POLICY OF THE BOARD OF EDUCATION

1984-85

POLICY ON DISPENSING MEDICATION

1. The term "medicine" as used in this policy means "non-prescription medicine" and "filled prescription medicine". "Filled prescription medicine" is prescription medication contained in a prescription vial with a label which correctly states the name and address of the pharmacy, date of filling; name of patient, name of prescriber, prescription number, and directions for the administration of the medication.
2. Only the following personnel shall be authorized to administer medicine at school: the school nurse, or in the absence of such nurse, the school principal, or school employees who have been designated in writing by the school nurse and the school principal as authorized to administer medicine. A nurse employed by the County Health Department working pursuant to an agreement made between the County Health Department and this School District may also administer medicine in the absence of the school nurse.
3. No medicine shall be administered unless the parent or guardian of the student requiring the medication has given the school written authorization to administer the medicine. The parent or guardian of any student requiring medication during school shall bring the medication to the principal of the school the student attends, and complete and sign the "Parental Authorization" Form attached to this policy. When a student enrolls in a particular school, the parent or guardian of the student may sign a "Clinic Card" authorizing the appropriate personnel to administer non-prescription medication to the student during an emergency when the parent or guardian cannot be reached.

JACK REDDEN, Elementary Prin.
PATRICIA HALL, Fin. Secretary

Each school shall keep on file the written authorization(s) of the parent or guardian of the student to administer medicine to the student.

4. Filled prescription medicine shall be administered pursuant to the directions for the administration of the medicine listed on the label, or as otherwise authorized in writing by the physician prescribing the same. Non-prescription medication may be dispensed and administered only in compliance with the written directions on the label of the medication, or as otherwise authorized in writing by the child's physician. All medicine shall be properly stored, and not readily accessible to persons other than the persons who will administer the medication.

5. Each school in which any medicine is administered shall keep a record of the name of the student to whom the medicine was administered, the date the medicine was administered, the name of the person who administered the medicine, the type or name of medicine which was administered, the dosage of the medicine which was administered, and the time the medicine was administered. The "Log Of The Administration Of Medicine" attached to this policy shall be used by each school to keep the record of all medicine administered during each school year.

6. The Board of Education adopts this policy pursuant to the provisions of 70 O.S. 1984, 1-116.2. Under this statute a school nurse, county nurse, administrator, or designated school employees are not liable to the student or his parent or guardian for civil damages for any personal injuries to the student which result from acts or omissions of the school or county nurse,
