### Grade Point Average/Class Rank

The Grade Point Average is computed by adding the value of the grades of all subjects studied and dividing the total by the number of courses studied.

	A = 5.0	A- = 4.7
B+ = 4.3	B = 4.0	B- = 3.7
C+ = 3.3	C = 3.0	C- = 2.7
D+ = 2.3	D = 2.0	D- = 1.7
	F = 1.0	

All grades earned in classes offered at Annawan High School during the regular school year with the exception of Physical Education, are used in computing class rank. Class rank is computed at the end of each semester.

The standard method for converting from Annawan High School's 5.0 scale to a standard 4.0 scale is to subtract 1 from the total GPA. (Example: A 4.76 on Annawan's scale would be considered a 3.76 on a 4.0 scale.)

### Weighted Grading System

Annawan High School has the following courses that earn a weighted grade:

\*Indicates course is a Dual Credit course

^Indicates courses that can be taken as Dual Enrollment, but are taught by a BHC instructor.

Trigonometry	Chemistry

In weighted courses letter grades from A through C- are increased by 1 unit. (Example: A- from 4.7 to 5.7)
