, does not wear standardized physical education apparel.

Students in grades 7 through 12 must earn at least a 2.0 or C grade point average in order to participate in extra/co-curricular activities.

Teachers are encouraged to allow for trends in the quality of student work. When a student finishes a grading period doing high quality work which requires skills acquired throughout the grading period, low grades at the beginning of the grading period need not diminish the appropriate evaluation of the student's achievement. Similarly, high grades at the beginning need not compensate for a downward trend in achievement.

Pass/Fail Grading

With parental approval, students may elect to earn a “Pass” or “Fail” grade instead of an A-F grade in the following courses:

1. All courses taken in the Alternative Education Program;
2. All courses taken in the Special Education Program;

Students who receive a “Pass” grade will acquire the appropriate semester units of credit for the course, and the grade will not be counted in determining class rank or honors. Students who receive a “Fail” grade will not receive credit for taking the course. Students shall be graded Pass/Fail for classes in which they serve as student aides unless predetermined goals and objectives related to specific subject knowledge are on file and have been approved by the Principal or designee.

Repeated Classes

With the approval of the Principal or designee, a student may repeat a course in order to raise his/her grade. The student shall receive credit only for taking the course once.

Students with Disabilities

Eligible students with disabilities shall have annual reviews of student achievement in accordance with federal and state laws. The Assistant Superintendent shall establish and evaluate the program progress and grading systems. The Assistant Superintendent shall ensure that student grades and progress reports conform to this system.
Section 504 County Office Responsibilities
Students with disabilities may not be denied participation in school programs and activities solely on the basis of disability.

The County Superintendent and/or designee shall ensure that the Section 504 regulations are met by adhering to the following: annually attempt to identify and locate all children with disabilities; provide a free and appropriate public education; ensure that students with disabilities are educated with non-disabled students to the maximum extent appropriate; establish nondiscriminatory evaluation and placement procedures; establish procedural safeguards; ensure students with disabilities the equal opportunity to participate in non-academic and extracurricular services and activities.

Extra Credit
Extra credit work will be available to all students. Teacher will determine timeline for completion of extra credit work and effect of extra credit work on performance.

Challenging Courses by Examination – SP6155
The County Superintendent recognizes that there is a need to allow high school students to challenge a given course by examination for grade and credit in order to accelerate progress towards graduation and to achieve more flexibility in the selection of electives. This opportunity will permit a student to enroll in courses best suited to his/her educational objectives.

The examination shall be comprehensive and cover all course objectives. Successful completion of the examination shall be at a level which indicates mastery of the content and/or reasonable chance for success in the next higher course.

CSIS (California School Information Services)
Butte County Office of Education is participating with the California School Information Services (CSIS) Program in the electronic transfer of student data for state reporting to the California Department of Education and to districts and/or public postsecondary institutions to which the student is transferring or applying for admission. All data maintained by the CSIS Program is in compliance with federal and state privacy and confidentiality requirements. Student information is encoded such that no personally identifiable information is retained by CSIS.

The benefits of participation to the student and parent are that student records can be transferred much more promptly, and that information about student assessment and academic placement will be available at the time of transfer. Schools and districts will benefit from the streamlining and reduction of required state reporting.

Parents have the right to inspect student information maintained by the CSIS program. Contact Information Services at 532-5770.

Immunizations
Your child must be immunized against certain diseases before being admitted to school, unless exempted for medical or religious reasons. Students who had a signed waiver based on religious or personal beliefs on file by January 1, 2016, will be exempt from the immunization requirement until they complete the "grade span" they were in as of January 1, 2016. Grade spans are: (1) birth through preschool, (2) Kindergarten through 6th grade, and (3) 7th through 12th grade. Students entering the district for the first time or advancing to 7th grade after July 1, 2016 will no longer be exempt from immunizations based on their religious or personal beliefs. (Ed. Code § 48216 and Health and Safety Code § 120335.)

Consent to Immunizations at School
You may consent in writing to the immunization of your child whenever the immunization of children is permitted at the District or COE. (Ed. Code § 49403.)
Physical Exam / Contagious or Infectious Disease
You may exempt your child from any physical examination upon your written notification. However, where there is good reason to believe that your child is suffering from a recognized contagious or infectious disease, your child will be sent home and will not be permitted to return until school authorities are satisfied that any contagious or infectious disease does not exist. (Ed. Code §§ 49451 and 48980(a) and 20 USC 1232h.)

Education for Homeless Children SP 6173
The County Superintendent recognized his/her obligation to ensure that homeless children have access to the same free and appropriate public education provided to other children within the county. The county shall provide homeless students with access to education and other services necessary for these students to meet the same challenging performance standards as other students.

Student shall not be segregated into a separate school or program based on their status as homeless, nor shall homeless students be stigmatized in any way.

The County Superintendent or designee shall ensure that placement decisions for homeless students are based on the student’s best interest as defined in law and administrative regulation.

Butte County Office of Education shall provide transportation (as comparable to the transportation offered to non-homeless students) for a homeless student who is enrolled in a Butte County Office of Education school, to and from his/her school of origin if the parent/guardian requests that such transportation be provided. If the student moves outside the county boundaries, but continues to attend his/her school of origin, the County Superintendent or designee shall consult with the Superintendent of the District in which the student is now residing to agree upon a method to apportion the responsibility and costs of the transportation.

Pursuant to the McKinney-Vento Homeless Education Assistance Act, all children and youth without a permanent home have a right to an education. Homeless students are those that lack a fixed, adequate nighttime residence, including: sharing the housing of others due to loss of housing or economic hardship; living in motels, hotels, trailer parks, or campgrounds; living in emergency or transitional shelters; abandoned in hospitals; awaiting foster care placement; living in cars, parks, public spaces, substandard housing or similar settings; and migratory children living in conditions such as those described above.

Homeless children and youth have a right to remain at their school of origin (last school attended) or to attend any school in the attendance area where they are living. Unaccompanied youth (out of the physical custody of a parent or guardian) will also be immediately enrolled by request. School enrollment will not be delayed due to the lack of documentation usually required.

Education for Foster Youth

Individualized Education Program (IEP) SP 6159
To the extent permitted by federal law, a foster parent shall have the same rights relative to his/her foster child’s IEP as a parent/guardian.

Regulations Regarding Student Records AR 5125
Persons, agencies, or organizations specifically granted access rights pursuant to law shall have access without prior written parental consent or judicial order. In addition, parental consent is not required when information is shared with other persons within educational institutions, agencies, or organizations obtaining access, as long as those persons have a legitimate educational interest in the information.

Foster family agencies with jurisdiction over currently enrolled or former students may access those students’ records of grades and transcripts, and any individualized education program (IEP) developed and maintained by the Butte County Office of Education with respect to such students.

When informed that a student in foster care is transferring to another local educational agency, the County Superintendent or designee shall cooperate to ensure that the student’s health and educational records are transferred to the receiving district. These records are to be forwarded within two (2) business days.
Foster youth have a right to attend any school in the attendance area where they are living or remain in their school of origin (last school attended). In selecting a school, foster youth shall remain at their schools of origin to the extent feasible, unless it is not in the best interest of the student. A designated foster care liaison, in consultation with the student and the person holding educational rights, will determine the school placement in the best interest of the student. Foster youth may remain at their school of origin for the duration of the school year in which they are placed in foster care. The school site will enroll the foster youth in the appropriately selected school pending resolution of the dispute. The school site will follow the dispute process in place at the school.

B. Career Technical Education (CTE)
Career Technical Education is a program of study that involves a multiyear sequence of courses that integrates core academic knowledge with technical and occupational knowledge to provide students with a pathway to postsecondary education and careers. “Career technical education engages all students in a dynamic and seamless learning experiences resulting in their mastery of the career and academic knowledge and skills necessary to become productive, contributing members of society” (California Technical Education Framework for California Public Schools, grades Seven through Twelve (2007).

Pest Control
Butte County Office of Education follows the Healthy Schools Act of 2000 and utilizes an Integrated Pest Management System that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using non-chemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. Pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment, are used only after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. The Healthy Schools Act of 2000 requires all California local educational agencies to notify parents and guardians of pesticides they expect to apply during the year. Butte County Office of Education intends to use the following pesticides at school sites this school year.

If any additional pesticides are used, schools will provide written notice to parents and staff identifying the pesticides. You can find more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation’s Web site at: [http://www.cdpr.ca.gov/](http://www.cdpr.ca.gov/) (www.schoolipm.info), click on “School IPM HELPR” in the column on the right). You may also view a copy of a school's integrated pest management plan at the school site office.

Please contact the school principal if you wish to receive written notification at least 72 hours prior to the application of an individual pesticide at your school. Each school will maintain a list of parents or guardians who want to be notified before individual pesticide applications are made. Prior to the application of any pesticide, the District will post a warning sign at the area to be treated at least 24 hours prior to the pesticide application and such sign will remain posted for at least 72 hours after the application. In the event of an emergency condition, advance notification and prior sign posting may not be feasible, but a warning sign will be posted immediately upon application of the pesticide.

Asbestos
You may request to review the complete updated management plan for asbestos containing material in school buildings. Staff, students, and parents/guardians shall be informed at least once each school year about any inspections, response actions, and post-response actions, including periodic re-inspection and surveillance activities, that are planned or in progress. (40 CFR §§ 763.84(c) and 763.93.)
Promotion/Retention – SP 5123
Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement.

Progress toward high school graduation shall be based on the student’s ability to pass the subjects and electives necessary to earn the required number of credits. Student shall be identified for retention or promotion as determined by school grades. Other indicators of academic achievement including school assessments, STAR results, portfolios, student attendance and other performance measures may also be used.

When a student is recommended for retention or is identified as being at risk for retention, the Principal shall provide opportunities for remedial instruction to assist the student in overcoming his/her academic deficiencies. Such opportunities may include, but are not limited to, tutorial programs, after-school programs, summer school programs and/or the establishment of a student study team.

Release of Directory Information SP 5125.1
The County Superintendent or designee may authorize the release of student directory information to representatives of the news media, prospective employers or nonprofit organizations as provided by law. Unless prohibited by the parent/guardian in accordance with law, directory information which school officials may disclose consists of the following: student’s name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of athletic team members, dates of attendance, degrees and awards received, and most recent previous school attended.

Colleges and prospective employers, including military recruiters, shall have access to directory information. Military recruiters shall have access to a student’s name, address, and telephone number, unless the parent/guardian has specified that the information not be released in accordance with law.

Telephone numbers shall be released only with express parental consent, except as otherwise permitted by law.

At the beginning of each school year, all parents/guardians shall be notified as to what categories of directory information the school or Butte County Office of Education plan to release, and to whom.

Based on its determination of the best interest of the student, the school may limit or deny the release of specific directory information to any public or private nonprofit organization.

Under no circumstances shall directory information be disclosed to a private profit-making entity other than employers, prospective employers, and representatives of the news media. Private schools and colleges may be given the names and addresses of 12th grade students and students who are no longer enrolled provided they use this information only for purposes directly related to their institution’s academic or professional goals.

Before using Butte County Office of Education technological resources, each student, and his/her parent/guardian shall sign and return an Acceptable Use Agreement specifying user obligations and responsibilities. In that agreement, the student and his/her parent/guardian shall agree to not hold Butte County Office of Education or any staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or users' mistakes or negligence. They shall also agree to indemnify and hold harmless Butte County Office of Education and personnel for any damages or costs incurred.

Student Technology Use Expectations
Students are responsible for appropriate behavior on the school's computer network just as they are in a classroom or on school grounds. Communications on the network/systems are often public in nature. No assumption of confidentiality is assumed. General school rules for behavior and communications apply. It is expected that users will comply with district standards and the specific rules set forth below. The use of technology is a privilege, not a right, and may be revoked if abused. The user is personally responsible for his/her actions in accessing and utilizing the school's technology resources. The students are not allowed to access, keep or send anything that they would not want their parents or teachers to see.

1. Students shall not access material that is obscene, pornographic, child pornography, "harmful to minors", or otherwise inappropriate for educational uses.
2. Students shall not use school resources to engage in "hacking" or attempts to otherwise compromise system security.
3. Students shall not engage in any illegal activities on the Internet.
4. Students shall only use electronic mail, chat rooms, and other forms of direct electronic communications for school-related purposes.
5. Students shall not download or install any commercial software, shareware, or freeware onto network drives or disks, unless they have permission from the Network Administrator. Nor shall students copy other people's work or intrude into other people's files.
6. Students shall not disclose personal information, such as name, school, address, and telephone number outside of the school network.
7. Students shall notify the teacher or BCOE staff member immediately, if by accident, you encounter materials which violate the boundaries of appropriate use.
8. Students shall be held accountable for their actions and for the loss of privileges if the Rules of Appropriate Use are violated.
9. Students shall not engage in any form of cyberbullying, including, but not limited to, cyber sexual bullying, the creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.
Testing
Benchmark assessments are established at regularly scheduled intervals throughout the school year to determine student learning and progress.

Students in grades 2 – 11 will participate in the California Assessment of Student Performance and Progress (CAASPP) System as required by California State Department of Education. CAASPP testing occurs each spring.

California Assessment of Student Performance and Progress (CAASPP) Exemption
Each year, pupils starting in the third grade will be participating in the CAASPP assessment system. Parents and guardians wanting to excuse their children from any or all parts of the CAASPP must submit a written request. Such written requests must be submitted to the school on an annual basis and will be granted. If you have any questions, please contact your appropriate site Principal. (5 CCR 852).

English Language Arts and Mathematics- Grades 3-8 & 11
The CAASPP computer adaptive assessments are aligned with the Common Core State Standards (CCSS). English language arts/literacy (ELA) and mathematics tests are administered in grades three through eight and grade eleven to measure whether students are on track to college and career readiness. In grade eleven, results from the ELA and math assessments can be used as an indicator of college readiness.

The computer-based CAA for ELA and CAA for mathematics is administered to students with the most significant cognitive disabilities in grades three through eight and grade eleven. Test items are aligned with the CCSS and are based on the Core Content Connectors.

Science- Grades 5, 8, 12
The new, computer-based CAST measures student acquisition of the California Next Generation Science Standards. It is administered in grades five and eight, and once in high school. The new computer-based CAST replaces the California Standards Tests (CST) for Science. The instructionally embedded CAA for Science is administered in grades five and eight, and once in high school.

Students whose primary language is not English will be given the English Language Proficiency Assessments for California (ELPAC) in October.

As of June 2006 students must achieve the required credits to obtain a high school diploma.

The California High School Proficiency Examination (CHSPE) is a program established by California law (Education Code Section 48412). If eligible to take the test, you can earn the legal equivalent of a high school diploma by passing the CHSPE. The CHSPE consists of two sections: an English-language Arts section and a Mathematics section. If you pass both sections of the CHSPE, the California State Board of Education will award you a Certificate of Proficiency, which by state law is equivalent to a high school diploma (although not equivalent to completing all coursework required for regular graduation from high school). Passing the CHSPE does not, by itself, exempt minors from attending school. Minors who have a Certificate of Proficiency must also have verified parent/guardian permission to stop attending school. Many students who pass the CHSPE continue to attend school.

Wellness Policy
Butte County Office of Education (BCOE) in cooperation with its schools developed a document: Guidelines to the Student Wellness Policy. According to public law #108-265 all schools participating in a federal nutrition program must adopt a policy on student wellness. This mandate came as a result of the high numbers of young children with obesity problems and juvenile diabetes. BCOE schools are committed to promoting the health of students by recognizing sound nutrition and optimal physical fitness as vitally important to learning readiness,
academic achievement, decreased discipline problems and improved emotional well-being. BCOE Superintendent Policy 5030 ensures all students have the opportunity to receive:

1. High quality, nutritious food while in school including all classroom activities.
2. Nutrition education in the classroom
3. Standards-based physical education and physical activity at all grade levels.

BCOE acknowledges the link between health and education and has developed a coordinated school health approach that is comprised of 8 essential components addressing optimal physical, mental, social and emotional well-being of young people. The 8 components involve the school, home and community working together to support good health and include:

1. **Health services**
   - preventive services and education
2. **Health education**
   - instruction that addresses the physical, mental, emotional and social aspects of health
3. **Family and community**
   - partnerships among schools, parents and community to maximize resources in support of good health
4. **Healthy school**
   - safe, healthy learning environments
5. **Physical education**
   - Instructional program provides students with skills, knowledge, attitudes and confidence to be physically active for life
6. **Nutrition services**
   - promotion of healthy eating habits and integration of nutritious, appealing meals
7. **Health promotion**
   - education and wellness activities for staff
8. **Counseling services**
   - activities that focus on academic, emotional, behavioral and social needs of school and home.

Schools are required to notify parents and guardians no less than twice during the school year on how to initiate access to available pupil mental health services on campus or in the community, or both. Any pupil or parent or guardian of a pupil may refer a student for mental health services by contacting the school administrative office. A school counselor and/or school psychologist can also provide information about other options to access mental health services within the community. To access mental health services within the community, pupils or parents or guardians of pupils can contact the Butte County Department of Behavioral Health or other mental health agency on pages 3-5 of the Butte County California Children’s Services Resource and Referral Guide located on the school’s website. (Education Code Section 49428).

**Type 2 Diabetes Information**
Pursuant to California Education Code Section 49452.7, this type 2 diabetes information is for local educational agencies to provide to parents and guardians of incoming seventh grade students beginning July 1, 2010.

The California Department of Education developed this type 2 diabetes information in collaboration with the California Department of Public Health, American Diabetes Association, California School Nurses Organization, and Children’s Hospital of Orange County. This information will be available in multiple languages in Spring 2010.
Type 2 diabetes is the most common form of diabetes in adults.

- Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.
- According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in his or her lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.

- The body turns the carbohydrates in food into glucose, the basic fuel for the body’s cells.
- The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
- In type 2 diabetes, the body’s cells resist the effects of insulin, and blood glucose levels rise.
- Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
- Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes

It is recommended that students displaying or possibly experiencing the risk factors and warning signs associated with type 2 diabetes be screened (tested) for the disease.

Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:

- Being overweight. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
- Family history of diabetes. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
- Inactivity. Being inactive further reduces the body’s ability to respond to insulin.
- Specific racial/ethnic groups. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.
- Puberty. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes

Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.

- Increased hunger, even after eating
- Unexplained weight loss
- Increased thirst, dry mouth, and frequent urination
- Feeling very tired
- Blurred vision
- Slow healing of sores or cuts
- Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
- Irregular periods, no periods, and/or excess facial and body hair growth in girls
- High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments

Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.

- Eat healthy foods. Make wise food choices. Eat foods low in fat and calories.
- Get more physical activity. Increase physical activity to at least 60 minutes every day.
- Take medication. If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child's age, weight, and height. A doctor can also request tests of a child's blood glucose to see if the child has diabetes or pre-diabetes (a condition which may lead to type 2 diabetes).

Types of Diabetes Screening Tests That Are Available

- Glycated hemoglobin (A1C) test. A blood test measures the average blood sugar level over two to three months. An A1C level of 6.5 percent or higher on two separate tests indicates diabetes.
- Random (non-fasting) blood sugar test. A blood sample is taken at a random time. A random blood sugar level of 200 milligrams per deciliter (mg/dL) or higher suggests diabetes. This test must be confirmed with a fasting blood glucose test.
- Fasting blood sugar test. A blood sample is taken after an overnight fast. A fasting blood sugar level less than 100 mg/dL is normal. A level of 100 to 125 mg/dL is considered pre-diabetes. A level of 126 mg/dL or higher on two separate tests indicates diabetes.
- Oral glucose tolerance test. A test measuring the fasting blood sugar level after an overnight fast with periodic testing for the next several hours after drinking a sugary liquid. A reading of more than 200 mg/dL after two hours indicates diabetes.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student's school nurse, school administrator, or health care provider if you have questions.

**Academic Policies:**
The Hearthstone staff makes every effort to set up students for academic success; however, students and parents/guardians must equally participate by keeping appointments and ensuring that students complete their work. If a student is struggling to complete his/her assignments, it is important that the student or parent contact the teacher right away by telephone or e-mail. It is equally important that students attend each meeting with the teacher. If a student is unable to attend a meeting, the parent shall call the teacher as soon as possible to notify the teacher. Students who consistently miss teacher meetings (more than two in a semester) will be evaluated for continued enrollment, see ATTENDANCE section.

**Academic Integrity**
Hearthstone students are expected to take responsibility for their learning as well as the content and integrity of the coursework they submit. Students are expected to complete their work independently and submit work that is their own. The following are examples of academic dishonesty:

- Using another person’s words or ideas without giving credit to the source
- Copying and pasting material from any source including the internet without giving credit to the writer
- Changing the words or order of words from another source and submitting them as your own
- Copying an assignment from another person
- Using unauthorized devices to access information in a deceptive manner (phones, tablets, calculators, computers, etc.)
- Failing to follow teacher guidelines regarding collaboration and group work. Students are expected to complete work independently unless specifically directed otherwise.

Instances of plagiarism, cheating, and other forms of academic dishonesty are taken seriously and will result in one or more of the following consequences:

- Zero on assignment
- Parent Notification
- Parent/Student/Teacher Conference
- Referral to Administration
- Suspension
- Loss of privileges

**Academic Probation** is the process by which students and families are notified that a student is not in compliance with Hearthstone’s enrollment requirements. Reasons a student may be placed on Academic Probation include, but are not limited to:

- Not attending or being late to assigned classes
- Missing or not participating in pre-arranged conferences
- Failure to Complete contracted assignment’s
- Not complying with behavioral expectations

The academic probation process will establish the requirements for the student to remain at Hearthstone. Failure to meet the requirements may lead to further action up to and including disenrollment and referral to your district of residence for a classroom based program.

**Student Expectation**
Students are expected to be sensitive of the diverse population of Hearthstone School. Our school serves students in K-12 and often students of many grade levels and their parents/guardians are at school during the same hours. Hearthstone is implementing Positive Behavior Intervention and Supports (PBIS) with the philosophy that we need to teach and recognize the behavior we expect. Hearthstone, with input from staff, students and parents is
developing a school-wide system to promote consistency and clarity in expectations. These are based on the acronym S.O.A.R. from our motto: Dragons don’t fly, we soar!

- Self-Reliant
- Open-minded
- Appreciative
- Respectful

Recognizing students for following the rules is even more important than catching them breaking the rules. Students will be recognized for positive behavior with Dragon Scales. These are notes of recognition given to the students which are then redeemed for items in the Dragon Store.

Hearthstone also acknowledges the need for consistent and measureable responses to problem behavior. Minor behavior will receive structured responses within the classroom. Major issues and repetitive behavior will be referred to the office and will be tracked to help students and teachers better understand and improve the behavior

Dress and Grooming
All clothing must cover entire midriff, chest, buttocks and undergarment area when standing, walking, or sitting. Transparent clothing, and clothing designed to be worn as an undergarment are not permitted. The supervising Hearthstone teacher reserves the right to determine appropriate dress and to take corrective action which may include requiring the student to change their clothing, put on an over layer or to leave the school premises when the mode of dress is in question. Parents will be notified if corrective action was taken.

Students and parents/guardians shall be informed about the school dress code at the beginning of the year and when revised. A student who violates the dress code shall be subject to appropriate disciplinary action.

Emergency Procedures
Butte County Office of Education has developed the following emergency procedures for our schools:
BCOE has a Crisis Response Plan in place and a copy of that plan is available for your review in the school office.
In the event of a school emergency, staff and students are to follow the directions in the BCOE Crisis Response Procedure Flip Chart that is posted by each room entrance.

Food Services
Hearthstone School provides morning snack and lunch. Those snacks meet our Butte County Office of Education wellness policy guidelines. Hearthstone School includes nutrition education in their health curriculum.

Attendance Procedure:
Daily attendance is a key element in the educational and social progress of students. All children between the ages of 6 and 18, whom not exempted, are required to attend school. Days of attendance are measured by assignments completed.

To comply with attendance requirements for Hearthstone, students and parents must:
1. Complete assignments as outlined on the Student Learning Plan.
2. Meet regularly with the assigned staff members(s).
3. Attend assigned on site classes.

Hearthstone provides personalized learning through Independent Study and opportunities for first instruction through a Hybrid Option (blended Independent Study with classroom instruction) that aims to strengthen the school’s relationship with parents and community to prepare students for a career, college and life.

Missing a scheduled appointment, lack of attendance in on site classes or failure to complete assignments may result in an immediate attendance referral and potential disenrollment. Hybrid classes require a commitment to attendance and promptness. Lack of attendance in on site classes will result in loss of the Hybrid Option.

Excused and Unexcused Absences
There are no excused absences at Hearthstone. Students may be excused from classroom activities for illness. This does not exempt them from completing the work assigned independently. If an illness is significant enough to require exemption from work assigned independently a doctor’s note will be required.

Three absences are considered significant; the student will be placed on Academic Probation and may result in action up to and including disenrollment in classes.

Tardy
A student is tardy whenever he/she is late to class or an appointment. Tardy occurrences of less than 20 minutes will be handled by the classroom teacher. The third occurrence will be reported to the principal’s office to be recorded toward truancy. When a student is late to class by 20 minutes or more the occurrence will automatically be recorded towards truancy. Three tardy occurrences are equivalent to one unexcused absence.
