

Childress ISD
School Health Advisory Council/Wellness Committee
February 6, 2018 at 4:00PM
Childress ISD District Support Center

Approval of Minutes from November 6:

Members reviewed minutes from November 6. Lou Ellerbrook made a motion to approve and Jody Piper seconded. All voted to approve the minutes.

February Menus:

February Menus were passed out.

First Aid Certification:

Jody Piper reported that they have created a schedule to try to get all high school students CPR trained over the next few years. This year they plan on training the Freshmen and Seniors. Training of the high school students will be a yearly occurrence from now on.

Sarah Mills reported that the district has been working with Gerardo Garcia to provide training to all teachers and staff in August. This will not be the full blown certification training but all staff will know basic first aid.

Basketball Goals at Elementary:

TPO has purchased additional basketball goals to be installed in the Elementary gym so all students can be actively involved in practice time. We are just waiting on them to be installed.

Open Discussion

Leisa Elliott mentioned that the EKG testing had to be postponed due to the abundance of illness. It will be done at a time after we have less sickness going around.

Melanie Latimer mentioned that FitnessGram testing will start at the beginning of April.

On Feb. 22 the Elementary TPO is putting on a Health and Safety Fair in conjunction with Amarillo Venom, F3, Apollo Med Flight, and CRMC. It will take place from 6-7 p.m.

March will be the sealant clinic for all 2nd graders.

Next Meeting

The SHAC committee will meet again April 24, 2018.
