

Reeths-Puffer Schools
Agreement for Acceptable Use of Technology Resources
Students Grades K-6

Building/Program Name

Student Name

I understand that I may sometimes be permitted to use the District's computers, electronic devices, and Internet at school and at home. To use computers, electronic devices, or the Internet, I understand that I must follow school rules for computer and Internet use.

As a student I promise that:

- I will only use the computers, electronic devices, and Internet for school work.
- I will only use the computers, electronic devices, and Internet when my teacher or other school employee tells me that I am allowed to use the computers, electronic devices, and Internet.
- I will not use the Internet to try to look at websites that I know are for adults only or that I know I shouldn't access.
- If I accidentally access a website or see something that is not appropriate, I will tell my teacher or another school employee right away.
- I will not use the computers, electronic devices, or Internet to bully or harm any other person. If someone else uses the computers, electronic devices, or Internet to bully or harm me, I will tell my teacher or another school employee right away.
- I will not damage the computers, electronic devices, or cause problems with the computers, electronic devices, or Internet on purpose.
- I will not use the computers, electronic devices, or Internet to cheat on my schoolwork.
- I will not copy anything that I see on the computers or Internet and pretend that it is my own work.
- I will keep my password secret from all other students.
- I understand that I may only email my teacher or another student in my classroom.
- I understand that the school can see everything that I do on the computers, electronic devices, and Internet.
- I understand that the school has filters on the computers, electronic devices, and Internet, which means I might not be able to see some information. I will not try to interfere with those filters.
- I will follow all of these rules. I will also follow any directions that my teacher or another school employee gives me about my use of the computers, electronic devices, or the Internet.

As a Parent:

I have read this Agreement and agree that as a condition of my child's use of the District's technology resources, which include (1) internal and external network infrastructure, (2) Internet and network access, (3) computers, (4) servers, (5) storage devices, (6) peripherals, (7) software, and (8) messaging or communication systems, I release the District and its board members, agents, and employees, including its Internet Service Provider, from all liability related to my child's use or inability to use the technology resources. I also indemnify the District and its board members, agents, and employees, including its Internet Service Provider, for any fees, expenses, or damages incurred as a result of my child's use, or misuse, of the District's technology resources.

- I have explained the rules listed above to my child.

I understand that Reeths-Puffer, like most schools, is a Google Apps for Education site. I understand that Google Sync is used to save each individual student's online history, settings, bookmarks, apps, extensions and themes (not downloads). This allows students to log into any Google Chrome account and have all their documents and sites saved for continued work and access.

- I understand that District Administration will analyze applications and tools offered through Google Apps for Education and authorize student access to those with educational value.
- I understand that my student will be assigned an email address. This email address is set up to be used for logging on to the computer and to keep their online document secure from others.
- I understand that my child's email cannot send or receive any email outside of the school district, including sending or receiving emails to or from you as a parent.
- I authorize the District consent to the sharing of information about my child to website operators as necessary to enable my child to participate in any program, course, or assignment requiring such consent under the Children's Online Privacy Protection Act.
- I understand that data my child sends or receives over the District's technology resources is not private. I consent to having the District monitor and inspect my child's use of the technology resources, including any electronic communications that my child sends or receives through the technology resources.
- I understand and agree that my child will not be able to use the District's technology resources until this Agreement has been signed by both my child and me.
- I have read this Agreement and agree to its terms.
