

Advisory To Parents / Guardians

Dear Parent or Guardian:

State of Michigan law requires that schools and day care centers that may apply pesticides on school or day care property must provide an annual advisory to parents or guardians of students attending the facility.

Please be advised that the Columbia School District utilizes an Integrated Pest Management (IPM) approach to control pests. IPM is a pest management system that utilizes all suitable techniques in a total pest management system with the intent of preventing pests from reaching unacceptable levels or to reduce an existing population to an acceptable level. Pest management techniques emphasize sanitation, pest exclusion, and biological controls. One of the objectives of using an IPM approach is to reduce or eliminate the need for chemical applications of pesticides. However, certain situations may require the need for pesticides to be utilized.

As required by State of Michigan law, you will receive advance notice regarding the non-emergency application of a pesticide such as an insecticide, fungicide or herbicide, other than a bait or gel formulation, that is made to the school or day care grounds or buildings during this school year. Please note that notification is not given for the use of sanitizers, germicides, disinfectants or anti-microbial cleaners. In certain emergencies, such as an infestation of stinging insects, pesticides may be applied without prior notice to prevent injury to students, but you will be notified following any such application.

Advance notification of pesticide applications, other than a bait or gel formulation, will be given by at least 2 methods. The first method will be by posting at the main entrance to the school / day-care center, which would be located at Columbia Central Senior/Junior High School, Columbia Upper Elementary School, Columbia Elementary, and Columbia Community Education Building. The second method will be by one of the method(s) below:

Posting in a public, common area of the school or day care center, other than an entrance. We will post in the Main Offices.

E-mail.

A telephone call by which direct contact is made with a parent or guardian of a student of the school / day- care center or a message is recorded on an answering machine.

Providing the students of the school or children of the day-care center with a written notice to be delivered to their parents or guardians.

Posting information on the school or day-care center's web site.

Please be advised that parents or guardians of children attending the school or day care center are entitled to receive the advance notice of a pesticide application, other than a bait or gel formulation, by first class United States mail postmarked at least 3 days before the pesticide application, if they so request. If you prefer to receive the notification by first class mail, please complete the attached form and return it to our office.

Please be advised that parents or guardians of children attending the school may review the school's Integrated Pest Management program and records of any pesticide application upon request.

REQUEST FOR ADVANCE NOTIFICATION BY FIRST CLASS MAIL

Dear Parent / Guardian:

Complete this form ONLY if you are requesting advance notification of a pesticide application by United States Postal Service first-class mail.

Please be advised that you WILL receive notice via the methods identified in the annual advisory notice and should only complete this form if you are also requesting notification by first-class mail.

If you are requesting prior notification of pesticide treatments conducted at this school or day care center, other than a bait or gel formulation, and you would like the notice to be delivered by United States Postal Service first-class mail, postmarked at least 3 days prior to the planned treatment, please complete the information on the following form and submit it to:

Columbia Central Senior/Junior High School, 11775 Hewitt Road, Brooklyn, Michigan 49230

Contact Person: Bill Bradley – (517) 592-6449

I wish to receive a prior notice of any pesticide application to the school or day care center by first-class mail.

PARENT NAME: _____

STUDENT NAME: _____

STREET ADDRESS: _____

CITY, ZIP _____

DAY PHONE # _____

EVENING PHONE # _____

Please Check One:

I wish to be notified prior to a scheduled pesticide application inside of the school building.

I wish to be notified prior to a scheduled pesticide application on the outside grounds of the school building.

Both of the above.

ADVANCE NOTICE OF PESTICIDE TREATMENT

This notice is to be provided whenever a pesticide, other than a bait or gel formulation, is to be applied at this facility. The information will be posted using the methods identified in the annual Advisory To Parents.

Attention: Parents / Guardians of students attending this facility:

This facility utilizes an Integrated Pest Management approach for pest control, employing non-chemical methods that include sanitation and exclusion to control pests. However, from time to time a pesticide application may be necessary to control certain pests.

Please be advised that a pesticide is expected to be applied to control ants and cockroaches.

The approximate location of this pest control treatment is High School Kitchen.

The anticipated date of treatment will be first Tuesday of each month.

If you have questions pertaining to this treatment, please contact:

Name: Bill Bradley

Phone: (517) 592-6449

E-mail: bill.bradley@myeagles.org

For further information pertaining to pesticides you can contact the National Pesticide Information Center at Oregon State University. The toll free number is 800-858-7378. The web site is www.npic.orst.edu.

For additional information pertaining to pesticide use, you can contact the Michigan Department of Agriculture and Rural Development (MDARD). The MDARD's web site is www.michigan.gov/mdard and a contact phone number for MDARD is 800-292-3939.
