

PESTICIDE APPLICATION NOTICE

Cumberland CUSD#77 practices Integrated Pest Management, a program that combines preventive techniques, non-chemical methods, and the appropriate use of pesticides with a preference for products that are the least harmful to human health and the environment.

The term “pesticide” includes insecticides, herbicides, rodenticides, and fungicides.

The school district does NOT practice pest management during hours when students are present. This documentation serves as a notice for your information. If you have further questions about this practice, please contact CUSD #77 Superintendent Todd Butler at tbulter@cumberland.k12.il.us or 217-923-3132.
