# SOFTBALL DISTRICTS

The Lady Tigers played Wyandotte for their district game. They played and had to win at least one to move on to play another game to advance to Regional. With a lot of injuries on the team, the Lady Tigers still came ready to fight. Unfortunately, they lost both games. That means their season is over. The Lady Tigers went home with their heads held high. Even after the losses, they still have a lot of positive accomplishments to look back on.

At State the CHS Cheer team competed against eight teams. They didn't go as good as they would have liked to, but they all still have something to be proud of. They ended up getting 5th place. Afterwards the cheerleaders kept their heads up and went as a team to eat at Toby Keith's Bar and Grill. ## The Start of Hunting Season by Reese Littlejohn

The first day of fall is officially the 22nd of September, but to hunters fall started on the 1st. The Oklahoma Dove hunting season started on September 1st. kicking off the 2017 fall hunting season. Dove season is when hunters clean up their guns, grab some old friends, and spend insane loads of money at the sporting goods store. It is more than just shooting birds; it is scouting cut fields, waking up real early, and seeing friends/family you

might not have seen in a while. It isn't really hard to hunt dove. If you have found a cut corn or other grain field, you sit at the edge of it along a fence or tree line with maybe a couple decoys and wait for the birds to fly. The hardest part is actually hitting the bird. It is very difficult to hit a fast moving target, especially if it knows you are there. Some good practice before season wouldn't hurt. And to all you other hunters out there, good

luck and happy hunting!

## BOOK OF THE MONTH by Alyssa Kelly

This book is very complex. It is about a woman who has a gift that allows her to see major events about to occur., these events are murders. She works with police to help stop these murders before they happen. However one vision is not so easy to solve. Somehow the man

behind these visions is in control. It isn't until she finds herself in danger that she realizes this man isn't like any murderer she's ever faced before. I found this book extremely interesting. There's many plot twists and very deeply hidden secrets. I would definitely recommend this

book to anybody that is into suspenseful reads.
