#### INDEPENDENT AUDITORS' REPORT

To the Board of Directors Crow-Applegate-Lorane School District No. 66 Lane County, Oregon

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Crow-Applegate-Lorane School District No. 66, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Crow-Applegate-Lorane School District No. 66, as of June 30, 2013, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

The District adopted the provisions of GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, for the year ended June 30, 2013. Our opinion is not modified with respect to this matter.

#### Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the Management's Discussion and Analysis or Schedule of Funding Progress and Employer Contributions because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the Unites States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 29, 2013, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Roy R. Rogers, CPA

PAULY, ROGERS AND CO., P.C.

As management of the Crow-Applegate-Lorane School District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2013.

### FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets of the District exceeded its liabilities at June 30, 2013 by \$1,704,260. Of this amount, \$612,562 represents the District's net investment in capital assets, \$307,128 is restricted for specific operations and activities and \$784,570 is unrestricted and available to meet the District's ongoing obligations.
- Of the \$3,717,172 in governmental fund revenue, the general fund represents 90% of the total. The general fund's ending fund balance is \$498,327 or 49% of the total for all governmental funds.
- The General Fund received \$3,327,847 in revenue in 2012-13. The revenues that make up the State School Fund formula dollars represented 93% of the total. The Local Option Levy was 3% of the total and the remaining 4% was from other sources.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

# **Government-Wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

**Statement of Net Position** The *Statement of Net Position* presents information on all of the assets and liabilities of the District as of June 30, 2013. Net position consists of assets remaining after the liabilities have been paid off or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

**Statement of Activities** The *Statement of Activities* presents information showing how the net position of the District changed over the most recent fiscal year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave.)

In the government-wide financial statements, the District's activities are aggregated into the single category of *governmental activities*. All of the District's basic functions are shown here, such as regular programs, special programs, student support services, etc. These activities are primarily financed through property taxes, Oregon's State School Fund and other local revenues.

The government-wide financial statements can be found on pages 4 and 5 of this report.

#### **Fund Financial Statements**

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related requirements. To be considered a major fund, the fund's assets, liabilities, revenue or expenses must be at least 10 percent of the total of all funds.

**Governmental Funds** The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike government-wide financial statements, however, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. Both the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison.

The District maintains eight individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Federal and State Projects Fund, Capital Projects Fund and Bus Replacement Fund which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the combining statements.

The basic governmental fund financial statements can be found on pages 6 and 8 of this report.

**Notes to the Basic Financial Statements** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 10-20 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Statement of Net Position

Summary Sta Governi	tement of Ne mental Activ		•
		2011-12	 2012-13
Current and Other Assets	\$	1,369,540	\$ 1,436,064
Capital Assets		656,450	612,562
Total Assets		2,025,990	 2,048,626
Current Liabilities		222,389	344,366
Non-Current Liabilities		15,769	0
Total Liabilities		238,158	344,366
Net Position			
Net Investment in Capital Assets		656,450	612,562
Restricted		292,722	307,128
Unrestricted		838,660	784,570
Total Net Position		1,787,832	\$ 1,704,260

There was just a nominal increase in Assets from the prior year. The increase in Accounts Payable is primarily due to the timing of when some year-end invoices were paid compared to the prior year. In 2011-12 they were paid before June 30th and in 2012-13 they were paid after June 30th. The \$43,888 reduction in capital assets is primarily the result of depreciation for the year.

As noted earlier, net position may serve as a useful indicator of the District's financial position over time. The District's assets exceeded liabilities by \$1,704,260 on June 30, 2013. A portion of the District's net position (36%) reflects its investment in capital assets. The District uses these capital assets to provided services; consequently these assets are not available for future spending.

# **Changes in Net Position**

Summary Statement of Changes in Net Position							
Revenues:	20	11-12	2012-13				
Program Revenues: Charges for Service	\$	00 047	œ	04 255			
	Ф	92,847	\$	94,355

Property Taxes		1,149,261		1,050,073			
State Support		2,191,216		2,162,853			
Unrestricted Federal Income		16,707		16,641			
Unrestricted Intermediate/Local Sources		80,677		109,833			
Earnings on Investments		7,867		7,625			
Total Revenue		3,948,843		3,717,172			
Expenses:							
Instruction		2,037,516		1,944,354			
Support Services		1,881,147		1,681,284			
Community Services		174,321		175,106			
Total Expenses		4,092,984		3,800,744			
Change in Net Position		-144,141		-83,572			
Net Position – beginning		1,931,973		1,787,832			
Net Position – ending	\$	1,787,832	\$	1,704,260			

Revenues showed an overall decrease compared to the prior year. Some of the more significant changes are highlighted below.

- Operating Grant revenues decreased because 2011-12 included funds that were carved out of the regular state school fund support and awarded as grant funds. In 2012-13 the funds were awarded as regular state school funds. Some of the grant funds awarded in 2012-13 were carried forward to be spent in 2013-14. These include IDEA, Title I and Title II funds.
- Property tax revenue decreased due to a sharp decrease in assessed valuation.
- State support decreased even with the additional funds mentioned above. The formula
  for the state payments finally included that adjustment for having all students at one
  elementary school. The small school correction for Lorane was no longer included in the
  formula.
- The increase in Intermediate/Local Revenue includes e-rate revenue for the first time.

There was a decrease in overall expenses in 2012-13.

- The cost for Instruction Services decreased at the elementary level with the closure of Lorane Elementary. There was also a decrease in IDEA grant expenses as mentioned above.
- The reduction in Support Services includes the savings from having a part time superintendent, maintenance and other related costs by closing Lorane Elementary and the decrease in grant expenses as mentioned above.

# FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS - BUDGETARY BASIS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year.

General Fund The General Fund is the chief operating fund of the District. As of June 30, 2013, the fund balance was \$498,327. This represents a decrease of \$73,816 from the prior year's financial statement. Included in the ending General Fund balance is the \$29,366 ending fund balance from the Curriculum Reserve Fund. Per GASB 54, since this fund no longer has ongoing revenue streams, the ending fund balance is to be combined into the General Fund fund balance for reporting purposes. The actual General Fund balance was \$468,961 on June 30, 2013.

Other Governmental Funds These funds include the Federal/State Projects, Athletics, Food Service, Bus Replacement, Student Activity, Scholarship and the Capital Projects Fund. The combined fund balance for all of these funds increased \$15,938. The ending fund balance is now \$512,184. The Bus Replacement fund balance increased \$20,958 with revenue from the state school fund. The Food Service, Scholarship and Student Activity funds all used a portion of their fund balance to support the programs in 2012-13.

### **BUDGETARY ANALYSIS**

The General Fund ending fund balance was more than budgeted due to several factors. The primary factor was a \$100,325 positive adjustment in the state school fund formula reconciliation for 2011-12. This positive adjustment is recorded as additional revenue in 2012-13 because the actual amount is not known until May 2013.

#### CAPITAL ASSETS

	pital Assets f depreciation)			
2011-12		2	012-13	
Land Buildings and Improvements	\$	138,420 309,260	\$	138,420 279,684
Vehicles and Equipment Total	\$	208,770 656,450	\$	194,458 612,562

Capital Assets The District's investment in capital assets includes land, buildings and improvements, vehicles, and equipment. As of June 30, 2013, the District had invested \$612,562 in capital assets, net of depreciation, as shown on the table above. During the year, the District's investment in buildings/improvements and vehicles/equipment decreased as a result of depreciation.

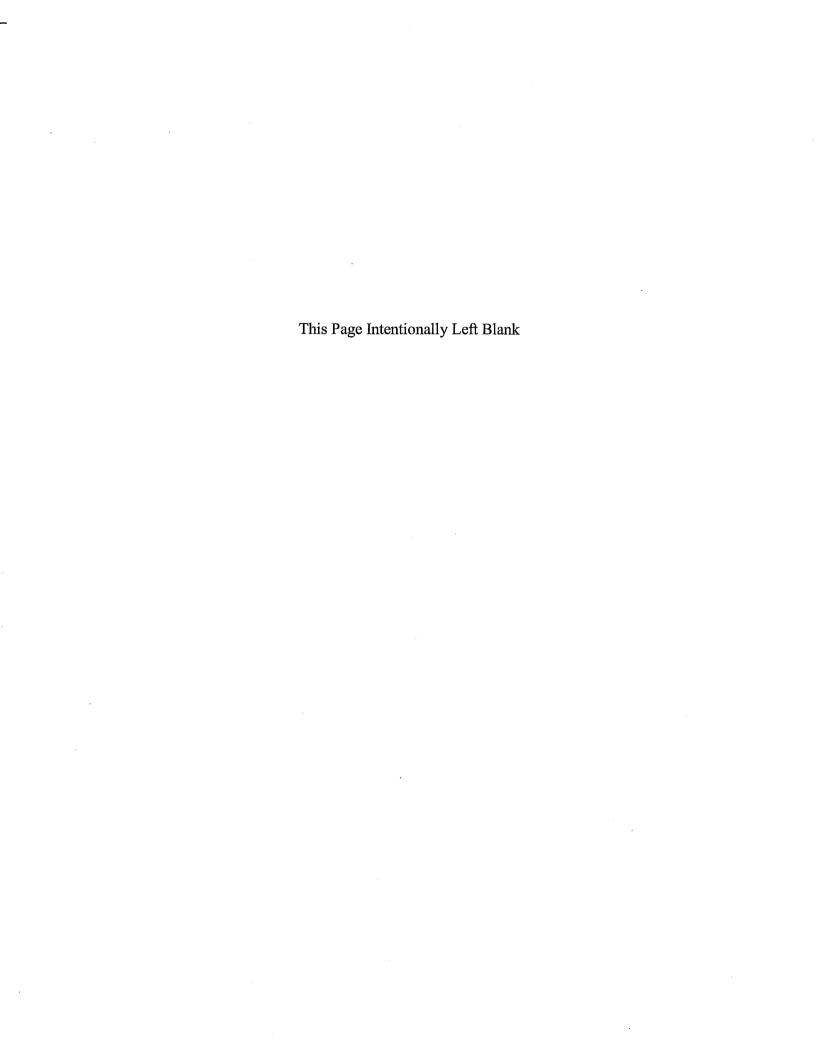

#### REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Director of Business Services at 1200 Highway 99N, Eugene, OR 97402.

Dave Standridge

Director of Business Services

Net Change in Fund Balance			\$ (57,878)
Amounts reported for governmental activities in the Statement of Activities are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capital asset additions Depreciation expense	\$	15,571 (59,459)	(43,888)
Some items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:			
Net change in Pension Asset Net change in OPEB Obligation Net change in Accrued Vacation			 947 14,822 2,425
Change in Net Position	-		\$ (83,572)

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Basic Financial Statements of Crow-Applegate-Lorane District No. 66 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

## A. THE FINANCIAL REPORTING DISTRICT

The District is a municipal corporation organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a five-member Board of Directors (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by accounting principles generally accepted in the United States of America, all activities have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental entities and special service districts which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units, as defined by the Governmental Accounting Standards Board (GASB) Statement 61, or included in these basic financial statements.

# B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND PRESENTATION

# Government Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information as a whole.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses of assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-Exchange Transactions." Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All direct expenses are reported by function in the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Program revenues derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole. Program revenues reduce the cost of the function to be financed from the general revenues and include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

#### NOTES TO BASIC FINANCIAL STATEMENTS

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND PRESENTATION (CONTINUED)

### Fund Financial Statements

The accounts are organized and operated on the basis of funds. A fund is a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

## Governmental Fund Types

Governmental funds are used to account for the general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions and certain compensated absences which are not recognized as expenditures because they will not be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

There are the following major governmental funds:

#### General Fund

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

#### Federal and State Projects Fund

The principal sources of revenue are grants from governmental agencies. The primary uses of revenue are salaries and supplies specifically requested with the grant application.

#### Capital Projects Fund

This fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities.

# Bus Replacement Fund

This fund accounts for activities related to the replacement of the buses within the District's fleet.

# Special Revenue Funds Rolled into the General Fund for GASB 54 Purposes

As discussed in Note 1(B), financial statements for periods beginning after June 15, 2010 must report as Special Revenue funds only those which have a substantial portion of revenue inflows from restricted or committed revenue sources. The Curriculum Reserve fund is combined into the General Fund because the primary revenue source is transfers from the General Fund.

### Curriculum Reserve Fund

The curriculum reserve fund is used for the replacement of curriculum and related classroom materials. There are currently no ongoing revenues for this fund; it was established by a transfer from the general fund.

### **Interfund Transfers**

The interfund transfers reported on the combined statement of revenues, expenditures and changes in fund balances are operating transfers. Operating transfers are legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended.

#### NOTES TO BASIC FINANCIAL STATEMENTS

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND PRESENTATION (CONTINUED)

# **Property Taxes**

Ad valorem property taxes are levied and become a lien on all taxable property as of July 1. Property taxes are payable on November 15. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15. Property taxes unpaid and outstanding on May 16 are considered delinquent. Property taxes are collected from taxpayers by the Lane County Department of Assessment and Taxation and are remitted.

Uncollected property taxes are shown in the balance sheet. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

#### Grants

Grants are recognized as revenue in the accounting period in which they become both measurable and available and in which all eligibility requirements have been met. When expenditure is the prime factor for determining eligibility, the revenue is recognized when the expenditure is made. Cash received from grantor agencies in excess of related grant expenditures is recorded as a liability on the balance sheet.

# Inventories of Supplies

The estimated cost of supplies held for school operation at year end is based on estimated current cost. Differences between beginning and ending inventory balances are charged to expense in the government-wide financial statements. Inventory is expensed when purchased in the fund statements.

#### Capital Assets

Capital assets are recorded at original or estimated original costs. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets are defined as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over their useful lives. Furnishings and equipment are depreciated over their useful lives of five to fifteen years. Buildings and improvements are depreciated over their useful lives of seven to fifty years.

# Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

### Long-Term Obligations

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Currently there are no long-term obligations.

#### Retirement Plans

Substantially all of the employees are participants in the Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged to expenditures as funded.

### NOTES TO BASIC FINANCIAL STATEMENTS

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND PRESENTATION (CONTINUED)

#### Accrued Compensated Absences

It is policy to permit employees to accumulate earned but unused vacation pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service. All vacation pay is accrued in the government-wide statements as a liability.

#### **Net Position**

Net position is comprised of the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – consists of external constraints placed on assets used by creditors, grantors, contributors or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

When disbursements are paid for purposes in which both restricted and unrestricted net position is available, the District deems restricted net position to be spent first.

### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. There are no deferred outflows.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. There are no deferred inflows.

#### Fund Balance

In March 2009, GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions. The objective of this statement is to enhance the usefulness of the fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

- <u>Nonspendable fund balance</u> represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaid items.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).

#### NOTES TO BASIC FINANCIAL STATEMENTS

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND PRESENTATION (CONTINUED)

# Fund Balance (continued)

- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- <u>Assigned fund balance</u> represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. The authority to classify portions of ending fund balance as Assigned is granted to the Superintendent and the Business Manager.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable) and unassigned.

There were no committed fund balances as of June 30, 2013.

# Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2013 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure is reported in the year in which the services are consumed. There were no prepaid items at June 30, 2013.

#### Cash and Investments

Oregon Revised Statutes authorize investing in obligations of the U.S. Treasury, agencies and instrumentalities of the United States, commercial paper, banker's acceptance guaranteed by a qualified financial institution, repurchase agreements, interest-bearing bonds of any city, county, port or District in Oregon (subject to specific standards) and the state local government investment pool, among others.

Investments are carried at amortized cost, which approximates fair value. During the year, the investments included obligations of the U.S. Treasury, its agencies and instrumentalities, deposits in financial institutions and the State Treasurer's investment pool, all of which are authorized by Oregon law.

The District is required by Oregon law to insure its deposits with financial institutions through federal depository insurance funds coverage or participation in institution collateral pools that insure public deposits.

The State Treasurer of the State of Oregon maintains the Oregon Short-Term Fund, of which the Local Government Investment Pool (LGIP) is part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statute and the Oregon Investment Council. In accordance with Oregon Statutes, the investment funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. The Oregon Short-Term Fund is the LGIP for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of Federal arbitrage regulations. The investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). At June 30, 2013, the fair value of the position in the Oregon State Treasurer's Short-Term Investment Pool approximates the value of the pool shares. The investments in the Oregon Short-Term Fund are available from the Oregon State Treasurer.

# NOTES TO BASIC FINANCIAL STATEMENTS

### 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### **Budgetary Information**

A budget is prepared and legally adopted for each governmental fund in accordance with Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles in the United States of America except the property taxes received after year-end are not considered budgetary resources in the funds, inventory is expensed when purchased, capital outlay is recorded as an expenditure rather than capitalized, debt service, accrued vacation pay and post-employment benefits are expensed when paid instead of when incurred, and depreciation is not recorded on capital assets.

The budgeting process begins by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency and transfers) for each fund. Expenditure appropriations may not legally be over-expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts and appropriation transfers approved by the Board. Appropriations lapse at the end of each fiscal year.

Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2013.

#### 3. CASH AND CASH EQUIVALENTS

#### A. DEPOSITS

Deposits with financial institutions include bank demand deposits. The total bank balance at June 30, 2013 was \$272,536, all of which was covered by federal depository insurance. Oregon Revised Statues require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

#### **B. INVESTMENTS**

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

#### NOTES TO BASIC FINANCIAL STATEMENTS

# 3. CASH AND CASH EQUIVALENTS (CONTINUED)

# B. INVESTMENTS (CONTINUED)

Cash and Investments at June 30, 2013, (recorded at fair value) consisted of:

Deposits with Financial Institutions:

### Demand Deposits:

Checking	\$ 255,702
Investments	1,012,861
Petty Cash	 2,050
Total	\$ 1,270,613

There were the following investments and maturities at June 30, 2013:

		Investment Maturities (in months)					
Investment Type	Fair Value	Less than 3	3-18	18-59			
State Treasurer's Investment Pool	\$ 1,012,861	\$ 1,012,861	_\$	\$ -			
Total	\$ 1,012,861	\$ 1,012,861	\$ -	\$ -			

#### Credit Risk – Investments

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated.

# Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments with a maturity beyond three months.

#### Concentration of Credit Risk

At June 30, 2013, 100% of total investments were in the State Treasurer's Investment Pool. State statues do not limit the percentage of investments in this instrument.

#### 4. RECEIVABLES

Receivables at June 30, 2013 consisted of the following:

- A. Property taxes receivable, which represent delinquent amounts due for property taxes levied by the District in the current and prior years.
- B. Grants receivable, which represent amounts due for claims for reimbursement of costs under various Federal grant programs.

Management believes that all receivables are collectible; therefore, no allowance for doubtful accounts is considered necessary.

# NOTES TO BASIC FINANCIAL STATEMENTS

# 5. CAPITAL ASSETS

Total

The changes in capital assets for governmental activities for the fiscal year ended June 30, 2013 are as follows:

	Balance July 1, 2012	Additions	Deletions	Balance June 30, 2013		
Land Buildings and Improvements Equipment and Vehicles	\$ 138,420 1,892,689 808,828	\$ - - 15,571	\$ - - -	\$ 138,420 1,892,689 824,399		
Total Capital Assets	2,839,937	15,571		2,855,508		
Accumulated Depreciation Buildings and Improvements Equipment and Vehicles Total Accumulated Depreciation	(1,583,429) (600,058) (2,183,487)	(29,576) (29,883) (59,459)		(1,613,005) (629,941) (2,242,946)		
Government Activities:						
Capital Assets, net	\$ 656,450	\$ (43,888)		\$ 612,562		
Depreciation was charged to the follow	ring functions:					
Instruction Support Services Enterprise and community Services	\$ 44,594 11,892 2,973					

# 6. INTERFUND RECEIVABLE/PAYABLE AND INTERFUND TRANSFERS

Due to/from other funds at June 30, 2013 and transfers in and out for the year then ended are as follows:

59,459

	Due From			Due to				
	Other Funds		Other Funds		Transfers In		Transfers Out	
General Fund	\$	36,424	\$	-	\$	-	\$	85,200
Federal and State Projects Fund		-		28,299		-		-
Other Governmental		- 		8,125		85,200		
	\$	36,424	\$	36,424	\$	85,200	\$	85,200

Transfers were made to fund operations, and the interfund receivables/payables are used as a pooling of cash between various funds.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 7. OTHER POST-EMPLOYMENT BENEFITS

The District adopted an early retirement incentive stipend plan in 1982. The District also operates a single-employer retiree benefit plan that provides postemployment health, dental, vision and life insurance benefits to eligible employees and their spouses. Generally accepted accounting principles only require Districts to record any implicit subsidy (OPEB obligation), and per the actuary that amount is not significant. Management has determined based upon advice from its actuary that the value of the OPEB obligation is immaterial to the financial statements as a whole and therefore no liability has been recorded in the financial statements.

# Plan Description - Early Retirement

On June 8, 1982, the Board of Directors adopted an early retirement incentive plan for certified employees. Since that time, several revised plans have been adopted. The most recent plan was adopted during the 1994-95 fiscal year. Benefits are available to certified employees who have fifteen years of service with the District immediately prior to retirement and are qualified to retire with full benefits under the Oregon Public Employees Retirement System. Each year, qualified employees are required to notify the District in writing within 120 days of their intention to elect early retirement. In addition, the Board approved a similar contract for a confidential employee. Benefits include monthly stipends ranging from \$300 to \$495 and health insurance. The plan is funded by the General Fund on the pay-as-you-go method.

# Actuarial Methods and Assumptions - Early Retirement

The annual required contribution (ARC) was last determined as part of the June 30, 2010 actuarial valuation using the Entry Age Normal Method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included a rate of return on investment of present and future assets of 3.5% compounded annually. Medical premiums are assumed to be 11% initially, decreasing over 10 years to a rate of 5%. The District's Unfunded Actuarial Accrued Liability (UAAL) is amortized over a five-year open amortization period. Actuarial present values of total projected benefits are determined using the Normal Cost method. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### <u>Plan Description – Post-Employment Health Insurance Subsidy</u>

The District operates a single-employer retiree benefit plan that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements. The post-retirement healthcare plan established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the implicit employer contribution. An irrevocable trust has not been established (or equivalent arrangement) to account for the plan.

# Actuarial Methods and Assumptions - Post-Employment Health Insurance Subsidy

The annual required contribution (ARC) was last determined as part of the June 30, 2010 actuarial valuation using the Entry Age Normal Method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included a rate of return on investment of present and future assets of 3.5% compounded annually. Medical premiums are assumed to be 11% initially, decreasing over 10 years to a rate of 5%. The District's Unfunded Actuarial Accrued Liability (UAAL) is amortized over a five-year open amortization period. Actuarial present values of total projected benefits are determined using the Normal Cost method. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 8. PROPERTY TAX LIMITATION

The State of Oregon imposes a constitutional limit on property taxes for schools and non-school government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

#### 9. DEFINED BENEFIT PENSION PLAN

# Plan Description

Contributions are made to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the District's contributions for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs. The Pension Program, the defined benefit portion of the plan, applies to qualifying employment following a six-month or greater break in service. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contributions portion of the plan.

PERS members retain their existing PERS accounts, but any future contributions are deposited into the member's IAP, not the member's PERS account.

Both PERS plans provide retirement and disability benefits, post-employment healthcare benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR 97281-3700, or by calling (503) 598-7377.

### **Funding Policy**

Members of PERS are required to contribute 6.00% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. The District is required by ORS 238.225 to contribution at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. The OPERF and the OPSRP rates in effect for the two year period beginning June 30, 2011 are 19.48% and 17.97%, respectively. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature.

### **Annual Pension Cost**

Contributions to PERS for the years ending June 30, 2013, 2012 and 2011 were \$349,541, \$387,574 and \$343,995 respectively, which were equal to the required contributions for each year.

### NOTES TO BASIC FINANCIAL STATEMENTS

### 10. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three years.

### 11. COMMITMENTS AND CONTINGENCIES

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on the operations cannot be determined.

There is participation in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The federal audits for these programs for the year ended June 30, 2013 have not been conducted. Accordingly, compliance with grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although such amounts are expected by management to be immaterial.

REQUIRED SUPPLEMENTARY INFORMATION

### SCHEDULES OF FUNDING PROGRESS AND EMPLOYER CONTRIBUTIONS June 30, 2013

#### SCHEDULE OF FUNDING PROGRESS - HEALTH INSURANCE

Actuarial Valuation Date	Val	narial ue of sets	_	Actuarial Liability	Unfunded Actuarial Liability	Funded Ratio	 Covered Payroll	UAAL as a % of Covered Payroll

#### SCHEDULE OF FUNDING PROGRESS - RETIREMENT STIPEND

Actuarial Valuation Date	Valu	arial ae of sets	_	Actuarial Liability	Unfunded Actuarial Liability	Funded Ratio	Covered Payroll	UAAL as a % of Covered Payroll	
6/30/2012 6/30/2011 6/30/2010	\$	- ·	\$	112,386 137,451 170,859	112,386 137,451 170,859	0% 0% 0%	\$ 245,022 245,022 245,022	46% 56% 70%	

#### SCHEDULE OF EMPLOYER CONTRIBUTIONS

Year	A	Annual	
Ended	R	equired	Percentage
June 30,	Cor	tribution	Contributed
2012	\$	37,533	81%
2011		37,533	106%
2010		37,533	110%

The above tables present the most recent actuarial valuations for the District's post-retirement health and welfare benefits plan, and they provide information that approximates the funding progress of the plan.

Generally accepted accounting principles only require Districts to record the net OPEB obligation and not the actuarial liability. The actuary has determinted that the OPEB amount is not significant and therefore immaterial to the financial statements as a whole.

Independent Auditors' Report Required by Oregon State Regulations

PAULY, ROGERS AND CO., P.C. 12700 SW 72<sup>nd</sup> Ave. ♦ Tigard, OR 97223 (503) 620-2632 ♦ (503) 684-7523 FAX www.paulyrogersandcocpas.com

November 29, 2013

#### Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of the Crow-Applegate-Lorane School District No. 66 as of and for the year ended June 30, 2013, and have issued our report thereon dated November 29, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

#### Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.
- Programs funded from outside sources.

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal controls over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

We noted a matter involving the internal control structure and its operation that we consider to be a significant deficiency under standards established by the American Institute of Certified Public Accountants, which is noted in our management letter, dated November 29, 2013.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Roy R. Rogers, CPA

PAULY, ROGERS AND CO., P.C.
