

Childress ISD
School Health Advisory Council/Wellness Committee
November 6, 2017 at 4:00PM
Childress ISD District Support Center

Approval of Minutes from Sept. 5:

Went over minutes from Sept. 5. Ann Johnson made a motion to approve with Janet Word 2nd. All voted to approve the minutes.

Cafeteria:

Tracy Cummins spoke to the SHAC committee regarding the November/December menus

-Lunch counts are up from last year. We are on a cycle menu from ESC 16. High School and Junior High are on a 6 week cycle while Elementary is on a 12 week cycle since they only have one entree.

First Aid Certification for Teachers:

We are going to work on getting more teachers First Aid Certified by offering a First Aid course. We discussed that there was a difference in being First Aid certified vs. CPR certified - it is two different courses.

Basketball Goals at Elementary:

TPO is purchasing 4 additional basketball goals to be installed in the Elementary gym so all students can be actively involved in practice time.

Open Discussion

Leisa Elliott mentioned that there is a Flu Shot clinic today from 4:30-6:00 at Fox Clinic. They hope to have a good turnout.

Also, she mentioned that the lady who has the EKG program is ready to schedule a date for the screening this year. They are wanting to possibly open it up to the community after our students are screened. We can screen 7th graders and new athletes to the district, however we will take anyone who is interested. \$20/screening and is open to staff as well.

Reagan Garrison asked how the Telehealth was going. Leisa said that there are some issues with the machine connection and they are trying to get worked out but parents who have used the service have been very happy.

Jill Teran mentioned the Health Fair that Dawn Dockter held last year and wanted to know the possibility of expanding this to the other campuses.

Next Meeting

The SHAC committee will meet again February 6, 2018.
