Things To Know About Taking Your Device Home

1. The $35 device fee is required for students to take their device home. This fee is put toward the cost of any damages that are not covered by AppleCare. Usually the student will still be responsible for any costs that exceed $100.

2. Students are issued an Apple certified block and cord with their device. Replacement charging accessories are not covered by the $35 fee. The cost for replacements are as follows:
   - Block--$20
   - Cord--$20

3. Students should come to school each day with their device fully charged.

4. We expect students to take care of devices like they are their own. The following are just some things to remember about taking care of the device:
   a. Keep track of your device. You should know where your device is at all times.
   b. Never leave in a vehicle where devices will be subjected to extreme heat or cold.
   c. Screens often crack under pressure. Transporting your iPad or computer in your bookbag may result in damage.
   d. Even with the case, devices are not immune to damage if dropped.
   e. If you have damage or an issue with your device you need to let Mrs. Buell know as soon as possible.

5. Because devices are school issued, they are the property of the school and not the student. As such, all teachers and staff have the right to pick up and search devices at any time. If students are using devices inappropriately they are subject to confiscation.
