

EXEMPTION POLICY (Middle School & High School)

Students who fulfill the following attendance requirements and earn the following grade point average may be exempt from the semester tests:

Grade Average	Maximum Allowable Absences
A (90-100)	4
B-(80-89)	2

If a student has an unexcused absence he/she is no longer eligible for test exemption. (High School Only)

In considering days missed, all absences, excused and unexcused, and unexcused tardies will be counted except absences because of school-sponsored activities. An exempted student has the option to take the semester tests. However, the grade mark earned on the test will be included in the overall grade average.

Middle School students that score at or above the cut score established by the faculty and/or administration on the state test will be exempt from the spring semester test in the corresponding subject regardless of absences and grade. An exempted student has the option to take the semester tests. However, the grade mark earned on the test will be included in the overall grade average.
