# Informational Technology

Parents....

Attending the Northern Tier Career Center is the first step — a BIG step — in the development of a long-term, rewarding career. We believe in teaching the skills that will be needed for jobs that are currently in demand. Your child will be ready to continue on to college, technical school or enter their career field immediately after graduation.

A vital part of your child's professional growth and development will entail them learning how to prepare for the workforce. At this time, the Center does not anticipate any individual costs to be incurred by students unless they choose to enroll in Penn State WB IST pilot program. Enrollment in the pilot program will consist of an \$86 technology fee as well as a \$100 per credit cost.

All students will be required to dress in a manner consistent with the industry standard, as deemed by the instructor. Students must come to class dressed in a professional manner and prepared to learn with tools and equipment as needed.
