July 31, 2019

Welcome to Kindergarten!

We can't wait to see you on Science Day, August 8, 2019 at Maine campus! We will be in the library, which is in the 200 building. That's the main entrance building. Please DO NOT bring your supplies that day. Bring them on our Assessment and Visit Days when you will be coming to our campus.

When you come on Science Day you will sign up for a short assessment. It will take approximately 15 minutes. You will also sign up for one of our 3 visit times. You come with your child and visit your child's teacher's classroom, talk with Ms. Lyn Kelly and myself, and drive through our carpool so you will understand how it works.

We are looking forward to this year and all the activities, opportunities and learning that the year brings! See you on the 8th!

With H.E.A.R.T.

Debbie Scalia, Director (Rivertown)

Nikisha S. Kelly, Director (Discovery Education Center)
