

Dear Parents/Guardians,

ISD 690 is now using Schoology district wide as an integrated learning management solution that provides course management, mobile learning, and support for system wide communication. Schoology enables our students, parents and teachers to engage with learning materials and their school community from the classroom and beyond. We look forward to using Schoology in our classrooms to track grades, enhance connectivity, and communication.

With Schoology, students can digitally submit homework assignments, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity within the platform. In order for parents to obtain access to Schoology, you will need the unique Parent Access Code that is included with step by step login directions on the back side of this letter. This needs to be done only one time, not every year.

Student progress and activity will be monitored by faculty to ensure a safe, secure, and controlled environment. Personal information as well as student data, images and files are not available on the public internet. In order to access information stored within these systems, users are issued a secure username and password similar to our Infinite Campus and Google Apps for Education systems.

Infinite Campus will provide final grade calculation for report cards and the official record for final grades and transcripts, schedules and health information. More information on this will come later.

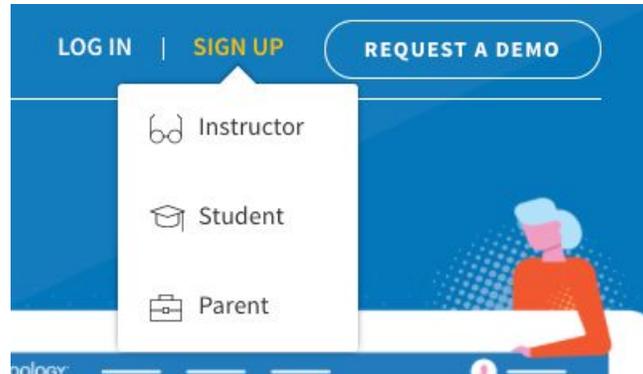

Questions: Contact your student's school office.

SIGN UP AS A PARENT

To sign up for a new Schoology account

If you don't already have a Schoology account, go to [schoology.com](https://www.schoology.com) and click **Sign Up** then choose **Parent**.

1. Enter your Access Code. This is a 12-digit code in **xxxx-xxxx-xxxx** format that you receive from one of your child's instructors or school office secretary.

A screenshot of the 'Sign up for Schoology' form. The form has a title 'Sign up for Schoology' and a 'Back' link. Below the title is an input field labeled 'Access Code' with a placeholder text 'Enter the access code provided by your child's instructor'. Below the input field is a large blue button labeled 'Continue'.

2. Fill out the form with YOUR (not your child's) information.
3. Click **Register** to complete.

When you use a Parent Access Code to create an account, you are automatically associated to your child.

****You can add **additional children** to your account using the [Add Child](#) button if you already have a Schoology account created by clicking on the drop down arrow next to you name.

Additional Notes:

- Once parents have created a Schoology Account online, there is a Schoology App on both Android and Apple that will allow for easy access to grades and announcements. Please visit your app store for this free download and use the same user account to log-in.
- Those parents who created accounts at the beginning of the year temporarily lost access to their students during the syncing of our accounts. These should be fixed now. If there are any lingering issues with pre-existing accounts, please contact Nichole Abernathy at nichole_abernathy@warroad.k12.mn.us
