A. Administrative Report on Curriculum—Pre-K Discussion

Dr. Asplund stated that the District was informed this week by the ROE that the Pre-K Grant budget in the District was cut by \$120,000 based on preliminary numbers. Originally the District was led to believe there would be an increase in funds. Dr. Asplund stated that several area Superintendents were travelling to the ISBE conference in Chicago on Wednesday, June 13, 2018 to ask for a reconsideration of funds. If cuts remain, the District will serve approximately 80 fewer children from last year. Member Lyon stated that if the funding levels remain at the preliminary numbers, he feels the ROE should consider reallocating the funds. He stated that four area schools with less need are being allowed to continue full day preschool and District 205 with the most need is losing funding leaving the District unable to maintain the same services as the 2017-2018 school year.

B. Building Reports

Member Lyon and Cervantez thanked the principals for changing their building reports as requested by the board. Member Glasnovich stated she appreciated the high school report addition showing future plans for current graduates.

C. Special Education Report

Dr. Michaud stated that special education extended school year is halfway through. There are twelve students attending extended school year and twenty students receiving speech services. Special education still has shortages of two teachers and school psychologists.

Focus Area #2: Facilities That Assist in Skill Acquisition

A. Consider Approval of Steele Playground Renovation Bid

Mrs. Hamm stated that the only difference from the drawings provided is the green space. The equipment will actually be closer together and rubber mulch will be used rather than a pourable rubber surface due to cost. Mrs. Hamm discussed where the new fencing would be located. Member Statham suggested a gate for safety reasons which Mrs. Hamm stated would be added. Member Scherpe stated that the rubber mulch isn't cohesive for wheelchair accessibility. Mrs. Hamm stated she would discuss with the engineer about the potential of moving certain items and possibly adding sidewalks to make wheelchair movement easier. Mrs. Hamm added that the Galesburg Public Schools Foundation donated \$10,000.00 to the playground and over the weekend Mrs. Jennifer Graves learned there was an additional \$5,000.00 being donated by a private donor. It was moved by Member Pickrel and seconded by Member Glasnovich to approve the

Steele renovation bid. On roll call the following Members voted AYE: Scherpe, Statham, Cervantez, Glasnovich, Lyon, Pickrel (6) Motion carried. Roll Call #5

B. Consider Approval of Legat Architects for Building Study

Dr. Asplund stated that a result of the community engagement meetings held earlier in the year, it was decided to reexamine the architectural study from last year. The district put out a request for qualifications and received feedback from three firms. Legat was chosen to move forward pending board approval. Member Lyon stated that as much as he would have liked for funds to be spent locally on professional services, he feels Legat is the best choice. It was moved by Member Statham and seconded by Member Lyon to approve as presented. On roll call the following Members voted AYE: Statham, Glasnovich, Pickrel, Scherpe, Cervantez, Lyon (6) Motion carried. Roll Call #6

C. Building Study Update

Mrs. Hamm stated that the building and grounds committee met prior to the board meeting to look at the three (3) proposals that came in from architect firms. Mrs. Hamm stated that the hope is to bring a firm forward for recommendation at the June meeting to begin looking at options for building configurations. President Cervantez questioned how this process would be different from prior. Dr. Asplund stated that there will be current financial information included and bonding authority, along with feedback from the community engagement meetings to guide.

E. Update on District Building Projects

Mrs. Hamm stated that some preschool work has taken place on windows, doors, painting, and general maintenance around the district. Resurfacing of the GHS parking lot and Silas Willard parking lot work has begun with hopes of being done at the end of July. Mrs. Hamm stated that Greenview has visited both properties at Steele and Silas and she is waiting for a landscaping proposal. Member Cervantez asked about the status of health and life safety money. Dr. Asplund gave an update and stated that at this point the District is not in violation of any laws regarding health and life safety money and is still seeking answers.

F. Enrollment Report

Member Lyon asked about the Kindergarten registration numbers. Dr. Asplund stated that while it is lower than normal, it can't be compared to prior years because the process this year is different.

It was moved by Member Pickrel and seconded by Member Glasnovich to approve as presented. Dr. Asplund stated that it be published to the community, be on future board agendas for discussion and there will be different timelines for each. President Cervantez pointed out that goal five is related to the new

funding model for education in Illinois and will be how funding is assessed. Comparison of what we spend in our buildings and how it lines up with the factors of the new funding model and if differentiation of where dollars are spent is needed. Brief discussion ensued regarding the increase being due to the bleachers in Thiel Gym not being part of the water damage and now the premium is raising to recoup the money spent.
