Section I - General Policies

Non-Discrimination Policy

Applicants for admission and employment, students, parents of elementary, middle school, and secondary school students, employees, source of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with Lockwood R-I School District are hereby notified that this institution does not discriminate on the basis of race, color, national origin, sex, age, or handicap in admission/access to, or treatment/employment in its programs and activities. Any person having inquiries concerning Lockwood R-I compliance with the regulations implementing Title VI, Title IX, or section 504 is directed to the district’s Superintendent.

Title IX

Any student who believes they have been discriminated against, denied a benefit or excluded from participation in any school/district activity on the basis of sex, in violation of Title IX may file a written complaint with the building principal who will give it to the superintendent.

Senate Bill 319

Section 162.670 – 162.999 RSMo requires that students not be promoted to the next grade level unless they have a “reading level at or above one grade level below the student’s grade level.” Students with Individual Education Plans (IEPSs) are exempt from this requirement. High School students in grades 9-12 are also exempt because promotion for secondary students is based upon credits earned. Limiting the use, for accreditation purposes, of MAP scores from students with limited English proficiency. Elimination of the “retest” requirements for students scoring at “Step 1” on the MAP exams. Board Policy IKE outlines procedures to follow in other decisions regarding student promotion or retention.

Student Rights

It should be understood that the student does not divest himself/herself of his/her constitutional rights when entering Lockwood R-I School, so long as he/she does not disrupt the educational process or impose upon, endanger, or deprive others of their rights. No student will interfere with the learning, safety, welfare, or property of another.

Each student is required to accept responsibility for his/her own conduct, and in so doing, accept the responsibility for the consequences of his/her own choice.
Due Process

All students are entitled to due process. This means that there are certain procedures that school officials will follow prior to taking appropriate disciplinary actions. This includes notices to the charges and the opportunity for the student to respond.

Privacy Rights

Under the Family Educational Rights and Privacy Act, the following guidelines apply to educational records:

1. Directory information may be disclosed if public notice has been given. The types of personally identifiable information must be designated as directory information (name, grade, address, etc.). A parent or eligible student has the right to refuse to let the school publish this information. They must notify the school in writing not to release the information within 2 weeks of official enrollment.

2. Parents have free access to records until the student is 18 or longer if student is a dependent.

3. The student has access after turning 18.

4. Third parties having access are: school officials with legitimate interest; (audit or program evaluators; persons connected with application for financial aid; persons conducting studies for tests or instructional improvement (no identifiable information); accrediting organizations, DFS/Foster parents (if custodial); and court order or subpoena; and those with parental consent.

5. The school must keep records of requests and grants to access – except to parents, student, school officials, and others with consent.

PUBLIC NOTICE

All responsible public agencies are required to locate, evaluate, and identify children with disabilities who are under the jurisdiction of the agency, regardless of the severity of the disability, including children attending private schools, children who live outside the district but are attending a private school within the district, highly mobile children, such as migrant and homeless children, children who are wards of the state, and children who are suspected of having a disability and in need of special education even though they are advancing from grade to grade. The Lockwood R-I School District assures that it will provide a free, appropriate public education (FAPE) to all eligible children with disabilities between the ages of 3 and 21 under its jurisdiction. Disabilities include autism, deaf/blindness, emotional disorders, hearing impairment and deafness, intellectual disability, multiple disabilities, orthopedic impairment, other health impairments, specific learning disabilities, speech or language impairment, traumatic brain injury, visual impairment/blindness and young child with a developmental delay.

The Lockwood R-I School District assures that it will provide information and referral services necessary to assist the State in the implementation of early intervention services for infants and toddlers eligible for the Missouri First Steps program.
The Lockwood R-I School District assures that personally identifiable information collected, used, or maintained by the agency for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The Lockwood R-I School District has developed a Local Compliance Plan for the implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This plan contains the agency’s policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency’s assurances that services are provided in compliance with the General Education Provision Act (GEPA). This plan may be reviewed at the Superintendent’s office during regular school hours.

This notice will be provided in native languages as appropriate.

Rev. August 15, 2013

Section II - Academic Policies

Educational development is a lifelong process. A thorough understanding of the basic skills is essential for all areas of development. It is a goal of Lockwood R-I School to promote a positive attitude toward learning in a success-oriented environment geared toward individual abilities. Students will have the opportunity to become proficient in communication, quantitative thinking, scientific understanding, analytical and critical reasoning, decision making, and aesthetic appreciation. Students, Teachers, and Parents must work cooperatively to insure that the best education is provided.

Notifications of Public Insurance
Parent/Guardian Notification to Access Public Insurance

Dear Parents/Guardians:

For a number of years, Missouri has participated in a federal program called Medicaid School-Based Services. The program helps school districts by providing partial reimbursement for some medically related services listed on a student’s individualized educational program (IEP). Under the Individuals with Disabilities Education Act (IDEA), school districts are permitted to seek payment from public insurance programs such as Medicaid (called MO HealthNet in Missouri) for some IEP services provided by the school.

In 2013, the requirements under the IDEA changed to be less burdensome for parent/guardians and schools. Before a school district may access you public insurance for the first time and every year thereafter, school districts must provide parents/guardians with written notification. So what does that mean?

What will you be asked to do?
You will be asked to give your consent in writing one time to release information from your child’s education records, including information about the services you receive through the IEP. This information is being released for the purpose of billing MO HealthNet and seeking partial payment for some medically related IEP services under the IDEA.

What type of information will be in the consent form?
The consent form must tell you the personally identifiable information that may be disclosed, such as your
child’s name, date of birth, Social Security number (if provided), Medicaid number or other identification, disability type, IEP and evaluations, types of services, times and dates of service, and progress notes. The consent form must also tell you the purpose of the disclosure (e.g. payment from MO HealthNet) and the agency that will get the information.

**What does it mean if you give your consent?**
By consenting, you state you understand and agree that your MO HealthNet insurance will be billed to partially pay the cost of IEP series and that the necessary information about your child and the IEP services may be shared with the MO HealthNet Division, a contracted billing agent, and/or a physician to obtain necessary supporting documentation (e.g. physician scripts, referrals) in order to access your MO HealthNet benefits.

**Can you be required to enroll with the MO HealthNet Division (MHD) for public insurance?**
You cannot be required to sign up for or enroll in public insurance for your child to receive a free appropriate public education, including IEP services.

**Will you consent affect your family’s MO HealthNet benefits?**
No. Reimbursed services provided by your school district do not limit coverage, change eligibility, affect benefits, or count against visit or funding limits in MO HealthNet programs.

**What if you change your mind?**
You have the right to withdraw consent to disclose your child’s personally identifiable information to the MO HealthNet Division for billing purposes at any time.

**Will your consent or refusal to give consent affect your child’s IEP services?**
No. Your school district must provide all required IEP services to your child at no cost to you, whether you give consent or refuse to give consent for purposes of the school accessing your MO HealthNet benefits.

**What if you have a question?**
Please call your school district’s Special Education Department with questions or concerns.

---

**Student Progress**

**Student Progress Reports** (grades 3-8) will be sent to parents at the end of each quarter and mid-quarter reports will be sent also. These reports will be sent if student work is not sufficiently progressing, behavior, and/or work habits are causing a student to fall below his/her ability level or are in danger of receiving a failing grade. Teachers (K-8) may send other notifications periodically to let parents and students know of the progress being made.

Parents should contact the office, classroom teacher, and/or counselor to arrange a conference where deemed necessary.

**Report Cards**
Report cards are issued (grades 3-8) in each subject at the end of every nine-week period which is referred to as a quarter. There are four quarterly grades given and a first and second semester grade given in each subject area. Students in Kindergarten through 2nd Grades receive a report card explaining levels of mastery on objectives or goals set by the district for that particular grade level. (Standards Based Grades)

**Parent-Teacher Conferences**

Lockwood R-I School knows the importance of student success through involvement and communication of school and home. Therefore, the district conducts Parent-Teacher Conferences to discuss student progress twice per year. The district provides evening hours to accommodate busy schedules. The district also encourages parents/guardians to arrange additional conferences, as needed, to keep informed of student progress.
Grading Scale

Lockwood R-I Elementary-Middle School recognizes the grading scale below for grades 3-8. Special symbols and terms appropriate to the educational program may be used to indicate student progress. Grades will be based on many factors such as: text assignments (both oral and written), class participation, special assignments, research activities, projects and special circumstances. Grading will not be used as a tool for disciplinary action.

Homework

It is a practice of Lockwood R-I Elementary-Middle School that homework is at the discretion of the individual teacher. Teachers are encouraged to be aware of the assignments that other teachers are giving so that an undue amount of homework does not pile up on the student on a particular night.

Students who regularly complete homework are often successful in school and in society. Students develop excellent study habits if they make a commitment to finish all work.

Follow these steps:
1. Write down complete assignments in assignment book, purchased from the district.
2. Use class-time to begin/finish as much homework as possible. This is the best time to ask the teacher questions about assignments.
3. Use advisory time or before and after school time to check assignment book entries.
4. See your classroom teacher if you have difficulties or visit the Counselor.

How Parents Can Help

Every parent wants the best for his/her child. It is important for a child to feel the support and unified efforts of home and school to insure his/her success. Parents can help the district insure a successful education for each student by:
1. Supporting the school. Maintain a positive attitude about education, school, and the teachers. If a problem occurs at school, work with the school to find a solution.
2. Insist upon regular attendance and punctuality.
3. Become acquainted with your child’s teachers and cooperate closely with him/her. Make a point of seeing grade reports at each grading period.
Attend all meetings for parents. Learn “what is going on at school” so you can discuss schoolwork and activities at home.

4. If at all possible, provide the student with a “private” study area at home - a place where he/she may study without interruption. Check on homework preparation. Very few students can finish all their work at school. Check your child’s assignment book every night. Encourage him/her to use it.

5. Read the handbook completely. It answers many questions that parents have and explains the consequences should unwise decisions be made.

6. The school welcomes opportunities to work with parents. Feel free to call the office at any time to arrange a consultation. The number is (417) 232-4528.

Honor Roll

Lockwood R-I Elementary-Middle School recognizes outstanding students for academic success at the end of each quarter and semester. Students are recognized for achieving the “A Honor Roll” and the “A-B Honor Roll”. Names are published in the Greenfield Vedette and students are recognized at school.

A/B Honor Roll Parties-

Students in grades PK-3rd will be eligible if they’ve had positive academic progress with standards based grading and no office referral behaviors in accordance with teachers discretion in conjunction with agreement with the principal on the office referral and discretion of behaviors. **Teachers K-8 can direct specific students deemed as ineligible due to behaviors at discretion with the principal that can be told they aren’t eligible and won’t be allowed to attend celebrations and including field trips.**

Students in grades 4-8th will be eligible if they’ve had positive academic progress with A’s and B’s and no office referrals.

Retention/Promotion

Students that fulfill the requirements of the grade level completed will be promoted to the next grade level. If these requirements are not met, the student may be a candidate for retention. The retention of a student will be based on ability, attendance, maturity level, and reading ability. Middle School students who fail 2 core classes typically are considered for retention.

When it is the opinion of the classroom teacher and the principal that it is in the best interest of an elementary student, he/she may repeat a grade. A conference will be arranged with the child’s parents to consider this possibility. After reviewing all circumstances, the principal will make the final decision on the basis of what is best for the individual child.

Library Services
The library is provided for study, research, and reading. It is therefore necessary that a quiet and orderly atmosphere be maintained at all times. Conduct should be such that no person interferes with or infringes upon the rights of others.

Students are permitted and encouraged to check out library materials. The school librarians establish loan guidelines. Students are expected to pay for lost or damaged materials.

Counseling Services

The major goal of the counselor is to support students on an individual or small group basis to achieve each child’s potential. One of the ways this is accomplished is through counseling. Counseling is providing information and clarification to parents, teachers, and students to help them work through the normal problems of life. School counseling is not a diagnostic process and it is not psychotherapy. Students with severe emotional problems may be referred to the appropriate outside agencies.

Anti-Bullying policy updates to include: HB 1583
Seven (7) specific sections
1. Anti-Bullying Statement: The school district believes in all students being provided a safe learning environment that is free of bullying behaviors.
2. Employee Statement: All employees that become aware of bullying will report it to the proper channels necessary.
3. Bullying reports are to be made and filled out accordingly. Office referral paperwork in conjunction with the building principal and or counselor.
4. Procedures for a prompt investigation will be followed on any reports of bullying.
5. Any retaliation for reports of bullying will be investigated and prohibited according to discipline policy.
6. The policy will be publicized by the district on the district website and in the policy handbook.
7. All staff will go thru training thru annual PD (professional development) regarding anti-bullying procedures and reporting.

Tests and Examinations

Suitable assessments are given in the various courses at intervals determined by the teachers. Assessments may be used to determine each pupil’s retention of knowledge and skills or to measure the nature of his/her abilities, extent of understanding, or ability to think. All of these are important in educational growth and development. Every student should strive to do his/her best on these tests.

Both tests and examinations serve as a means of learning as well as measuring devices. Standardized tests which measure a student’s overall achievement in certain areas or which measure a student’s capacities and aptitudes are given at various times during the school year. Results of these tests are recorded and become a part of the educational record.

Special Education Services
Lockwood R-I School provides a free and appropriate public education to all handicapped children as required by the Missouri State Education Handicapped Act (P.L. 94-142). The district provides the following special education services.

Speech: Provide students with speech therapy or language development exercises when speech or language skills interfere with communication.

Learning Opportunities Class: Provide instruction for students who have specific areas requiring a program of learning methods adapted to the student’s needs.

Individual Progress Class: Provide instruction to students who generally perform below the level of their peers and require specialized instruction for maximum development.

Section III - Attendance Policies

In order for a student to receive credit for a class a student must be in attendance at least 80 days per semester. (84 attendance days possible per semester) If extenuating circumstances exist that will prevent a student from fulfilling the attendance requirement, you need to contact the school in order to arrange a conference to discuss this matter.

Lockwood R-1 School District Attendance Policy

The Lockwood R-1 School District Attendance Policy allows for nine (9) absences per class period within the one hundred sixty-two (162) day school year. Absences are recorded hourly and attendance is based upon Monday through Friday when school is in regular session. Only the days and times, which are calculated by Average Daily Attendance (ADA) will be used to determine the attendance requirement. Student’s participating in a school sponsored activity outside of the school building will not be counted towards the nine (9) allowable absences.

Procedures for Administering the Attendance Policy

1. All absences are recorded hourly.
2. For an absence to be Excused a parent/guardian must notify the school office by phone the day of the student’s absence. The parent/guardian may leave a message on the schools answering machine. A reminder to parent/guardian an excused absence allows the student to make-up the day’s assignments but, the absence counts towards the allowable nine (9) absences for the school year.
3. Failure to notify the school office of a student’s absence will be recorded as an Un-Excused absence.
4. All students who arrive at school after 8:15 a.m. must check into the office to obtain an admit slip regardless of what time of the school day.
5. Students arriving more than ten (10) minutes late for class are considered absent from the class period.
6. All students leaving school during the school day must check out through the office. Office personnel must receive permission from the parent/guardian prior to
the students checking out. A student cannot check him or herself in or out of school. A parent or guardian must sign the student in or out in the office. Any student leaving without checking out will be considered truant.

7. Students participating in school sponsored or sanctioned activities will not be considered absent from school.

8. Students who are absent from school, will not be allowed to participate in or attend an after school activity on the day of the absence without approval from the building principal.

9. Students must attend the last three (3) class periods of the school day to be able to participate in or attend an after school activity unless they have prior approval from the building principal.

10. A student who is suspended may receive a conditional waver of the attendance requirements, if the number of days of suspension would cause the student to be unable to fulfill the minimum attendance requirement. If a waver is granted, a student must not be absent again during the school year.

****Excessive absenteeism that is deemed to be hindering a child’s education beyond the 9 days may be reported to children’s division of social services.

Students attending and enrolled in public schools have the goal of receiving an education and attendance is important in order to do so. (Any sickness or extreme events occurring to cause absence will be taken into consideration.)

Parent/Guardian Notification of Student Attendance

1. On the eighth (9) absence in the school year, the principal’s office will notify the parent/guardian by letter of the dates and periods missed.

2. On the ninth (9) absence in the school year, the principal’s office will notify the parent/guardian by letter of the dates and periods missed. The letter will also request the parent/guardian to contact by phone the principal’s office within five (5) school days.

3. Excessive absences will be referred to the Juvenile Office and/or The Division of Family Services.

4. If a student or parent/guardian wishes to appeal any decision that has been made concerning the attendance requirements, he or she should contact the principal to schedule a meeting. The next level of appeal would be with the Superintendent of Schools. The final appeal in the process, if requested, would be with the Board of Education. An appeal must be requested no later than the last regular school day of the quarter in question.

Attendance Waiver

Students are expected to attend school regularly. The attendance waiver allows relief in cases where the absence was beyond the control of the student. Application for an attendance waiver should be turned into the principal’s office at least two (2) weeks in advance of anticipated absence or within five (5) school days after the absence. If a waiver is granted the student is still considered absent, but the time missed does not count against the attendance requirements. If the absences are of such nature that the student’s education would seriously impaired, homebound instruction maybe considered.

Attendance Waiver Guidelines
Documentation to support a request for an attendance waiver must be submitted to the principal’s office. Documentation must include specific dates and accompanied by the signatures or the appropriate persons.

Attendance Waivers will not be Granted for the Following
Truancy – Suspension – Personal/Family Vacation

Perfect Attendance

To be considered for perfect attendance, a student must be in school every day that school is in session. A student may miss up to three (3) hours in a year and still be considered for perfect attendance as long as the same class is not missed more than once or if the absence is related to disabilities or required religious observances.

Make-up Work Policy

Missed work shall be made up by the student’s own initiative. It is the student’s and students’ parents’ responsibility in the event of absences to contact the teachers to obtain the assignments. The request must be made upon return to class – not days or weeks later.

Maximum time allowed for completion of assignments will be one day for each day missed in accordance with the late assignments policy.

Incomplete grades: In the event a student receives an incomplete in a course at the end of a grading period, he must complete all work within ten days, otherwise an F will be recorded on his permanent record card.

All make-up work must be completed outside the regular class period or during the student’s advisory period.

Late Work: Late assignments are to be given a make-up exception whether 1 day late or more during a quarter. These assignments will be given a top end grade of possible 70%. Each quarter will begin again with this accordingly.

Extra-curricular Activities
Students participating in school sponsored or sanctioned activities will not be considered absent from school. However, students should remember that class work takes preference over extra-curricular activities. When participating in extra-curricular activities a student’s regular class work must be done to the teacher’s satisfaction. This includes class notes, assigned questions, or other assigned work to compensate for missed class work and time. Students must be passing in all classes in order to participate in extracurricular activities/sports. The guidelines for participation are to follow district policy of having all passing end of previous quarter grades on all subject areas. (This is in accordance with the grading scale of a D/60% or above.)

****Students that have an F at the time will not be permitted to leave the school during school hours for any extracurricular events.
(Example: Athletic events, field trips)

Residency

To enroll at Lockwood R-I School, a student’s parent/guardian must provide proof of residency within the boundaries of the Lockwood R-I School District and the domicile of the student is the domicile of the parent/guardian. Custody

If a parent has sole custody, and the non-custodial parent is not to see the child, the school must have a legal document stating this. We cannot deny a parent access to a child unless we have a legal document.

School Day Defined

The school day may be defined as the period of time beginning with arrival at school and ending with the dismissal of classes and the departure of the students from the school premises. Also, all student who remain after school for extra-curricular
activities are regarded as having extended the regular school day until these activities end and the student leaves the school premises.

While students are at school, at any time, they are under supervision of school personnel and subject to all practices, rules, and regulations of the Lockwood R-I School District. Students that leave the school premises and then return to school for a school sponsored activity, either at school or away, are regarded as continuing a part of the school day, and are subject to the rules of the school. Classes begin at 8:15 a.m. and are dismissed at 3:15 p.m.

Arrival at School

School instruction begins promptly at 8:15 a.m. Students who do not ride a bus, but eat breakfast in the cafeteria, should arrive after 7:45 a.m. and report immediately to their classroom or designated area. Students will be dismissed to breakfast by a teacher. Students, who do not ride the bus and do not eat breakfast in the cafeteria, should not arrive before 8:00 a.m. They should then report immediately to their classroom. Breakfast will not be served if students arrive after 8:10 am in the cafeteria for breakfast.

Arrival and Dismissal Procedures

Lockwood R-I Elementary-Middle School will dismiss at 3:15 p.m.

Locust Street is restricted for bus loading and unloading. Students riding in vehicles should be dropped off and picked up in the circle drive on the East Side of the school building. During bus loading and unloading times vehicles are not permitted for drop off in the west entrance / locust street area. This would be 7:45-8:15 and 3:00-3:20pm.

Walkers and bike riders will arrive and will be dismissed following the departure of the buses from the front entrance. Students walking or riding bikes should use the crosswalks when crossing the streets near the school. A crossing guard will be on duty at the Highway 160 crosswalk each morning (8:00 a.m.) and evening. Bikes are not to be ridden on sidewalks or in the crosswalks. Students are to respond promptly and courteously to the crossing guard’s directions. Skateboards or electronic skateboard/skating devices are not permitted at school. No wheelie shoes.

Arriving Late/Leaving Early

The Lockwood R-I District encourages students to attend school daily and to be in the school for the entire session. However, if it is necessary to bring a student late or take a student out before the regular dismissal time, the parent must sign the child in or out at the office. These periods of time will be noted as partial absences.

Tardy Policy
Tardiness is defined as not being in your seat when the bell rings for class to begin. Tardiness of more than ten minutes will be considered an absence.

1. If you arrive late to school report to the office with parent/guardian to sign in before going to your locker or classroom.
2. During the day, if you arrive late to class, your teacher will send you to the office for an admit slip.
3. If a teacher has detained you, ask that teacher for a note explaining the tardiness and give it to your next teacher.
4. Upon the fourth unexcused tardy in a quarter, a student will meet with the principal and receive detention.

Changes in Student’s After School Routine

When it is necessary for a student to deviate from his/her normal routine, such as walking to Grandma’s instead of riding the bus, a note from the parent must be presented to the office. Guardians must contact the office by 2:30pm in order to make changes.

Emergency After School Changes

After school changes need to be kept to a minimum. Daily changes often confuse and upset children. It is very important that your child has a regular routine after school. It is also a classroom disruption at the end of the day.

In the event that a change needs to be made due to an emergency or unplanned event, changes will need to be called into the office no later than 2:30 p.m. No changes will be made after 2:30 p.m.

Visitor’s Policy

All visitors to the building and persons wishing to talk with a student or faculty member, regardless of the reason, must go to the principal’s office for permission before proceeding. All visitors must sign in and out and prominently wear a “Visitor” badge, provided at the office, upon each visit. All visitors must be cleared through the administrative office. Teachers shall not allow visitors in their classrooms without clearance. Parents and other visitors will not be permitted to disturb class work unless brought to a classroom by a member of the administration. At no time will student visitors be allowed to visit classes.

Student Withdrawal from School

Any student desiring to leave Lockwood R-I School must notify the school office. It is the responsibility of the student to have the parents confirm the student’s withdrawal. The office will give the student a checkout card that must be presented and signed by each of the student’s teachers, showing that he/she has made
satisfactory clearance. After a student has made the proper withdrawal, a transcript of credits earned will then be sent to the school of his request.

Section IV - Expected Student Behaviors

Lockwood Elementary and Middle School has established high standards for student behaviors. The following expected student behaviors are examples of expectations we hold for our students. When students demonstrate these positive behaviors, they help create a safe and productive learning environment that promotes accelerated achievement. Discipline Policies

The Student Code of Conduct is designed to foster student responsibility, respect self and others, and to ensure the orderly operation of Lockwood R-I Elementary-Middle School. No code can be expected to list each and every offense, which may
result in the use of disciplinary action. However, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, or an aggravated circumstance of any offense or an action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent, and/or Board of Education. The Student Code of Conduct applies to students during the time a student is on school property, in school buildings, on buses, and at school activities. The general rule is while the student is under school personnel supervision to, from, on, and during school functions: the code is in effect.

Search and Seizure

The administration shall conduct a search of students or property owned by students if there is probable cause or good reason to believe a school rule or policy has been violated. A general search of students lockers may be made by school administration if there is prior information available justifying the search.

At the reasonable discretion of the school administration, the police may be involved when the evidence of criminal activity is uncovered or when the student refuses to cooperate with the school administrators conducting the search. The student’s parents shall be notified if police involvement is requested. A student who refuses to cooperate will be subject to immediate suspension. The student body will be notified at the time of an unscheduled drug dog search to remain in classrooms during the search.

Due Process

This booklet has explained the major disciplinary problem areas and the actions that may result for those students who will not follow the rules. All students are entitled to due process. This means that no action will be taken against a student until everyone has presented the facts involved, and a judgment has been made. There are certain procedures which students must follow if they do not agree with the school actions. A student has the right to an explanation of the charges against him/her, an opportunity to present his/her side of the case and an opportunity to appeal as provided by school or state law.

Hopefully, students will never be in a situation where they need the protection of due process. If however, a student does become involved in a suspension or expulsion both the student and his/her legal guardian, upon request, may be given a more detailed description of the due process procedure. Students will have knowledge of all charges against them and have the opportunity to express their side of any incident in which they may be involved. If the student is dissatisfied with any decision, he/she has the right to appeal through the following channels:

1) Principal shall schedule a conference with the student and any staff members
involved attempting to resolve the problem. Parent/Guardian may be involved in the conference, or a later conference for parent/guardian may be scheduled at the discretion of the principal.

2) Superintendent: If the problem is not resolved to the satisfaction of the student and/or parent/guardian, a request may be submitted for a conference with the superintendent of schools. The superintendent shall arrange a conference to consider the problem, and to inform participants of the action to be taken.

3) Board of Education: If the student and/or the parent/guardian are not satisfied with the action of the superintendent, they may submit a written request to appear before the Board of Education. Unless required by law, a hearing will be at the discretion of the Board. The decision of the board shall be final.

Documentation in Student’s Discipline Record

The principal or designee will maintain all discipline records as deemed necessary for the orderly operation of the school. In addition, any offense that constitutes a “serious violation of the district’s discipline policy” must be documented in the student’s discipline record in accordance with law. A “serious violation of the district’s discipline policy” is defined as one (1) or more of the following acts if committed by a student enrolled in the district”.

2. Any offense that occurs on school property, on school transportation or at any school activity that is required by law to be reported to law enforcement officials.

Section VII - Food Service

The cafeteria at Lockwood R-I School provides Type A-lunches in accordance with the School Lunch Section of the State Department of Education. Lunch periods are announced at the beginning of each school term for each respective class.

Lockwood R-I Elementary-Middle School operates a closed lunch hour. Lunches should not to be brought to school at the beginning of a lunch shift. Parents bringing lunches for students must bring the lunch directly to the office for check-in, this will prevent disturbance to the educational process. All students must eat in the school cafeteria or designated areas whether they purchase a school lunch or bring their lunch to school.

With a closed lunch hour, students will not be able to go to lockers or use hallways until the end of the lunch period because of the different classes that will be in session.

Students may obtain an application form from the office at any time throughout the year.

Section VIII - Health Policies

Students are not to go to the nurse’s office without permission from the classroom teacher or office staff except in cases of an emergency. If the illness appears to be serious, efforts will be made to contact parents. If the parents cannot be reached, the emergency number listed on the child’s enrollment/registration papers will be called. Each parent/guardian should make sure that the emergency number is listed and kept current. The parent/guardian may indicate on the card if they are willing for school personnel to authorize medical treatment in those cases when parents cannot be reached.
Immunizations

The Missouri School Immunizations Law (19 CRS 20-28.010) states that students cannot enroll in or attend school unless they are properly immunized or are exempted and provide satisfactory evidence of such immunization or exemption. If your child has received additional immunizations during the summer, please send the date-day, month, and year- to the district health clerk. State law requires that if a child’s immunizations are NOT up-to-date on the First Day of School, he/she will be sent home. There is no longer a grace period.

1. DPT (3 doses – 1 after 4th birthday)
2. Polio (3 doses – 1 after 4th birthday)
3. Rubella (K-6, 1 dose on or after 1st birthday)
4. Measles (K-5, 2 doses on or after 1st birthday, grades 6-12 + 1 dose on or after 1st birthday)
5. Mumps (1 dose on or after 1st birthday)

Contagious conditions follow the State guidelines. No student may attend school until written doctor’s permission and/or nurse’s permission is granted on the following illnesses: Chicken pox, impetigo, pertussis, ring worms, strep throat, and head lice.

Fever

A child who has a temperature elevation or shows signs of illness should be kept at home. He/she should have a normal temperature for 24 hours and be in normal health before returning to school. Any contagious disease should be reported to the school office immediately.

Prescription and Non-Prescription Medications

The school nurse/health clerk will administer medication that is to be given to a child at school. All medication should be delivered to the school by the parent or other designated adult. Prescription medication must be kept in the current prescription bottle. Specific written instructions stating the exact dosage, the hour of the day to be given, and the termination date should accompany both prescription and non-prescription medicine. Over-the-counter medication may be administered by the nurse/clerk if provided by the parent and brought and maintained in the office. Parents must provide written permission for the nurse/clerk to administer these and all medications.

Section IX - Student Activities

To be eligible to participate in extracurricular activities (Grade 7-12), the student must meet the Missouri State High School Activities Association guidelines.

Eligibility to represent a school in interscholastic activities is a privilege students may attain by meeting the essential eligibility requirements established by member schools through this association and any additional requirements set by a member school for its own students. Eligibility is not a student’s right by law, and precedent
setting legal cases have affirmed this. Lockwood R-I Elementary-Middle School offers the following interscholastic activities for it’s students: baseball/softball, football, volleyball, basketball, track, cheerleading, band, vocal music, and academic bowl.

All clubs, classes, or organizations will follow established guidelines. A student organization must have an educational objective and be for the purpose of prompting better education and/or student’s interest in their educational pursuits. Also each student organization must have a staff member to act as a sponsor to ensure that the goals of the organization are met.

Any club or school organization shall have a written constitution stating its purpose, eligibility for membership, and procedures for electing officers. A list of all current members should be given to the office one week following the first meeting of the school year.

Any student who is a member of a school organization and/or club or an officer of such organization and/or club shall comply with all rules and regulations of the organization and/or club as established by the advisor and/or school administrator. Any violations may result in removal from the club and/or organization and office as determined by the school administrator and/or advisor.

Activity Accounting

All money handled by the various clubs, classes, or organizations shall be channeled through the Activity Account of Lockwood R-I School District funds. The money collected by the different groups shall be turned into the principal’s office not later than 1:00 p.m. for proper accounting and banking. Requests for the expenditures of the different funds should be made by the proper authorities of the school. Groups wishing to know the balance on hand of any particular fund may get this information by calling the office of the bookkeeper.

School Publications

All school publications are provided as educational endeavors and are subject to approval by the staff member in charge of all publications and the administration.

Assemblies

Student assemblies are held to provide information or for student recognition. Whether guests are present or not, each student is personally responsible for the impression made by the school as a whole. Unacceptable conduct would include whistling, uncalled for clapping, boisterousness, and talking during the program. Any student who does not cooperate is subject to discipline procedures and exclusion from future programs.

Field Trips
Field trips are usually taken near the completion of each school year. Field trips are a great incentive for students. Students with unsatisfactory or failing grades, excessive absences and/or students that have identified by the principal to be a constant disruption with poor or inappropriate behavior that includes multiple office referrals-will not be allowed to participate in field trips/extra activities/field day.

Parents are welcome to attend and help supervise these trips. However, parents will not be permitted to accompany the class on the school bus depending on seat availability and safety regulations. Siblings, not enrolled in the field trip class, are not allowed to attend organized field trips sponsored by the school.

Students riding the bus to school events are expected to ride the bus back. Failure to secure permission from the sponsor to return with your parents or individuals designated by the parent, in person, may forfeit your privilege of riding the bus to extra-curricular events. Permission to do so otherwise will be granted only upon the personal request of a student’s parent/guardian.

School Spirit

School Spirit means more than cheering at a game. It means upholding standards of the school and supporting school activities. A student who is loyal will never bring discredit to the school or to himself. Loyalty may be shown by the promptness and willingness with which the student meets school obligations, conduct in hallways and classrooms, in assemblies and on the street. Pride in the personal appearance of the student body is reflected in the neatness and appropriateness of dress.

There will be situations that are not specifically mentioned in this publication. In these instances the individual should display conduct in the manner, which will bring credit to the school. The student is responsible to the school for proper conduct at all school-sponsored activities, both home and at other locations. Likewise, every member of the faculty has the obligation to act in the interest of good conduct both in the classroom or where any school activity is in progress, and a suggestion by any teacher designed to further good conduct should be followed.

Sportsmanship

It is important that coaches, sponsors, teams, and individuals who have the privilege of representing Lockwood Schools, do so in a sportsmanlike manner. Good sportsmanship and a sense of fair play do not interfere with winning success. School extracurricular activities allow students the opportunity to develop physical skills, to interact with students from other schools, to develop self-discipline, and to perform before an audience. Many other aspects of life are taught and promoted through interscholastic activities, and none are more important than good sportsmanship.

Participant Commitment
Students who choose to tryout and who are selected to represent Lockwood R-I Elementary-Middle School in interscholastic activities are challenged to offer their best effort. The expectations are high in regards to the rules of good conduct, to the exhibition of good sportsmanship, to work ethic of devoted practice, and the challenge of one’s best performance.

Students are to recognize the importance of accepting responsibility, need for specific training and practice, and the willingness to place the team or group’s best interest before selfish ulterior motives. In the process of competition, students will encounter attributes designed to help develop success for both the present and the future. They are afforded the opportunities to foster good character, dependability, self-discipline, honest, responsibility, respect, and sacrifice.

Whereas, challenges are made to each participant to glean from the situation to meet his/her individual need of self-interest, in most cases, the real reward comes when students recognize the benefits received by working in unison to accomplish or reach goals which could not be attained by an individual on their own. Commitment is the foundation of success in the interscholastic activities program.

Student Activities Code of Conduct

As a member of Lockwood R-I Elementary-Middle School activities program, students are expected to understand:

1. Alcohol and tobacco are harmful to the body and hinder maximum effort and performance.
2. The use of profanity has no place in the program.
3. The importance of a good attendance record is immeasurable. Students should never choose to be truant from class or school.
4. The importance of proper rest, diet, and exercise are invaluable to activity participants.
5. The care of equipment should be the same as if it were one’s own personal property.
6. All specific training and practice rules designed by the coach/sponsor are to be obeyed.
7. Each person must budget his/her time and energy to ensure that studies and grades represent his/her true abilities.
8. Officials do not win or lose a game/contest but are present to help ensure all participants receive fair and equal consideration. They deserve to be treated with respect.
9. Participants who represent a team, group, school, and community shall dress in appropriate attire.
10. Commitments to scheduled practices and contests for school teams and groups should take precedence over other leisure time interests and outside recreational activities.
11. Participation in an activity should never become a priority over one’s safety, health, or welfare.
12. Participants who are not in compliance with school rules and policies are placing themselves in a position of disqualification from the activities program.
Student Conflicts

Should the scheduling of extracurricular activities cause a conflict with student participation, that conflict shall be resolved by the sponsors and building principal. As a general rule, the level of participation will be the deciding factor. As an example, a contest takes precedent over a practice, or a state sponsored contest will take precedent over a school scheduled event. The building principal will always make the final determination. At no time will students be required to decide in which event to participate.

Suspension from School

A student may not rejoin interscholastic activities until the situation has been cleared up to the satisfaction the coaches/sponsors and administrator. Additional rules and provisions will be made at the organizational meeting of the various activities. Students are expected to know all provisions of the Lockwood R-I School Student Code of Conduct. Ignorance of regulations is not an excuse of violations.

General guidelines and expectations for participants

All students when representing the school are expected to follow the rules of good conduct and adhere to the rules of the school district, coach, and sponsor. Students need to understand each coach, director, or sponsor will have specific rules and expectations for an activity. Because of club by-laws; constitutions; physical conditioning or training; safety procedures, tryout and practices it is necessary for coaches, directors, and/or sponsors to design specific regulations to accommodate the variables in each activity. The general guidelines and expectations are as follows:

1. Health and Safety

   1. No student will be permitted to participate in any school-sponsored activity without the consent of the parent/guardian. If applicable, a completed MSHSAA participation certificate which includes a necessary examination by medical physician, student covered insurance verification, student information, and parental permission to participate is required. 2. Sponsors may allow students to ride to an activity with their parents, if the parents personally make the request in person or by the phone.

(Students always have the right to due process and may appeal through the proper channels.

II. Scholastic Standards
Student participation will be subject to all eligibility standards set forth in the Missouri State High School Activities Association (MSHSAA). It is the responsibility of the head coach/sponsor to inform the participants of the rules and regulations.

The Board of Education has adopted academic standards for students who participate in school sanctioned activities in the Lockwood R-I School District. In keeping with the mission, philosophy, and goals of the district, it is the purpose of the school district to educate students first through the mastery of academic skills.

The local academic standards for student activity participation are for all local clubs, organizations, and MSHSAA activities. The following guidelines are included:

A. No student failing more than one class will be allowed to participate in any extracurricular activity.
B. Students enrolling in the district for the first time shall be ruled eligible in regards to the local policy. However, students must meet the MSHSAA standard of eligibility to participate in interscholastic activities.

IV. Interscholastic Participation Rules Policy

2. The participation rules policy does not govern students when their season of participation is not in progress. It starts when practice sessions have started. It ends when the participation season is completed and the students have completed all of their obligations such as returning home from the last contest and the turning in all issued equipment.
3. The maximum numbers of days a student is ineligible for violating the participation rules policy is 180 school days. These days may be
carried over from the preceding year. All days are counted from the date of the incident.

Section XI - Miscellaneous

Bringing Items to School

Students should not bring articles to school, which are fragile, or of great value. Toys, including sport and game equipment, should be left at home. Teachers will instruct the classes as to when they may bring items to share with the class. Parents should always check with the teacher and administrator if there are questions. Pets will not be allowed to visit the school, due to allergies and safety of students and animals.

Electronic Devices

Radios, cassette players, compact disc players, headphones, pagers, laser pens, i-pods, mp3 players, video games and other such devices are not allowed at school or on school buses. If students must bring a cell phone to school, it should be kept in the student’s backpack or locker. The use of cell phones is not permitted during
class, between classes, during lunch or recess, without prior approval from the building principal. If there is a specific project where one of these items is needed, prior approval must be obtained from the principal. The school is not responsible for lost or stolen items.

Emergency Messages

Lockwood R-I Schools does not provide a message delivery system. Only in an extreme emergency may a class be interrupted to deliver a message to a student. Only emergency calls from parent/guardian will be considered for delivery.

Fire and Tornado Drills

Directions for fire and tornado drills and other emergency procedures have been developed for each building and posted in each classroom. Each teacher will give students specific instructions for each classroom. In the event of actual emergency, students are reminded to keep calm, quiet, and follow the directions of the teacher.

Flowers/Balloons/Gifts

Deliveries of Flowers, balloons, and other items for special occasions will not be accepted at the elementary/middle school office. Individuals should make other arrangements for delivery location for the above mentioned items. This includes items delivered by parents and/or guardians.

Food, Drink

Students may not eat or drink in the hallways or the classrooms. Food may be eaten only during breakfast and lunch in the cafeteria. Exceptions to this policy will be made on specific occasions or during extreme weather conditions by the administration.

Fund Raisers

All organizations must have their fund raising projects approved by the principal.

Insurance

School districts are not generally held legally liable for accidental injuries sustained by students while at school or while participating in school-related activities. As a service to the students and parents, the district makes available an accidental injury policy for students that can be purchased at a reasonable price. The policy is available on a “school-day basis” or “24 hour basis”.

Lockers
School lockers are the property of the Board of Education and are provided for the convenience of the students to use during the school day. Sometimes two students may need to share a locker. The student or students assigned to a locker are responsible for the care of that locker. Students are not allowed to change lockers without approval of the office. Bottles, cans, cups, or any liquid container will not be kept in the lockers. Money and other valuables should not be kept in the lockers. If students wish to put a lock on the assigned locker, a key or combination must be provided to the office.

Lost and Found

The lost and found is maintained through the elementary-middle school office. Students who either find or lose articles should report to the office. The loss of property may be minimized by placing the owner’s name on every article. Articles left in lost and found will be kept until the end of the quarter. All unclaimed articles will be sent to local charities or disposed of properly.

Teacher’s Workroom

Students are not permitted in the teacher’s workroom at any time without teacher or para supervision.

Telephone Usage

The telephone is not to be used by students at any time without direct permission by the administrator. Permission will only be granted in an emergency situation. Leaving assignments, gym clothes, and/or making after-school plans are not considered emergencies. Students are not allowed to answer the telephone in any classroom.
