

1 **6017**
2 **Homework**

3
4 Homework consists of assignments made by teachers that students
5 must complete during non-class time. Homework is intended to
6 ensure student learning of certain concepts and/or skills found in the
7 written and taught curriculum.

8
9 Teachers are encouraged to assign homework and must use their
10 professional judgment in determining the length, difficulty, and
11 student readiness to proceed with homework assignments. Homework
12 assignments shall be kept minimal on Wednesday nights, which is
13 traditionally considered "family night" in the community.
