

Head Start/Early Head Start is a federally funded Infant/Toddler and Pre-school program that serves low-income children ages 0-5 and their families at no monetary cost to the parent. We encourage parents and family members to participate in many different ways...through reading a book, helping with projects or activities. Become a part of the Policy Council and take part in the decision making for the program. All of these things are vital to the success of the program and more importantly the ongoing success of your children and families. We offer a program for Expectant Mothers during and after pregnancy. Our goal is to ultimately enroll the child after birth at 6 weeks of age. It is Early Head Start's goal to promote healthy prenatal outcomes for pregnant women and to enhance the development of young children. Head Start's goal is to promote school readiness, through Literacy, Language and develop Social and Emotional skills. Head Start/Early Head Start also provides early identification and intervention for disabilities and developmental delayed children.

When applying for the program please have following items:

Birth Certificate, Income proof, Immunization Record, Insurance card.

PLEASE NOTE: Items listed above must be provided when applying.
