

# TIGER CHAT!

# March Madness 05!

# Track Season Is Here!!!

This year's track season has started and the team is ready to go. This years track team includes:

## Girls

### **Freshmen**

Lindsey Heatherly  
Jessica Allen  
Kylee Williams  
Johnna Beets

### **Sophomores**

Katie Knight  
Keesha Holman  
Brandi Taber

### **Juniors**

Kristi Chandler  
Nikki McDonald  
Jessie Wade  
Shayla Graham

### **Seniors**

Keri Wells  
Sarah Riley

## Boys

### **Freshmen**

Matt Cook  
James Sullivan

### **Sophomores**

Josh Botts  
Jared Dopp  
Josh Kelly  
Kyle Long  
Blake Tedlock

### **Juniors**

Logan Cawyer  
Micah Littlejohn  
Tim Osborn  
Klint Reading  
Chad Trease

### **Seniors**

Manuel Aguilar  
Nick Cook  
Greg Thomas  
Tyler Williams

# F.C.C.L.A

FCCLA held its annual blood drive at Commerce High in Mrs. Andrew's room. Our goal was to have 40 blood donors. Students, faculty, and others came to donate. We surpassed our goal of 40 donors with an awesome number of 51 donors. Twenty-four of these were first time donors. We helped the Red Cross collect 41 units of blood which enables 123 lives to be saved. Thank you CHS students, faculty, and community for the success of our annual blood drive.

by: Jessica Wisdom

## **2005-2006 CHS Cheerleaders**

Cheerleading tryouts were held March 23, 2005. The following girls will represent our school in the 2005-2006 school year.

### **Freshman**

Kourtney Reading  
Lani Schnautz

### **Sophomores**

Rachel Ross  
Rachel Burnside  
Jordan Murphy  
Brenna Little

### **Juniors**

Katie Knight  
Brandi Taber

### **Seniors**

Kyrie Bengé  
Shayla Graham  
Whitney Teeter  
Jessie Wade

**Congratulations to all of you!!!!**

By: Kyrie Bengé

## *Spring Semi- Formal*

This years semi-formal was a blast. There wasn't a very large turn out, but it was fun. The DJ did a great job of keeping good music going, and all the students made it exciting. Everyone was dressed to impress. Stuco decorated the day before. They did a great job. Lights were strung everywhere. It was very pretty. Cookies and pop were served for refreshments. Girls were wearing pretty dresses, and the boys were very clean cut. Cody and Miles were even wearing ties.

## *April Birthdays*

Kendra Allman	4/29/88
Skyler Austin	4/28/87
Eli Brownfield	4/04/90
Rachel Burnside	4/28/90
Joe Carey	4/25/87
Jared Dopp	4/03/89
Ashley Huff	4/12/89
Jonathan Logan	4/22/88
Amanda Montgomery	4/10/90
Amanda Morton	4/24/90
Patrick Potter	4/13/89
Brian Smith	4/09/87
Corey Snowden	4/01/89
James Sullivan	4/22/89

*Riddles submitted by Jessica Bauer*

1. Take the number of your fingers multiplies by the number of your toes divided by one half and add it to the number of months in a year. What is the total?
2. A mother and father have six sons and each son has one sister. How many people are in that family?
3. Jenn has half the Beanie Babies that Mollie has. Allison has 3 times as many as Jenn. Together they have 72. How many Beanie babies does each girl have?
4. A baseball team had just won the championship game and the players wanted to congratulate each other. They began shaking hands, but each player only shook hands with every player just once. There are, of course, only 9 players on a baseball team. How many times did the players shake hands?
5. A car travels at a speed of 30 mph over a certain distance, and then returns over the same distance at a speed of 20 mph. What is the average speed for the total trip?
6. Find a simple method of solving:  
$$6751X + 3249Y = 26751$$
$$3249X + 6751Y = 23249$$
7. Nick and John were exercising when the subject of weight came up. Nick had no problem telling John his weight, but John said he had more "mass" than he wanted. He wouldn't come right out and reveal his weight; so he told Nick this riddle. "I weigh 147 pounds plus half of my weight," he said. How much does he weigh?
8. How can you measure 1 gallon of juice out of a barrel, if all you have available is a 3 gallon and a 5 gallon pitcher?
9. When manufacturing bars of soap, the cutting machine produces scraps. The scraps form 11 bars of soap can be make into one extra bar. What is the total number of bars that can be made after cutting 250 bars of soap?
10. Joe bought a bag of oranges on Monday, and ate a third of them. On Tuesday he ate half of the remaining oranges. On Wednesday he looked in the bag to find he only had 2 oranges left. How many oranges were originally in the bag?

### Answers to the Riddles

1.  $10 \times 10 = 100 / 1/2 = 200 + 12 = 212$  \* Note : For another way to look at this —Stuart writes: I noticed that the corresponding answer to puzzle 1 says " $10 \times 10 = 100 / 1/2 = 200 + 12 = 212$ ," when in fact it should be " $9 \times 10 = 90 / 1/2 = 180 + 12 = 192$ " as you have 8 fingers and 2 thumbs!

2. 9

3. If Mollie has twice as many Beanie Babies as Jenn and Allison has 3 times as many as Jenn, then the total of 72 must be divided by 6.  $72/6 = 12$ . Therefore: Jenn has 12 Beanie Babies, Mollie has 24 Beanie Babies, and Allison has 36 Beanie Babies.

4. The 1st player only shakes hands with 8 other players, the second player only shakes hands with 7 other players ( he already shook hands with the first player!), the 3rd player only shakes hands with 6 players ( he already shook hands with the 1st and 2nd players!), and so on, until the last player who only has one possibility left. Therefore:  $8+7+6+5+4+3+2+1 = 36$

5. 24 mph. Most people are quick to answer 25 mph, but this is not correct, as we will see. Let the distance traveled be 60 miles each way. Then, the trip out  $= 60/30 = 3$  hours. Therefore: the 120 mile trip  $= 120/5 = 24$  mph.

6. Add the equation to give  $10000X + 10000Y = 50000$

Divide by 10000 to give :  $X+Y = 5$

Subtract to give:  $3502X - 3502Y = 3502$

Divide by 3502 to give:  $X-Y = 1$

7. If John weighs 147 lbs. Plus half of his body weight, the 147 lbs. Represent the other half. John weighs 294 lbs.

8. Fill the 3 gallon pitcher and pour it into the 5 gallon pitcher. Now fill the 3 gallon pitcher again and fill the 5 gallon pitcher to capacity. What remains in the 3 gallon pitcher is one gallon of juice.

9. Divide 250 by 11 which equals 22.8. Now when you combine the extra 8 scraps with the scraps you'll have from the 22 bars, you'll have 30 more scraps. They will produce 2 more bars; so the total additional bars will be 24.

10. He had 6 oranges to start with, and ate 2 the first day and 2 the second day.

## *Choir Districts*

Choir Districts were held at N-E-O on February 19. We had a great turn out this year. The following people received a one at districts: Kari Bunch, Brittany Fanning, Ele Ortiz, Josh Fanning, Tyler Thulin, and Salvador Prado.

We also had two ensembles that received ones at districts. The Fanning ensemble was Jacque Wilson, Brittany Fanning, and Kari Bunch. The Ele ensemble was Sarah Riley, Jennifer Cooper, Jessica Bauer, Amber Jones, Ele Ortiz, and Brandi Taber.

Shelley Thulin, Jennifer Leggett, Ashleigh Morton, and Keesha Holman also participated and did an awesome job as well.

State will be held April 20-21 at Shawnee or Oklahoma City. Good luck at State.

# *Jokes*

A man: God, how much is a million dollars to you?

God: It is but a penny.

A man: God, how long is a million years to you?

God: It is but a second.

A man: God, could you please give me a penny?

God: Sure, just a second.

Q.: Why didn't Noah go fishing?

A.: He only had two worms!

Q.: Why are all blonde jokes one-liners?

A.: So men can understand them.

Q.: What's a man's idea of helping with the housework?

A.: Lifting his legs so you can vacuum.

Q.: What is the difference between ET and a man?

A.: ET phoned home.

### **Two Elderly Ladies at Tea.**

Two elderly women were fussing about their husbands over tea one day.

"I do wish my Leroy would stop biting his nails. That makes me terribly nervous!" the first one said.

"Oh, my Elmer used to do the same thing," the other woman commented. "But I broke him of that habit real quick."

"What did you do?"

"I hid his teeth!"

### **Bathroom Break**

On the first day of school, about mid-morning, the kindergarten teacher said, "If anyone has to go to the bathroom, hold up two fingers."

A little voice from the back of the room says, "How will that help?"

### **Dog Watch**

Guest: "Why does your dog sit there and watch me eat?"

Hotel Host: "I can't imagine, unless it's because you have the plate he usually eats from."

***You must read this like it is typed!***

CM puppies  
MR not puppies  
OSMR  
CMPN  
LIBMR puppies.

If you read it like this.....

See them puppies.  
Them are not puppies.  
OH yes them are.  
See them peeing.  
Well I'll be them are puppies.

***You might be a redneck!!***
