FROM: The School District of Newberry County

RE: Student Accident Insurance
(August 1 – July 31)

DATE: 2018 – 2019 School Term

Newberry County School District is providing an All Student School-Time/Athletic Accident Insurance Program for each student in the district. This will be an "*excess policy or secondary policy*". This means you must first file on your personal insurance (primary insurance) or Medicaid; then after your company or Medicaid has completed paying, you can file on the student insurance. The student insurance policy will pay a portion of the remaining balance of your bills, but **not necessarily 100% of the balance.**

If you desire **24 Hour Accident or Dental** coverage, you may request an application from the school office or off district web site under News & Information, to be completed and returned directly **Health Special Risk, Inc.** address on form. **DO NOT** return application to the school. They will not be accepted.

If you have a claim during the year, you can obtain a claim form from your students' school office. All-School Time / Athletic injuries must be reported immediately and claim filed within **90** days of the injury. Treatment by a licensed physician or hospital facility within **30** days of the date of injury. The policy benefits are payable for **52** weeks from the date of the injury.

If you have questions on a claim you may call ADL Risk Services at 844-350-9897 or via email at info@adlrs.com. For help on filing a claim or further information you may contact Team Assure, Inc. at 334-395-8000 or via email at gary@teamassure.net.
